Capt. A. P. Sorensen

At the Policy Committee Meeting held 10-8-59, this procedure was approved
regarding the subject containers.

1. EMPTY CYANIDE CONTAINERS - Paper Type

   a. Cut up inner plastic bag liner and place in empty parent container

   b. Cut or punch holes in bottom and sides of container.

   c. Section emptying container to crush same, then attach special
      "Poison Tag" immediately.

   d. Deliver "tagged", crushed container to Receiving - Attention:
      Mr. Miller.

   e. Disposition - to be hauled to sand pit and dumped. All container
      tags to be removed by trucker and returned to Mr. Miller as the
      truck leaves plant.

2. EMPTY CYANIDE CONTAINERS - Metal Type

   a. Follow sections "a through e", as in 1. above.

3. CYANIDE "SLUDGE" WASTE IN METAL "CYANIDE" CONTAINERS

   a. Section disposing sludge to seal container and attach "Poison Tag"

   b. Section supervisor to handle hauling instructions to electric truc
      personally, send to Receiving, Attention: Mr. Miller.

   c. Disposition of containers at Receiving:
      1. Mr. C. Miller to notify Mr. Ellis (trucker) that the material
         is ready for disposition.

3. CYANIDE "SLUDGE" WASTE IN METAL "CYANIDE" CONTAINERS (cont)

2. Mr. Ellis should dispose of these containers in line with his hauling agreement.

Any deliberate disregard for the above ruling shall constitute a serious breach of plant safety rules and will necessitate disciplinary action.
