Internal Review and Recommendations

Per 40 CFR § 122.33, and PA Title 25 § 92a.3, Spring Township (the applicant) is required to seek coverage under an NPDES permit issued by the state of Pennsylvania. Due to the applicant's discharge to special protection waters, the applicant has submitted an application for coverage under an individual permit. Per PA Title 25 § 92a.54, the applicant is eligible for permit coverage.

The applicant discharges to the following waters: Wyomissing Creek (HQ-CWF, MF), Tulpehocken Creek (WWF, MF), Cacoosing Creek (CWF, MF), and Little Muddy Creek (TSF, MF).

During the previous permit term, the applicant submitted a Pollutant Reduction Plan (PRP) for discharges to the Tulpehocken Creek watershed, Cacoosing Creek watershed, Little Muddy Creek watershed, and Cocalico Creek watershed. The PRP was approved on 07/01/2021 and expires 06/30/2026.

The applicant also submitted a Total Maximum Daily Load Plan (TMDL Plan) during the previous permit term, which was a joint plan with the other MS4 permittees participating in the Wyomissing Creek Watershed Coalition that discharge to the Wyomissing Creek watershed. The TMDL Plan was approved on 07/01/2021 and expires 06/30/2026.

There are no unresolved violations associated with the applicant that would affect issuance of coverage.

It is recommended that individual permit coverage is granted in accordance with 40 CFR §123.35.
