

If you have annual or semiannual eDMR requirements in the current eDMR system, please read the following notice. This does NOT apply to Chesapeake Bay Annual eDMRs that run on the monitoring period 10/1- 9/30.

NOTICE

All Annual and Semiannual eDMRs in the new eDMR system (except annual Chesapeake Bay Annuals) will run on the calendar year.

Annual eDMRs in the current system having a monitoring period OTHER THAN January 1 to December 31 will be converted to the January 1 to December 31 timeframe in the new eDMR system.

Semiannual eDMRs in the current system having a monitoring period OTHER THAN January 1 to June 30 and July 1 to December 31 will be converted to the January 1 to June 30 and July 1 to December 31 timeframe in the new eDMR system.

If sampling is complete for the current annual or semiannual monitoring period as defined in the current E2 system, it is suggested that permittees submit the eDMR for that period in the E2 system prior to December 11, 2015, when the E2 system will go offline.
