

October 6, 2016

Mr. John Oren, P.E.  
Permits Chief  
Waste Management Program  
Pennsylvania Department of Environmental Protection  
909 Elmerton Avenue  
Harrisburg, PA 17110-8200

RE: Lancaster County Solid Waste Management Authority response to the the Department of Environmental Protection's letter; vertical expansion & increases in daily volumes Frey Farm Landfill Permit No. 101389 Manor Township, Lancaster County; dated September 13, 2016, related to additional information provided by Attorney Dwight Yoder of Gibble, Kraybill & Hess, LLP.

Dear Mr. Oren:

Thank you for providing the additional information supplied by Attorney Dwight Yoder. LCSWMA has shared and reviewed the additional letters and reports from Walter Leis PG, Charles K. Scharnberger PhD, and Chris H. Cramer PhD with our team of professional engineers and geologists from ARM, HDR, HGS and Tensar. LCSWMA has sought second opinions, related to the geologic and seismic conditions at the request of the PADEP, which we provided in our June 17th letter. We neither wish to amend nor supplement information provided to PADEP related to the geologic and seismic peak ground acceleration at this time. Our team of highly-respected engineers and geologists are certified by the Commonwealth of Pennsylvania to practice as professionals; and these professionals have certified the site conditions and design meet both PA code Title 25 Chapter 273 related to landfill siting and design as well as USEPA RCRA Subtitle D (258) criterion related to seismic design.

Attorney Yoder continues to demonstrate his intent to stop or delay the permitting process related to the Major Modification of the Frey Farm Landfill Permit. It should be noted that Attorney Yoder's consultants are not responsible for certifying the design and individual biases exist among all disciplines in professional and academic communities. We will continue to review any and all alleged issues Attorney Yoder may choose to bring to your or our attention related to the Frey Farm Landfill Permit Application.

Thank you again for providing the letters and reports, please do not hesitate in contacting me if there are any questions or concerns related to our permit application or any other issue related to the Frey Farm Landfill.

Respectfully submitted,

Mark D Reider CPSS/SC  
Director of Environmental Compliance
