

NPDES PUBLIC NOTICE

Application for National Pollutant Discharge Elimination System (NPDES) Permit for Discharges of Stormwater Associated with Construction Activities

Southcentral Regional Office: Waterways and Wetlands Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, Phone: 717.705.4802.

The Department of Environmental Protection (DEP) has received an application for an Individual NPDES Permit from the applicant named below to authorize discharges of stormwater associated with construction activities to surface waters of the Commonwealth. In addition, DEP has made a tentative decision to issue an Individual NPDES Permit to the applicant. Interested persons may submit written comments to DEP at the address above within 30 days of the publication of this notice for DEP's consideration in taking a final action on the permit application. You may also review the permit application file by contacting DEP's File Review Coordinator at 717-705-4732.

Applicant: M&G Realty Inc.

Applicant Address: 2295 N Susquehanna Trail, Suite C, York, PA 17404-8495

Application Number: PAD310013 A- 2

Application Type: Major Amendment

Project Site Name: Rutters Huntingdon Store #93

Project Site Address: William Penn Highway, Huntingdon, PA 16652

Municipality / County: Smithfield Township, Huntingdon County

Total Earth Disturbance Area: 7.67 acres

Surface Waters Receiving Stormwater Discharges: Unnamed Tributary to Juniata River (WWF, MF) and EV Wetlands

Proposed Effluent Limitations: The draft permit requires implementation of an Erosion and Sediment Control (E&S) Plan and a Post-Construction Stormwater Management (PCSM) Plan and compliance with federal technology-based effluent standards at 40 CFR Part 450.

Rate or Frequency of Discharge: Stormwater discharges during and following earth disturbance activities are precipitation-induced and will vary depending on factors such as the area of impervious surfaces, the size and placement of best management practices (BMPs) and the intensity of precipitation.

Project Description: The proposed project is the construction of a new Rutters Convenience Store including site access and stormwater Management controls. The major modifications of the existing permit is for the site to be redesigned using the Managed Release Concept (MRC) for stormwater management due to the presence of pyritic shale. All infiltration BMPs and SCM's will be removed from the existing site.

Special Conditions: N/A
