DEPARTMENT OF HEALTH

November 25, 2020

Rockhill Environmental Preservation Alliance, Inc.  
703 West Market Street  
Perkasie, PA 18944

Dear Rockhill Environmental Preservation Alliance, Inc,

The Pennsylvania Department of Health (DOH) has received your correspondence, dated November 16, 2020, concerning the negative health impacts caused by continued operations at the Rockhill Quarry. The DOH's Bureau of Epidemiology has reviewed the sampling results and provided input regarding the health impacts should further operations continue. The DOH is responsible for determining the potential health risks, but DOH does not have the legislative authority to regulate activity occurring on commercial properties. The DOH's Bureau of Epidemiology is available for further consult and review should new determinants be established.

If you have any additional health-based questions about NOA and/or interpreting environmental sampling data associated with this site, please do not hesitate to contact us at [env.health.concerns@pa.gov](mailto:env.health.concerns@pa.gov) or 717-787-3350.

Sincerely,

A handwritten signature in black ink, appearing to read "Raphael M. Barishansky".

Raphael M. Barishansky  
Deputy Secretary,  
Health Preparedness and Community Protection
