Dear Mr. Ramesh:

On October 16, 2018 the Department of Environmental Protection (DEP) received the above referenced plan approval application for a proposed commercial facility for treatment and storage of hazardous and residual liquid waste streams located in Falls Township, Bucks County. Therefore, Pursuant to 25 Pa. Code § 127.12d (relating to completeness determination), DEP has reviewed the application to determine whether it contains the necessary documents to be considered administratively complete. Please be advised that the application package contains sufficient detail to enable DEP to conduct the technical review, and has been accepted for that purpose.

This is not a final action by DEP on this application. Permit applications undergo a series of reviews before the DEP reaches a final decision. The completeness review is the first in a series of reviews conducted by the DEP. The application will now move to the technical review stage of the permit review process. To help you follow the Plan Approval application review process, please visit *eFACTS on the Web* at: <http://www.ahs2.dep.state.pa.us/eFactsWeb/default.aspx>.

If you have any questions about your application or the permitting process, please contact me and refer to the above referenced **APS ID No. 980277, AUTH ID No. 1250768, APPLICATION NO. 09-0228A**.

Sincerely,
