Purpose of Application	Application for an individual MS4 NF	PDES permit for discha	arge of stormwater.

Internal Review and Recommendations

Per 40 CFR § 122.33, and PA Title 25 § 92a.3, Terre Hill Borough (the applicant) is required to seek coverage under a NPDES permit issued by the state of Pennsylvania. Due to Special Protection waters, the applicant has submitted a renewal application for coverage under an individual permit. Per PA Title 25 § 92a.54, the applicant is eligible for permit coverage.

The applicant discharges to the following waters: Temple Creek (CWF, MF), UNT Black Creek (HQ-WWF, MF) and Unnamed Tributary to Conestoga River (WWF, MF)

According to the MS4 Requirements Table, the applicant is subject to the following IP appendix requirements: Appendix D for the Chesapeake Bay impairment Appendix E for the Conestoga River impairment

To comply with Appendices D and E, the applicant has submitted a combined Chesapeake Bay and Local Impairment Pollutant Reduction Plan (PRP).

There are no unresolved violations associated with the applicant that should affect issuance of coverage.

The PRP public participation requirements must be completed prior to issuance of the final permit.

It is recommended that individual permit coverage is granted in accordance with 40 CFR §123.35.

Internal Review and Recommendations

DEP has reviewed the revised PRP received on 8/15/2023 via email. DEP offers the following comments and recommendations based on the review, which will be evaluated by DEP during the permit term:

- 1. The proposed rain garden within the drainage area of Outfall 024 was not labeled on the map. Please update the map accordingly.
- 2. Existing BMP EX005 was used to reduce the baseline load, but the following information should be provided: latitude and longitude coordinates; the permit number, if any, that authorized installation of the BMP; the date, to the best of the permittee's knowledge, that the BMP was installed; O&M activities and frequencies associated with the BMP.
- 3. Please be advised that the final designs for stream restoration BMPs should be in general accordance with DEP's "Considerations of Stream Restoration Project" document, available at www.dep.pa.gov/ms4.

Public Participation

DEP will publish notice of the receipt of the NPDES permit application and a tentative decision to issue the individual NPDES permit in the *Pennsylvania Bulletin* in accordance with 25 Pa. Code § 92a.82. Upon publication in the *Pennsylvania Bulletin*, DEP will accept written comments from interested persons for a 30-day period (which may be extended for one additional 15-day period at DEP's discretion), which will be considered in making a final decision on the application. Any person may request or petition for a public hearing with respect to the application. A public hearing may be held if DEP determines that there is significant public interest in holding a hearing. If a hearing is held, notice of the hearing will be published in the *Pennsylvania Bulletin* at least 30 days prior to the hearing and in at least one newspaper of general circulation within the geographical area of the discharge.
