

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Prepared according to Canadian Hazardous Products Regulations (SOR/2015-17) (WHMIS 2015)

Date of issue: 07/25/2019

Revision date: 06/20/2022

Version: 1.1

#### **SECTION 1: Identification**

Identification

Product form Trade name

: Mixture : UpperCut®

1.2. Recommended use and restrictions on use

Use of the substance/mixture

: Emulsifier.

Details of the supplier of the safety data sheet

Refined Technologies, Inc. P.O. Box 132196

The Woodlands 77393 Texas T 888-634-3183 Canadian Office: Refined Technologies, Inc. 99 Pembina Rd.

Sherwood Park, AB T8H OJ4, Canada

780-449-1060

CService@r-t-i.com

1.4. Emergency telephone number

Emergency number

: (800) 633-8253

#### SECTION 2: Hazard(s) identification

#### Classification of the substance or mixture

**GHS** classification Skin Irrit, 2 H315 Eye Irrit. 2 H319

#### GHS Label elements, including precautionary statements 2.2.

**GHS labelling** 

Hazard pictograms (GHS)

Signal word (GHS)

Hazard statements (GHS)

Warning

H315 - Causes skin irritation.

H319 - Causes serious eye irritation.

Precautionary statements (GHS)

: P264 - Wash hands, forearms and face thoroughly after handling.

P280 - Wear eye protection, face protection, protective clothing, protective gloves.

P302+P352 - If on skin: Wash with plenty of soap and water

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing P321 - Specific treatment (see first aid instructions on this label) P332+P313 - If skin irritation occurs: Get medical advice/attention. P337+P313 - If eye irritation persists: Get medical advice/attention. P362+P364 - Take off contaminated clothing and wash it before reuse.

#### 2.3. Other hazards which do not result in classification

No additional information available

Unknown acute toxicity (GHS)

Not applicable

#### SECTION 3: Composition/information on ingredients

#### Substances

Not applicable

3.2. Mixtures

Name	Chemical name / Synonyms	Product identifier	%
Coconut oil, reaction products with diethanolamine	Coconut oil, reaction products with diethanolamine	(CAS-No.) 8051-30-7	90 - 100

#### **SECTION 4: First-aid measures**

#### Description of first aid measures 4.1.

First-aid measures general

: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

First-aid measures after inhalation

IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing is affected. If breathing is difficult, supply oxygen.

First-aid measures after skin contact

IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. If irritation develops or persists, get medical attention.

First-aid measures after eye contact

IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Continue rinsing if pain, blinking, or irritation develops or persists, get medical attention. Continue rinsing.

### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Prepared according to Canadian Hazardous Products Regulations (SOR/2015-17) (WHMIS 2015)

First-aid measures after ingestion

: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison

control center. Get medical attention if you feel unwell.

4.2. Most important symptoms and effects (acute and delayed)

Symptoms/effects
Symptoms/effects after inhalation

: Causes skin irritation. Causes eye irritation.

Symptoms/effects after skin contact

: May cause respiratory irritation.: Causes skin irritation.

Symptoms/effects after skin contact
Symptoms/effects after eye contact

: Causes skin irritation.: Causes eye irritation.

Symptoms/effects after ingestion : May cause gastrointestinal irritation.

#### 4.3. Immediate medical attention and special treatment, if necessary

No additional information available

#### SECTION 5: Fire-fighting measures

5.1. Suitable (and unsuitable) extinguishing media

Suitable extinguishing media

: Foam, Dry powder, Carbon dioxide, Water spray,

5.2. Specific hazards arising from the chemical

Fire hazard

: Heating may cause a fire.

Explosion hazard

: No data available.

Reactivity

: The substance is stable under normal storage and handling conditions.

Special protective equipment and precautions for fire-fighters

Firefighting instructions

: Exercise caution when fighting any chemical fire. Prevent fire fighting water from entering the

environment. Eliminate all ignition sources if safe to do so.

Protection during firefighting Other information Do not enter fire area without proper protective equipment, including respiratory protection.

: Guard against spontaneous combustion of improperly discarded oily rags.

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

General measures

: Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them.

6.1.1. For non-emergency personnel

Protective equipment Emergency procedures : Wear Protective equipment as described in Section 8.

6.1.2. For emergency responders

: Evacuate unnecessary personnel.

Protective equipment

: Wear recommended personal protective equipment.

### 6.2. Environmental precautions

Avoid release to the environment. Retain and dispose of contaminated wash water. Contact local authorities in case of spillage to drain/aquatic environment.

#### 6.3. Methods and material for containment and cleaning up

For containment

: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or

streams. Stop leak without risks if possible.

Methods for cleaning up

: Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13).

#### 6.4. Reference to other sections

See Sections 8 and 13.

## SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Precautions for safe handling

: Handle in accordance with good industrial hygiene and safety procedures. Do not handle until all safety precautions have been read and understood. Avoid contact with skin and eyes. Provide good ventilation in process area to prevent formation of vapour. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

224

: Wash thoroughly after handling.

#### 7.2. Conditions for safe storage, including any incompatibilities

Storage conditions

Hygiene measures

: Store in a well-ventilated place. Keep container tightly closed.

#### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

Coconut oil, reaction pro	ducts with diethanolamin	e (8051-30-7)	
ACGIH	Remark	Occupational exposure limit not established	
OSHA	Remark	Occupational exposure limit not established	
All Canadian Provinces	Remark	Occupational exposure limit not established	

#### 8.2. Appropriate engineering controls

Appropriate engineering controls

: Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Prepared according to Canadian Hazardous Products Regulations (SOR/2015-17) (WHMIS 2015)

# 8.3. Individual protection measures/Personal protective equipment Personal protective equipment symbol(s):

#### Personal protective equipment:

Safety glasses. Gloves. Protective clothing.

#### Hand protection:

Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Suitable gloves for this specific application can be recommended by the glove supplier. Change contaminated gloves immediately.

#### Eye protection:

Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.

#### Skin and body protection:

Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

#### Respiratory protection:

In case of inadequate ventilation or risk of inhalation of vapours, use suitable respiratory equipment with gas filter (type A2). Wear a NIOSH-approved (or equivalent) full-facepiece airline respirator in the positive pressure mode with emergency escape provisions. Use a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection.

#### **SECTION 9: Physical and chemical properties**

9.1.	Information	on basic	physical and	l chemical	properties
J. I.	IIIIOIIIIatioii	OII Dasic	pilysical allo	i CilellilCai	propert

Physical state : Liquid

Appearance : Clear. Bright.
Colour : Yellow. Amber.

Odour : Amine

Odour threshold : No data available

pH : 10.3 (5%)

Melting point : No data available
Freezing point : No data available
Boiling point : No data available

Flash point : ≥ 205 °C (400 °F)

Relative evaporation rate (butylacetate=1) : No data available

Flammability (solid, gas) : No data available

Vapour pressure : No data available
Relative vapour density at 20 °C : No data available
Relative density : 1.01 @ 20 °C
Solubility : Soluble in water.

Log Pow : No data available
Auto-ignition temperature : No data available
Decomposition temperature : No data available
Viscosity, kinematic : No data available

Viscosity, kinematic : No data available Viscosity, dynamic : No data available Explosive limits : No data available Explosive properties : No data available

9.2. Other information
No additional information available

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

Oxidising properties

The substance is stable under normal storage and handling conditions.

#### 10.2. Chemical stability

No data available.

#### 10.3. Possibility of hazardous reactions

Hazardous polymerization does not occur.

#### 10.4. Conditions to avoid

None known

: No data available

#### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Prepared according to Canadian Hazardous Products Regulations (SOR/2015-17) (WHMIS 2015)

#### 10.5. Incompatible materials

Strong oxidizing agents.

#### 10.6. Hazardous decomposition products

None known

#### **SECTION 11: Toxicological information**

#### 11.1. Information on toxicological effects

Acute toxicity (oral) : Not classified Acute toxicity (dermal) : Not classified Acute toxicity (inhalation) : Not classified

#### Coconut oil, reaction products with diethanolamine (8051-30-7)

LD50 oral rat > 2000 mg/kg

Skin corrosion/irritation : Causes skin irritation. pH: 10.3 (5%)

Serious eye damage/irritation : Causes serious eye damage.

Respiratory or skin sensitisation : Not classified Germ cell mutagenicity : Not classified Carcinogenicity : Not classified Reproductive toxicity : Not classified STOT-single exposure : Not classified : Not classified

STOT-repeated exposure : May cause damage to organs through prolonged or repeated exposure.

Aspiration hazard : Not classified Viscosity, kinematic : No data available

Symptoms/effects : Causes skin irritation. Causes eye irritation.

Symptoms/effects after inhalation : May cause respiratory irritation.
Symptoms/effects after skin contact : Causes skin irritation.
Symptoms/effects after eye contact : Causes eye irritation.

Symptoms/effects after ingestion : May cause gastrointestinal irritation.

#### **SECTION 12: Ecological information**

#### 12.1. Toxicity

Ecology - general : Harmful to aquatic life with long lasting effects.

Coconut oil, reaction products with diethanolamine (8051-30-7)		
LC50 fish 1	5.4 mg/l (96 h) Brachydanio rerio	
EC50 other aquatic organisms 1 2.3 mg/l (96 h) Scenedesmus acutus		

#### 12.2. Persistence and degradability

No additional information available

#### 12.3. Bioaccumulative potential

No additional information available

#### 12.4. Mobility in soil

No additional information available

#### 12.5. Other adverse effects

No additional information available

#### **SECTION 13: Disposal considerations**

#### 13.1. Disposal methods

Product/Packaging disposal recommendations : Dispose in a safe manner in accordance with local/national regulations.

Ecology - waste materials : Avoid release to the environment.

#### **SECTION 14: Transport information**

#### Department of Transportation (DOT)

In accordance with DOT

Not applicable

Transportation of Dangerous Goods

Not applicable

#### Transport by sea (IMDG)

Not applicable

#### Air transport (IATA)

Not applicable

### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Prepared according to Canadian Hazardous Products Regulations (SOR/2015-17) (WHMIS 2015)

#### **SECTION 15: Regulatory information**

#### 15.1. US Federal regulations

١	oppercut	
	All chemical substances in this product are listed as "Active" in the Inactive) Requirements Rule" ("the Final Rule"), as of Feb. 2019 or	EPA (Environmental Protection Agency) "TSCA Inventory Notification (Activeare otherwise exempt.
- 1		

SARA Section 311/312 Hazard Classes Health hazard - Skin corrosion or Irritation Health hazard - Serious eye damage or eye irritation

#### 15.2. Canadian regulations

#### UpperCut

All chemical substances in this product are listed on the Canadian Domestic Substances List (DSL) or Non-Domestic Substances List (NDSL) or are exempt

#### 15.3. US State regulations

MARNING:

This product can expose you to Coconut oil diethanolamine condensate, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

#### **SECTION 16: Other information**

Revision date

06/20/2022

Other information Revised by Regulatory & Compliance

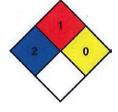

NFPA health hazard : 2 - Materials that, under emergency conditions, can cause

temporary incapacitation or residual injury.

NFPA fire hazard 1 - Materials that must be preheated before ignition can

NFPA reactivity : 0 - Material that in themselves are normally stable, even

under fire conditions.

**HMIS Hazard Rating** 

Health : 2 Flammability 1

Physical : 0

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
