Comments/Recommendations: Enforcement since last FCE Yes No. (If yes, attach summary)
 I arrived on site at 9:00 am to conduct a Method 9 visible emissions observation. I met with Jim Allen from R.E. Pierson and Ronald Bennett from Compliance Plus Services. The first test began at 9:40 am and the second test began at 11:10 am. Six different points within the Melott screening operation were observed and no dust was noted. The crushers were not in operation. I observed that no further construction of the primary/permanent crusher has taken place, and it appeared that the asphalt plant has not been constructed further as well. The roads appeared adequately wet and I noted no fugitive emissions or malodors.

Compliance Status: In Out Pending Awaiting Co. Report Needs a Follow-Up Inspection? Yes No
