RE: MAX Environmental Technologies, Inc. – Yukon Facility
Hazardous Waste Landfill No. 7
I.D. No. PAD004835146
APS No. 1071176
AUTH No. 1410078

Dear Ms. Svitek:

MAX Environmental Technologies is withdrawing its hazardous waste Landfill 7 Phase 1 permit application, effective today February 17, 2023.

Although we believe we submitted a technically and legally sound permit application that unequivocally meets PADEP's Phase 1 exclusionary siting criteria for commercial hazardous waste landfills and have adequately addressed all of PADEP's comments on these criteria, we understand that there are other issues of concern to PADEP that will need more time to be more thoroughly addressed. We do not think that this can be done within the limited time afforded to us by PADEP for the current permit application.

We plan to resubmit the permit application at a later date after we have worked through these other issues in more detail. We will keep you informed of our schedule for permit application resubmittal.

If you have any questions, please let us know.

Sincerely,

A handwritten signature in blue ink, appearing to read "Carl Spadaro".
