SIC Description	<u>Trans. & Utilities - Sewerage Systems</u>	County	<u>York</u>
		EPA Waived?	<u>No</u>
		If No, Reason	<u>Significant Bay Discharger</u>

Purpose of Application Application for a renewal of an NPDES permit for discharge of treated Sewage

Internal Review and Recommendations

The draft permit was emailed to the permittee on June 11, 2025. It was published in the PA Bulletin for public comments on June 28, 2025. One comment was received from EPA via email on August 12th (attached).

In conformity with EPA's request, the permit has been re-drafted with twice weekly monitoring frequencies for total nitrogen species and total phosphorous.

No other changes are proposed relative to the original draft permit.

There is one open violation associated with this facility that was issued on August 15, 2025.

Hi Aaron,

I am sending this comment on behalf of Jen Fulton who is out of the office today. Apologies for the delay in getting this to you.

According to our Memorandum of Agreement, the Environmental Protection Agency (EPA) Region 3 has received the draft National Pollutant Discharge Elimination System (NPDES) permit for:

Springfield Township Hollow Creek STP
NPDES Number: PA0086860
EPA Received: June 13, 2025
30-day response due date: July 13, 2025

This is a minor permit that discharges to Unnamed Tributary to East Branch Codorus Creek and is a significant Chesapeake Bay discharger. EPA has chosen to perform a limited review of the draft permit based on the wasteload allocation requirements of the Chesapeake Bay Watershed TMDL. EPA has completed its review and offers the following comment:

1. This facility is considered a significant Chesapeake Bay discharger. Page 15 of PADEP's Phase 3 WIP Supplement provides that the monitoring frequencies for total nitrogen species and total phosphorous for significant Chesapeake Bay dischargers should be twice per week.

Please address the above and provide us with any changes to the draft permit and/or fact sheet. Please coordinate with Dana Hales on my staff via telephone at 215-814-2928 or via electronic mail at hales.dana@epa.gov prior to issuance.

Thanks,
Carissa Moncavage
