**Narrative:**

3/14/2025

1415 I arrive at the Site, and proceeded to meet TRC contractors conducting wipe and soil sampling on behalf of SPS Technologies at the Abington Friends School at 1430.

The purpose of the Site visits was to observe the collection of wipe and soil samples being conducted in the community by TRC. Representatives from TRC included: Kyle McCauley, Assoc. Toxicologist, Michael Stevens, Project Manager, Daniel Silva Geologist. TR and I discussed equipment decon. water disposal options. I recommended offsite disposal of the decon water after results are available.

Table 1 below reflects the samples collected. At 1805 the group left Abington Friends School and proceeded to Jenkintown Elementary School. I arrived at Jenkintown Elementary School at 1830 to observe TRC conducting the wipe and soil samples there. At 1945 I left the Site.
