Kelly Adams
Chambersburg Waste Paper Facility
2047 Loop Road
Chambersburg, PA 17202

Re: Local Municipality Involvement Process Meeting

Dear Kelly Adams:

As required by Pennsylvania's Waste Regulations and the Department of Environmental Protection's Local Municipality Involvement Process Policy, DEP is required to meet with local municipal officials to discuss applications for municipal or residual waste transfer, processing and disposal facilities, expansions, or increases in disposal capacity or volume limits, and to address any questions or concerns you may have regarding the impacts of the proposed operations on nearby communities.

Chambersburg Waste Paper Company, Inc. (CWP) has submitted an application for a new municipal waste transfer station permit to be located at 2047 Loop Road, Chambersburg, PA 17202-8842. The facility is proposing to receive up to 300 tons per day of municipal solid waste, construction demolition waste and approved residual waste. Recyclable materials will be removed from the Waste and the waste will then be reloaded into a transfer vehicle for transport to a permitted waste disposal facility.

We will be conducting a meeting to discuss the application on Tuesday, January 10, 2023. The meeting will be held at Chambersburg Waste Paper Facility, 2047 Loop Road, Chambersburg, PA 17202, at 10:00 AM. DEP will explain the role of the parties involved in this process—local officials, the applicant and DEP. Because this meeting is designed as an opportunity for you to ask questions and to make comments about the application, your attendance is encouraged. These meetings are not public meetings. This process is in addition to the public participation opportunities normally offered by the Department.

If you have any questions, please call John Oren at 717.705.4907. Written correspondence pertaining to this process can be sent to Department of Environmental Protection, Waste Management Program, Southcentral Region, 909 Elmerton Avenue, Harrisburg, PA 17110-8200.

Sincerely,

A handwritten signature in black ink that reads "John Oren". The signature is written in a cursive style.

Environmental Engineering Manager
DEP/SCRO Waste Management Program

January 10, 2023 Local Municipal Involvement Process Meeting Summary **Chambersburg Waste Paper Inc. Municipal Waste Transfer Station**

On January 10, 2023, the Pennsylvania Department of Environmental Protection (DEP) Southcentral Region Waste Management Program met with Chambersburg Waste Paper (CWP) Inc., Martin & Martin Inc., Palmer Construction Company Inc., and delegates for Representative Rob Kauffman and Senator Doug Mastriano to discuss an application submitted by Chambersburg Waste Paper Inc. The facility is proposing to receive up to 300 tons of municipal solid waste, construction demolition waste, and approved residual waster per day. Recyclable material will be removed from the waste and the waste will then be reloaded into a transfer vehicle for transport to a permitted waste disposal site.

DEP presented a brief overview of the local municipal involvement process, as well as an overview of the application review and environmental assessment process. Martin & Martin then presented an overview of the permit application.

An open discussion, question-and-answer session followed Martin & Martin's presentation. DEP asked where the Guilford Township boundary line was on the property, as there was some discrepancy with online maps. Martin and Martin Inc. responded that they will provide clarification as to the location of the Guilford Township boundary line.

DEP asked if there were any issues with traffic and tractor trailers on the haul route and whether PennDOT has been contacted. Martin and Martin will provide clarification as part of the permit review process.

Chambersburg Waste Paper Inc. is going to transfer waste from multiple smaller load vehicles to larger capacity trucks for proper transportation to the landfill. This will reduce the overall number of trucks from the facility to dispose of waste. CWP will use RT 11 for access to the transfer station. Recycling will then occur for what's easily distinguishable. Berms and screening are already in place and the stormwater management facility is already constructed. The land development plan has already been approved.

CWP currently has an area for construction/demolition to recycle clean materials operating under a DEP Solid Waste Management General Permit. Stationary mount radiation monitors will be mounted at weigh scales or hand held devices will be used.

The application will be documented as received as of the date of the this LMIP meeting, 1/10/2023. The application will be published in the PA Bulletin at a later date.

Questions or comments may be directed to Mr. John Oren, Permitting Section Chief at 717.705.4907, joren@pa.gov, or at the following address:

Re: Administrative Completeness Review
New Transfer Station Permit
Chambersburg Waste Paper Company, Inc.
APS ID No. 1079109 Auth No. 1423732 On Base Ref. No. 75362
Guilford Township, Franklin County

Dear Kelly Adams:

The Department of Environmental Protection (DEP) has reviewed the above referenced application for completeness. The Department has determined that the application package contains sufficient detail to enable DEP to conduct the technical review and has been accepted for that purpose.

This is not a final action by the Department on this application. The completeness review is the first in a series of reviews conducted by DEP. The application will now move to the technical review stage of the permit review process. To follow your application through the review process, please visit *eFACTS on the Web* at:

<https://www.ahs.dep.pa.gov/eFACTSWeb/default.aspx>

I hope that you find this information helpful in understanding the permit review process. If you have additional questions about your application, please contact me at anpick@pa.gov or 717.705.4797.

Sincerely,

Andrew Pick
