

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
AIR QUALITY PROGRAM

STATE ONLY NATURAL MINOR OPERATING PERMIT

Issue Date: May 10, 2022

Effective Date: May 10, 2022

Expiration Date: May 9, 2027

In accordance with the provisions of the Air Pollution Control Act, the Act of January 8, 1960, P.L. 2119, as amended, and 25 Pa. Code Chapter 127, the Owner, [and Operator if noted] (hereinafter referred to as permittee) identified below is authorized by the Department of Environmental Protection (Department) to operate the air emission source(s) more fully described in this permit. This Facility is subject to all terms and conditions specified in this permit. Nothing in this permit relieves the permittee from its obligations to comply with all applicable Federal, State and Local laws and regulations.

The regulatory or statutory authority for each permit condition is set forth in brackets. All terms and conditions in this permit are federally enforceable unless otherwise designated.

State Only Permit No: 14-00033

Natural Minor

Federal Tax Id - Plant Code: 25-1203508-1

Owner Information

Name: SPECTRA WOOD

Mailing Address: 2651 CAROLEAN INDUSTRIAL DR
STATE COLLEGE, PA 16801-7506

Plant Information

Plant: SPECTRA WOOD/2651 CAROLEAN INDUSTRIAL DRIVE

Location: 14 Centre County 14908 College Township

SIC Code: 2511 Manufacturing - Wood Household Furniture

Responsible Official

Name: ANDREW FRIBERG

Title: GENERAL MGR

Phone: (814) 238 - 6332

**SECTION B. General State Only Requirements****#001 [25 Pa. Code § 121.1]****Definitions.**

Words and terms that are not otherwise defined in this permit shall have the meanings set forth in Section 3 of the Air Pollution Control Act (35 P.S. § 4003) and in 25 Pa. Code § 121.1.

#002 [25 Pa. Code § 127.446]**Operating Permit Duration.**

(a) This operating permit is issued for a fixed term of five (5) years and shall expire on the date specified on Page 1 of this permit.

(b) The terms and conditions of the expired permit shall automatically continue pending issuance of a new operating permit, provided the permittee has submitted a timely and complete application and paid applicable fees required under 25 Pa. Code Chapter 127, Subchapter I and the Department is unable, through no fault of the permittee, to issue or deny a new permit before the expiration of the previous permit.

#003 [25 Pa. Code §§ 127.412, 127.413, 127.414, 127.446 & 127.703(b)]**Permit Renewal.**

(a) The permittee shall submit a timely and complete application for renewal of the operating permit to the appropriate Regional Air Program Manager. The application for renewal of the operating permit shall be submitted at least six (6) months and not more than 18 months before the expiration date of this permit.

(b) The application for permit renewal shall include the current permit number, a description of any permit revisions that occurred during the permit term, and any applicable requirements that were promulgated and not incorporated into the permit during the permit term. An application is complete if it contains sufficient information to begin processing the application, has the applicable sections completed and has been signed by a responsible official.

(c) The permittee shall submit with the renewal application a fee for the processing of the application as specified in 25 Pa. Code § 127.703(b). The fees shall be made payable to "The Commonwealth of Pennsylvania Clean Air Fund" and submitted with the fee form to the respective regional office.

(d) The renewal application shall also include submission of proof that the local municipality and county, in which the facility is located, have been notified in accordance with 25 Pa. Code § 127.413.

(e) The application for renewal of the operating permit shall also include submission of supplemental compliance review forms in accordance with the requirements of 25 Pa. Code § 127.412(b) and § 127.412(j).

(f) The permittee, upon becoming aware that any relevant facts were omitted or incorrect information was submitted in the permit application, shall promptly submit such supplementary facts or corrected information as necessary to address any requirements that become applicable to the source after the permittee submits a complete application, but prior to the date the Department takes action on the permit application.

#004 [25 Pa. Code § 127.703]**Operating Permit Fees under Subchapter I.**

(a) The permittee shall pay the annual operating permit maintenance fee according to the following fee schedule in either paragraph (1) or (2) in accordance with 25 Pa. Code § 127.703(d) on or before December 31 of each year for the next calendar year.

(1) For a synthetic minor facility, a fee equal to:

(i) Four thousand dollars (\$4,000) for calendar years 2021—2025.

(ii) Five thousand dollars (\$5,000) for calendar years 2026—2030.

(iii) Six thousand three hundred dollars (\$6,300) for the calendar years beginning with 2031.

**SECTION B. General State Only Requirements**

(2) For a facility that is not a synthetic minor, a fee equal to:

- (i) Two thousand dollars (\$2,000) for calendar years 2021—2025.
- (ii) Two thousand five hundred dollars (\$2,500) for calendar years 2026—2030.
- (iii) Three thousand one hundred dollars (\$3,100) for the calendar years beginning with 2031.

(b) The applicable fees shall be made payable to "The Commonwealth of Pennsylvania Clean Air Fund" with the permit number clearly indicated and submitted to the respective regional office.

#005 [25 Pa. Code §§ 127.450 (a)(4) and 127.464]**Transfer of Operating Permits.**

(a) This operating permit may not be transferred to another person, except in cases of transfer-of-ownership that are documented and approved by the Department.

(b) In accordance with 25 Pa. Code § 127.450(a)(4), a change in ownership of the source shall be treated as an administrative amendment if the Department determines that no other change in the permit is required and a written agreement has been submitted to the Department identifying the specific date of the transfer of permit responsibility, coverage and liability between the current and the new permittee and a compliance review form has been submitted to, and the permit transfer has been approved by, the Department.

(c) This operating permit is valid only for those specific sources and the specific source locations described in this permit.

#006 [25 Pa. Code § 127.441 and 35 P.S. § 4008]**Inspection and Entry.**

(a) Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Department or authorized representatives of the Department to perform the following:

(1) Enter at reasonable times upon the permittee's premises where a source is located or emissions related activity is conducted, or where records are kept under the conditions of this permit;

(2) Have access to and copy, at reasonable times, any records that are kept under the conditions of this permit;

(3) Inspect at reasonable times, any facilities, equipment including monitoring and air pollution control equipment, practices, or operations regulated or required under this permit;

(4) Sample or monitor, at reasonable times, any substances or parameters, for the purpose of assuring compliance with the permit or applicable requirements as authorized by the Clean Air Act, the Air Pollution Control Act, or the regulations promulgated under the Acts.

(b) Pursuant to 35 P.S. § 4008, no person shall hinder, obstruct, prevent or interfere with the Department or its personnel in the performance of any duty authorized under the Air Pollution Control Act or regulations adopted thereunder including denying the Department access to a source at this facility. Refusal of entry or access may constitute grounds for permit revocation and assessment of criminal and/or civil penalties.

(c) Nothing in this permit condition shall limit the ability of the EPA to inspect or enter the premises of the permittee in accordance with Section 114 or other applicable provisions of the Clean Air Act.

#007 [25 Pa. Code §§ 127.441 & 127.444]**Compliance Requirements.**

(a) The permittee shall comply with the conditions of this operating permit. Noncompliance with this permit constitutes a violation of the Clean Air Act and the Air Pollution Control Act and is grounds for one or more of the following:

**SECTION B. General State Only Requirements**

- (1) Enforcement action
- (2) Permit termination, revocation and reissuance or modification
- (3) Denial of a permit renewal application

(b) A person may not cause or permit the operation of a source which is subject to 25 Pa. Code Article III unless the source(s) and air cleaning devices identified in the application for the plan approval and operating permit and the plan approval issued for the source is operated and maintained in accordance with specifications in the applications and the conditions in the plan approval and operating permit issued by the Department. A person may not cause or permit the operation of an air contamination source subject to 25 Pa. Code Chapter 127 in a manner inconsistent with good operating practices.

(c) For purposes of Sub-condition (b) of this permit condition, the specifications in applications for plan approvals and operating permits are the physical configurations and engineering design details which the Department determines are essential for the permittee's compliance with the applicable requirements in this State-Only permit. Nothing in this sub-condition shall be construed to create an independent affirmative duty upon the permittee to obtain a predetermination from the Department for physical configuration or engineering design detail changes made by the permittee.

#008 [25 Pa. Code § 127.441]**Need to Halt or Reduce Activity Not a Defense.**

It shall not be a defense for the permittee in an enforcement action that it was necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

#009 [25 Pa. Code §§ 127.442(a) & 127.461]**Duty to Provide Information.**

(a) The permittee shall submit reports to the Department containing information the Department may prescribe relative to the operation and maintenance of each source at the facility.

(b) The permittee shall furnish to the Department, in writing, information that the Department may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with the permit. Upon request, the permittee shall also furnish to the Department copies of records that the permittee is required to maintain in accordance with this permit.

#010 [25 Pa. Code § 127.461]**Revising an Operating Permit for Cause.**

This operating permit may be terminated, modified, suspended or revoked and reissued if one or more of the following applies:

- (1) The permittee constructs or operates the source subject to the operating permit so that it is in violation of the Air Pollution Control Act, the Clean Air Act, the regulations thereunder, a plan approval, a permit or in a manner that causes air pollution.
- (2) The permittee fails to properly or adequately maintain or repair an air pollution control device or equipment attached to or otherwise made a part of the source.
- (3) The permittee has failed to submit a report required by the operating permit or an applicable regulation.
- (4) The EPA determines that the permit is not in compliance with the Clean Air Act or the regulations thereunder.

#011 [25 Pa. Code §§ 127.450, 127.462, 127.465 & 127.703]**Operating Permit Modifications**

(a) The permittee is authorized to make administrative amendments, minor operating permit modifications and significant operating permit modifications, under this permit, as outlined below:

**SECTION B. General State Only Requirements**

(b) Administrative Amendments. The permittee shall submit the application for administrative operating permit amendments (as defined in 25 Pa. Code § 127.450(a)), according to procedures specified in § 127.450 unless precluded by the Clean Air Act or its regulations.

(c) Minor Operating Permit Modifications. The permittee shall submit the application for minor operating permit modifications (as defined 25 Pa. Code § 121.1) in accordance with 25 Pa. Code § 127.462.

(d) Significant Operating Permit Modifications. The permittee shall submit the application for significant operating permit modifications in accordance with 25 Pa. Code § 127.465.

(e) The applicable fees shall be made payable to "The Commonwealth of Pennsylvania Clean Air Fund" with the permit number clearly indicated and submitted to the respective regional office.

#012 [25 Pa. Code § 127.441]**Severability Clause.**

The provisions of this permit are severable, and if any provision of this permit is determined by a court of competent jurisdiction to be invalid or unenforceable, such a determination will not affect the remaining provisions of this permit.

#013 [25 Pa. Code § 127.449]**De Minimis Emission Increases.**

(a) This permit authorizes de minimis emission increases in accordance with 25 Pa. Code § 127.449 so long as the permittee provides the Department with seven (7) days prior written notice before commencing any de minimis emissions increase. The written notice shall:

(1) Identify and describe the pollutants that will be emitted as a result of the de minimis emissions increase.

(2) Provide emission rates expressed in tons per year and in terms necessary to establish compliance consistent with any applicable requirement.

(b) The Department may disapprove or condition de minimis emission increases at any time.

(c) Except as provided below in (d), the permittee is authorized to make de minimis emission increases (expressed in tons per year) up to the following amounts without the need for a plan approval or prior issuance of a permit modification:

(1) Four tons of carbon monoxide from a single source during the term of the permit and 20 tons of carbon monoxide at the facility during the term of the permit.

(2) One ton of NO_x from a single source during the term of the permit and 5 tons of NO_x at the facility during the term of the permit.

(3) One and six-tenths tons of the oxides of sulfur from a single source during the term of the permit and 8.0 tons of oxides of sulfur at the facility during the term of the permit.

(4) Six-tenths of a ton of PM₁₀ from a single source during the term of the permit and 3.0 tons of PM₁₀ at the facility during the term of the permit. This shall include emissions of a pollutant regulated under Section 112 of the Clean Air Act unless precluded by the Clean Air Act, the regulations thereunder or 25 Pa. Code Article III.

(5) One ton of VOCs from a single source during the term of the permit and 5.0 tons of VOCs at the facility during the term of the permit. This shall include emissions of a pollutant regulated under Section 112 of the Clean Air Act unless precluded by the Clean Air Act, the regulations thereunder or 25 Pa. Code Article III.

(6) Other sources and classes of sources determined to be of minor significance by the Department.

(d) In accordance with § 127.14, the permittee is authorized to install the following minor sources without the need for a plan approval or permit modification:

**SECTION B. General State Only Requirements**

(1) Air conditioning or ventilation systems not designed to remove pollutants generated or released from other sources.

(2) Combustion units rated at 2,500,000 or less Btu per hour of heat input.

(3) Combustion units with a rated capacity of less than 10,000,000 Btu per hour heat input fueled by natural gas supplied by a public utility or by commercial fuel oils which are No. 2 or lighter, viscosity less than or equal to 5.82 c St, and which meet the sulfur content requirements of 25 Pa. Code §123.22 (relating to combustion units). For purposes of this permit, commercial fuel oil shall be virgin oil which has no reprocessed, recycled or waste material added.

(4) Space heaters which heat by direct heat transfer.

(5) Laboratory equipment used exclusively for chemical or physical analysis.

(6) Other sources and classes of sources determined to be of minor significance by the Department.

(e) This permit does not authorize de minimis emission increases if the emissions increase would cause one or more of the following:

(1) Increase the emissions of a pollutant regulated under Section 112 of the Clean Air Act except as authorized in Subparagraphs (c)(4) and (5) of this permit condition.

(2) Subject the facility to the prevention of significant deterioration requirements in 25 Pa. Code Chapter 127, Subchapter D and/or the new source review requirements in Subchapter E.

(3) Violate any applicable requirement of this permit, the Air Pollution Control Act, the Clean Air Act, or the regulations promulgated under either of the acts.

(f) Emissions authorized under this permit condition shall be included in the monitoring, recordkeeping and reporting requirements of this permit.

(g) Except for de minimis emission increases, installation of minor sources made pursuant to this permit condition and Plan Approval Exemptions under 25 Pa. Code § 127.14 (relating to exemptions), the permittee is prohibited from making changes or engaging in activities that are not specifically authorized under this permit without first applying for a plan approval. In accordance with § 127.14(b), a plan approval is not required for the construction, modification, reactivation, or installation of the sources creating the de minimis emissions increase.

(h) The permittee may not meet de minimis emission threshold levels by offsetting emission increases or decreases at the same source.

#014 [25 Pa. Code § 127.3]**Operational Flexibility.**

The permittee is authorized to make changes within the facility in accordance with the regulatory provisions outlined in 25 Pa. Code § 127.3 (relating to operational flexibility) to implement the operational flexibility requirements provisions authorized under Section 6.1(i) of the Air Pollution Control Act and the operational flexibility terms and conditions of this permit. The provisions in 25 Pa. Code Chapter 127 which implement the operational flexibility requirements include the following:

(1) Section 127.14 (relating to exemptions)

(2) Section 127.447 (relating to alternative operating scenarios)

(3) Section 127.448 (relating to emissions trading at facilities with Federally enforceable emissions caps)

(4) Section 127.449 (relating to de minimis emission increases)

(5) Section 127.450 (relating to administrative operating permit amendments)

**SECTION B. General State Only Requirements**

(6) Section 127.462 (relating to minor operating permit modifications)

(7) Subchapter H (relating to general plan approvals and general operating permits)

#015 [25 Pa. Code § 127.11]**Reactivation**

(a) The permittee may not reactivate a source that has been out of operation or production for at least one year unless the reactivation is conducted in accordance with a plan approval granted by the Department or in accordance with reactivation and maintenance plans developed and approved by the Department in accordance with 25 Pa. Code § 127.11a(a).

(b) A source which has been out of operation or production for more than five (5) years but less than 10 years may be reactivated and will not be considered a new source if the permittee satisfies the conditions specified in 25 Pa. Code § 127.11a(b).

#016 [25 Pa. Code § 127.36]**Health Risk-based Emission Standards and Operating Practice Requirements.**

(a) When needed to protect public health, welfare and the environment from emissions of hazardous air pollutants from new and existing sources, the permittee shall comply with the health risk-based emission standards or operating practice requirements imposed by the Department, except as precluded by §§ 6.6(d)(2) and (3) of the Air Pollution Control Act [35 P.S. § 4006.6(d)(2) and (3)].

(b) A person challenging a performance or emission standard established by the Department has the burden to demonstrate that performance or emission standard does not meet the requirements of Section 112 of the Clean Air Act.

#017 [25 Pa. Code § 121.9]**Circumvention.**

No person may permit the use of a device, stack height which exceeds good engineering practice stack height, dispersion technique or other technique which, without resulting in reduction of the total amount of air contaminants emitted, conceals or dilutes an emission of air contaminants which would otherwise be in violation of 25 Pa. Code Article III, except that with prior approval of the Department, the device or technique may be used for control of malodors.

#018 [25 Pa. Code §§ 127.402(d) & 127.442]**Reporting Requirements.**

(a) The permittee shall comply with the applicable reporting requirements of the Clean Air Act, the regulations thereunder, the Air Pollution Control Act and 25 Pa. Code Article III including Chapters 127, 135 and 139.

(b) The permittee shall submit reports to the Department containing information the Department may prescribe relative to the operation and maintenance of any air contamination source.

(c) Reports, test data, monitoring data, notifications and requests for renewal of the permit shall be submitted to the:

Regional Air Program Manager
PA Department of Environmental Protection
(At the address given in the permit transmittal letter, or otherwise notified)

(d) Any records or information including applications, forms, or reports submitted pursuant to this permit condition shall contain a certification by a responsible official as to truth, accuracy and completeness. The certifications submitted under this permit shall require a responsible official of the facility to certify that based on information and belief formed after reasonable inquiry, the statements and information in the documents are true, accurate and complete.

(e) Any records, reports or information submitted to the Department shall be available to the public except for such

**SECTION B. General State Only Requirements**

records, reports or information which meet the confidentiality requirements of § 4013.2 of the Air Pollution Control Act and §§ 112(d) and 114(c) of the Clean Air Act. The permittee may not request a claim of confidentiality for any emissions data generated for the facility.

#019 [25 Pa. Code §§ 127.441(c) & 135.5]**Sampling, Testing and Monitoring Procedures.**

(a) The permittee shall comply with the monitoring, recordkeeping or reporting requirements of 25 Pa. Code Chapter 139 and the other applicable requirements of 25 Pa. Code Article III and additional requirements related to monitoring, reporting and recordkeeping required by the Clean Air Act and the regulations thereunder including the Compliance Assurance Monitoring requirements of 40 CFR Part 64, where applicable.

(b) Unless alternative methodology is required by the Clean Air Act and regulations adopted thereunder, sampling, testing and monitoring required by or used by the permittee to demonstrate compliance with any applicable regulation or permit condition shall be conducted in accordance with the requirements of 25 Pa. Code Chapter 139.

#020 [25 Pa. Code §§ 127.441(c) and 135.5]**Recordkeeping.**

(a) The permittee shall maintain and make available, upon request by the Department, the following records of monitored information:

- (1) The date, place (as defined in the permit) and time of sampling or measurements.
- (2) The dates the analyses were performed.
- (3) The company or entity that performed the analyses.
- (4) The analytical techniques or methods used.
- (5) The results of the analyses.
- (6) The operating conditions as existing at the time of sampling or measurement.

(b) The permittee shall retain records of any required monitoring data and supporting information for at least five (5) years from the date of the monitoring, sample, measurement, report or application. Supporting information includes the calibration data and maintenance records and original strip-chart recordings for continuous monitoring instrumentation, and copies of reports required by the permit.

(c) The permittee shall maintain and make available to the Department upon request, records including computerized records that may be necessary to comply with the reporting, recordkeeping and emission statement requirements in 25 Pa. Code Chapter 135 (relating to reporting of sources). In accordance with 25 Pa. Code Chapter 135, § 135.5, such records may include records of production, fuel usage, maintenance of production or pollution control equipment or other information determined by the Department to be necessary for identification and quantification of potential and actual air contaminant emissions.

#021 [25 Pa. Code § 127.441(a)]**Property Rights.**

This permit does not convey any property rights of any sort, or any exclusive privileges.

#022 [25 Pa. Code § 127.447]**Alternative Operating Scenarios.**

The permittee is authorized to make changes at the facility to implement alternative operating scenarios identified in this permit in accordance with 25 Pa. Code § 127.447.

**SECTION B. General State Only Requirements****#023 [25 Pa. Code §135.3]****Reporting**

(a) If the facility is a Synthetic Minor Facility, the permittee shall submit by March 1 of each year an annual emissions report for the preceding calendar year. The report shall include information for all active previously reported sources, new sources which were first operated during the preceding calendar year, and sources modified during the same period which were not previously reported. All air emissions from the facility should be estimated and reported.

(b) A source owner or operator of a Synthetic Minor Facility may request an extension of time from the Department for the filing of an annual emissions report, and the Department may grant the extension for reasonable cause.

#024 [25 Pa. Code §135.4]**Report Format**

If applicable, the emissions reports shall contain sufficient information to enable the Department to complete its emission inventory. Emissions reports shall be made by the source owner or operator in a format specified by the Department.

**SECTION C. Site Level Requirements****I. RESTRICTIONS.****Emission Restriction(s).****# 001 [25 Pa. Code §123.1]****Prohibition of certain fugitive emissions**

No person may permit the emission into the outdoor atmosphere of fugitive air contaminants from a source other than the following:

- (1) Construction or demolition of buildings or structures.
- (2) Grading, paving, and maintenance of roads and streets.
- (3) Use of roads and streets. Emissions from material in or on trucks, railroad cars, and other vehicular equipment are not considered as emissions from use of roads and streets.
- (4) Clearing of land.
- (5) Stockpiling of materials.
- (6) Open burning operations.
- (7) Sources and classes of sources other than those identified above, for which the permittee has obtained a determination from the Department that fugitive emissions from the source, after appropriate control, meet the following requirements:
 - (i) The emissions are of minor significance with respect to causing air pollution.
 - (ii) The emissions are not preventing or interfering with the attainment or maintenance of an ambient air quality standard.

002 [25 Pa. Code §123.2]**Fugitive particulate matter**

No person may permit fugitive particulate matter to be emitted into the outdoor atmosphere from a source specified in Condition #001(1)-(7) above if the emissions are visible at the point the emissions pass outside the person's property.

003 [25 Pa. Code §123.41]**Limitations**

No person may permit the emission into the outdoor atmosphere of visible air contaminants in such a manner that the opacity of the emission is either of the following:

- (1) Equal to or greater than 20% for a period or periods aggregating more than three minutes in any 1 hour.
- (2) Equal to or greater than 60% at any time.

004 [25 Pa. Code §123.42]**Exceptions**

The emission limitations of 25 Pa. Code Section 123.41 shall not apply when:

- (1) The presence of uncombined water is the only reason for failure of the emission to meet the limitations.
- (2) The emission results from the operation of equipment used solely to train and test persons in observing the opacity of visible emissions.
- (3) The emission results from sources specified in 25 Pa. Code Section 123.1(a)(1)-(9).

005 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

**SECTION C. Site Level Requirements**

(a) The total emission of volatile organic compounds (VOCs) from Source IDs P101, P102, P103, P104, and P105 shall not exceed 24 tons in any 12 consecutive month period.

(b) The total emission of combined hazardous air pollutants (HAPs) from Source IDs P101, P102, P103, P104, and P105 shall not exceed 4 tons in any 12 consecutive month period.

006 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

The total combined emissions of hazardous air pollutants from Source IDs P107, P108 and P019 shall not exceed 0.39 tons in any 12 consecutive month period.

007 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

{Compliance with the limitations for sealers, topcoats, and washcoats specified in sections (1), (2), (3), (4), and (5) of this streamlined permit condition assures compliance with the VOC content limitations for sealers, topcoats, and washcoats specified in Table I of 25 Pa. Code Section 129.52, Wood furniture manufacturing operations}

{Compliance with the limitations for sealers and topcoats specified in sections (1) and (2) of this streamlined permit condition assures compliance with the VOC content limitations for sealers and topcoats specified in Section 129.102}

1. The volatile organic compound content of any sealers used in Source IDs P107, P108, P109 shall not exceed 1.9 pounds of volatile organic compounds per pound of coating solids, as mixed for application.
2. The volatile organic compound content of any topcoats used in Source IDs P107, P108, P109 shall not exceed 1.8 pounds of volatile organic compounds per pound of coating solids, as mixed for application.
3. The volatile organic compound content of any stains used in Source IDs P107, P108, P109 shall not exceed 8.0 pounds of volatile organic compounds per pound of coating solids, as mixed for application.
4. The volatile organic compound content of any washcoats used in Source IDs P107, P108, P109 shall not exceed 1.2 pounds of volatile organic compounds per pound of coating solids, as mixed for application.
5. The volatile organic compound content of any basecoats used in Source IDs P107, P108, P109 shall not exceed 1.5 pounds of volatile organic compounds per pound of coating solids, as mixed for application.

008 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

{Compliance with the limitations for sealers, topcoats, and washcoats specified in sections (a), (b), and (c) of this streamlined permit condition assures compliance with the VOC content limitations for sealers, topcoats, and washcoats specified in Table I of 25 Pa. Code Section 129.52, Wood furniture manufacturing operations}

(a) The volatile organic compound content of any sealers used in Source IDs P101, P102, P103, and P104 shall not exceed 3.9 pounds of volatile organic compounds (VOCs) per pound of coating solids, as mixed for application.

(b) The volatile organic compound content of any topcoats used in Source IDs P101, P102, P103, and P104 shall not exceed 3.0 pounds of volatile organic compounds (VOCs) per pound of coating solids, as mixed for application.

**SECTION C. Site Level Requirements**

(c) The volatile organic compound content of any washcoats used in Source IDs P101, P102, P103, and P104 shall not exceed 7.55 pounds of volatile organic compounds (VOCs) per pound of coating solids, as mixed for application.

(d) The volatile organic compound content of any toners used in Source IDs P101, P102, P103, and P104 shall not exceed 5.45 pounds of volatile organic compounds (VOCs) per gallon of toner, as mixed for application.

(e) The volatile organic compound content of any stains used in Source IDs P101, P102, P103, and P104 shall not exceed 6.4 pounds of volatile organic compounds (VOCs) per gallon of stain, as mixed for application.

009 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

1. The total volatile organic compounds emissions from sealers used in Source IDs P107-P109 shall not exceed 3.85 tons in any 12 consecutive month period.
2. The total volatile organic compounds emissions from topcoats used in Source IDs P107-P109 shall not exceed 7.24 tons in any 12 consecutive month period.
3. The total volatile organic compounds emissions from stains used in Source IDs P107-P109 shall not exceed 6.12 tons in any 12 consecutive month period.
4. The total volatile organic compounds emissions from washcoats used in Source IDs P107-P109 shall not exceed 0.46 tons in any 12 consecutive month period.
5. The total volatile organic compounds emissions from basecoats used in Source IDs P107-P109 shall not exceed 0.15 tons in any 12 consecutive month period.

Throughput Restriction(s).**# 010 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

The amount of toner used in Source IDs P101, P102, P103, and P104 shall not exceed 5 gallons in any 12 consecutive month period.

011 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

(a) Other than lacquer thinner and butyl cellosolve, no additive of any kind shall be added to any coating/finishing material used in Source IDs P101, P102, P103, P104. Additionally, lacquer thinner may be added only to stains, whereas, butyl cellosolve may be added to any coating/finishing material.

(b) The amount of lacquer thinner and butyl cellosolve added to any material at any time shall not exceed 10% and 2%, by volume, respectively.

(c) For the purpose of complying with this condition, the term "coating/finishing material" shall not include wood putties or wood oils.

**SECTION C. Site Level Requirements****II. TESTING REQUIREMENTS.****# 012 [25 Pa. Code §129.52]****Surface coating processes**

In accordance with 25 Pa. Code Section 129.52(b)(1)(i), the permittee shall calculate the VOC content of the as applied coating used in Source IDs P101, P102, P103, P104, and P105, expressed in units of weight of VOC per volume of coating solids, as follows:

$$\text{VOC} = (\text{Wo}) (\text{Dc})/\text{Vn}$$

Where:

VOC = VOC content in lb VOC/gal of coating solids

Wo = Weight percent of VOC (Wv-Ww-Wex)

Wv = Weight percent of total volatiles (100%- weight percent solids)

Ww = Weight percent of water

Wex = Weight percent of exempt solvent(s)

Dc = Density of coating, lb/gal, at 25 degree C

Vn = Volume percent of solids of the as applied coating.

013 [25 Pa. Code §139.1]**Sampling facilities.**

Upon the request of the Department, the permittee shall provide adequate sampling ports, safe sampling platforms, and adequate utilities for the performance by the Department of tests on such source. The Department will set forth, in the request, the time period in which the facilities shall be provided as well as the specifications for such facilities.

014 [25 Pa. Code §139.11]**General requirements.**

(a) As specified in 25 Pa. Code Section 139.11(1), performance tests shall be conducted while the source is operating at maximum routine operating conditions or under such other conditions, within the capacity of the equipment, as may be requested by the Department.

(b) As specified in 25 Pa. Code Section 139.11(2), the Department will consider test results for approval where sufficient information is provided to verify the source conditions existing at the time of the test and where adequate data is available to show the manner in which the test was conducted. Information submitted to the Department shall include, as a minimum, all of the following:

- (1) A thorough source description, including a description of any air cleaning devices and the flue.
- (2) Process conditions, for example, the charging rate of raw material or rate of production of final product, boiler pressure, oven temperature, and other conditions which may affect emissions from the process.
- (3) The location of sampling ports.
- (4) Effluent characteristics, including velocity, temperature, moisture content, gas density (percentage of CO, CO₂, O₂ and N₂), static and barometric pressures.
- (5) Sample collection techniques employed, including procedures used, equipment descriptions, and data to verify that isokinetic sampling for particulate matter collection occurred and that acceptable test conditions were met.
- (6) Laboratory procedures and results.
- (7) Calculated results.

**SECTION C. Site Level Requirements****III. MONITORING REQUIREMENTS.****# 015 [25 Pa. Code §123.43]****Measuring techniques**

Visible emissions may be measured using either of the following:

- (1) A device approved by the Department and maintained to provide accurate opacity measurements.
- (2) Observers, trained and qualified to measure plume opacity with the naked eye or with the aid of any devices approved by the Department.

016 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

(a) The permittee shall conduct a weekly inspection of the facility during daylight hours while the facility is operating to detect visible emissions, visible fugitive emissions, and malodors.

Weekly inspections are necessary to determine:

- (1) The presence of visible emissions.
 - (2) The presence of visible fugitive emissions.
 - (3) The presence of malodors beyond the boundaries of the facility.
- (b) All detected visible emissions, visible fugitive emissions, or malodors that have the potential to exceed applicable limits shall be reported to the manager of the facility.

IV. RECORDKEEPING REQUIREMENTS.**# 017 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

- (a) The permittee shall keep records of the supporting calculations for VOC emissions on a monthly basis and shall verify compliance with the VOC emission limitation for Source IDs P107, P108, and P109 in any 12 consecutive month period.
- (b) The permittee shall keep records of the supporting calculations for 'combined HAPs' emissions on a monthly basis and shall verify compliance with the 'combined HAPs' emission limitation for Source IDs P107, P108, and P109 in any 12 consecutive month period.
- (c) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

018 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

- (a) The permittee shall maintain accurate and comprehensive records of the following:
 1. The identity and amount of each individual coating/finishing material and coating/finishing material additive used each month.
 2. The identity and amount of each cleanup solvent used each month.
 3. The identity and amount of each individual "wood oil" (mineral oil, etc.) used each month.
- (b) The permittee shall maintain product composition sheets for all coating/finishing materials, coating/finishing material additives, "wood oils" and cleanup solvents used anywhere in the facility. At a minimum, the sheets shall identify the amount of volatile organic compounds, the amount of hazardous air pollutants and the amount of solids contained in each of the respective materials.
- (c) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

**SECTION C. Site Level Requirements****# 019 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

(a) The permittee shall maintain a logbook of the facility's weekly inspections performed. The logbook shall include the name of the company representative performing the inspection, the date and time of inspections, any instances of exceedances of visible emissions limitations, visible fugitive emissions limitations, and malodorous air emissions limitations, and the name of the manager informed if a potential exceedance is observed. The permittee shall also record any and all corrective action(s) taken to abate each recorded deviation to prevent future occurrences.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

020 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

(a) The permittee shall keep records of the supporting calculations for VOC emissions on a monthly basis and shall verify compliance with the VOC emission limitation for Source IDs P101, P102, P103, P104, and P105 in any 12 consecutive month period.

(b) The permittee shall keep records of the supporting calculations for 'combined HAPs' emissions on a monthly basis and shall verify compliance with the 'combined HAPs' emission limitation for Source IDs P101, P102, P103, P104, and P105 in any 12 consecutive month period.

(c) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

021 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

(a) The permittee shall keep accurate and comprehensive records of the following for all sources at the facility:

- (1) The total amount of lacquer thinner used each month,
- (2) The total amount of toner used each month,
- (3) The identity and amount of each individual coating/finishing material used each month,
- (4) The total amount of butyl cellosolve used each month,
- (5) For each batch of any coating/finishing material to which solvent has been added on-site during each month, the amount of coating/finishing material and the amount of solvent mixed together, as well as the identities of the coating/finishing material and solvent mixed together. If any of these batches are washcoats generated by mixing sealer and solvent together, the respective batches are to be specifically identified in the records as washcoats.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

022 [25 Pa. Code §129.52]**Surface coating processes**

(a) The permittee shall maintain records sufficient to demonstrate compliance with 25 Pa. Code Section 129.52(c). At a minimum, the permittee shall maintain daily records of the following:

(1) The following parameters for each coating, thinner, and other component as supplied for use in Source IDs P101 through P109:

- (i) The coating, thinner, or component name and identification number.
- (ii) The volume used.
- (iii) The mix ratio.
- (iv) The density or specific gravity.
- (v) The weight percent of total volatiles, water, solids, and exempt solvents.

**SECTION C. Site Level Requirements**

- (2) The VOC content (lbs VOC/lb solids) of each coating, thinner, and other component as supplied.
- (3) The VOC content (lbs VOC/lb solids) of each as applied coating.
- (b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.**# 023 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

Upon request by the Department, the permittee shall submit all requested reports in accordance with the Department's suggested format.

024 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

- (a) The permittee shall submit reports to the Department on a quarterly basis that include the supporting calculations used to verify compliance with the VOC emission limitation for Source IDs P101 through P109 in any 12 consecutive month period.
- (b) The permittee shall submit reports to the Department on a quarterly basis that include the supporting calculations used to verify compliance with the 'combined HAPs' emission limitation for Source IDs P101 through P109 in any 12 consecutive month period.
- (c) The quarterly reports shall be submitted to the Department by no later than March 1 (for January 1 through December 31 of the previous year), June 1 (for April 1 of the previous year through March 31 of the current year), September 1 (for July 1 of the previous year through June 30 of the current year), and December 1 (for October 1 of the previous year through September 30 of the current year).

025 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

- (a) The permittee shall submit reports to the Department on a quarterly basis that include the records of the following for all sources at the facility:
- (1) The total amount of lacquer thinner used each month,
 - (2) The total amount of toner used each month,
 - (3) The identity and amount of each individual coating/finishing material used each month,
 - (4) The total amount of butyl cellosolve used each month,
 - (5) For each batch of any coating/finishing material to which solvent has been added on-site during each month, the amount of coating/finishing material and the amount of solvent mixed together, as well as the identities of the coating/finishing material and solvent mixed together. If any of these batches are washcoats generated by mixing sealer and solvent together, the respective batches are to be specifically identified in the records as washcoats.
- (b) The quarterly reports shall be submitted to the Department by no later than March 1 (for January 1 through December 31 of the previous year), June 1 (for April 1 of the previous year through March 31 of the current year), September 1 (for July 1 of the previous year through June 30 of the current year), and December 1 (for October 1 of the previous year through September 30 of the current year).

026 [25 Pa. Code §127.442]**Reporting requirements.**

**SECTION C. Site Level Requirements**

(a) The permittee shall report malfunctions, emergencies or incidents of excess emissions to the Department. A malfunction is any sudden, infrequent, and not reasonably preventable failure of air pollution control equipment, process equipment, or a process to operate in a normal or usual manner. An emergency is any situation arising from sudden and reasonably unforeseeable events beyond the control of the owner or operator of a facility which requires immediate corrective action to restore normal operation and which causes the emission source to exceed emissions, due to unavoidable increases in emissions attributable to the situation. An emergency shall not include situations caused by improperly designed equipment, lack of preventive maintenance, careless or improper operation, or operator error.

(b) When the malfunction, emergency or incident of excess emissions poses an imminent danger to the public health, safety, welfare, or environment, it shall be reported to the Department and the County Emergency Management Agency by telephone within one (1) hour after the discovery of the malfunction, emergency or incident of excess emissions. The owner or operator shall submit a written or emailed report of instances of such malfunctions, emergencies or incidents of excess emissions to the Department within three (3) business days of the telephone report.

(c) The report shall describe the following:

1. name, permit or authorization number, and location of the facility,
2. nature and cause of the malfunction, emergency or incident,
3. date and time when the malfunction, emergency or incident was first observed,
4. expected duration of excess emissions,
5. estimated rate of emissions,
6. corrective actions or preventative measures taken.

(d) Any malfunction, emergency or incident of excess emissions that is not subject to the notice requirements of paragraph (b) of this condition shall be reported to the Department by telephone within 24 hours (or by 4:00 PM of the next business day, whichever is later) of discovery and in writing or by e-mail within five (5) business days of discovery. The report shall contain the same information required by paragraph (c), and any permit specific malfunction reporting requirements.

(e) During an emergency an owner or operator may continue to operate the source at their discretion provided they submit justification for continued operation of a source during the emergency and follow all the notification and reporting requirements in accordance with paragraphs (b)-(d), as applicable, including any permit specific malfunction reporting requirements.

(f) Reports regarding malfunctions, emergencies or incidents of excess emissions shall be submitted to the appropriate DEP Regional Office Air Program Manager.

(g) Any emissions resulted from malfunction or emergency are to be reported in the annual emissions inventory report, if the annual emissions inventory report is required by permit or authorization.

027 [25 Pa. Code §135.3]**Reporting**

(a) A person who owns or operates a source to which 25 Pa. Code Chapter 135 applies, and who has previously been advised by the Department to submit a source report, shall submit by March 1 of each year an Annual Air Information Management Systems (AIMS) Emissions report for the preceding calendar year. The report shall include information for all previously reported sources, new sources which were first operated during the preceding calendar year, and sources modified during the same period which were not previously reported.

(b) A person who receives initial notification by the Department that an Annual Air Information Management Systems (AIMS) Emissions report is necessary, shall submit an initial Annual Air Information Management Systems (AIMS) Emissions report within sixty (60) days after receiving the notification or by March 1 of the year following the year for which the report is required, whichever is later.

(c) The permittee may request an extension of time from the Department for the filing of an Annual Air Information Management Systems (AIMS) Emissions report, and the Department may grant the extension for reasonable cause.

**SECTION C. Site Level Requirements****VI. WORK PRACTICE REQUIREMENTS.****# 028 [25 Pa. Code §123.1]****Prohibition of certain fugitive emissions**

For any source specified in 25 Pa. Code Section 123.1 subsection(s) (a)(1)-(7) or (a)(9), the permittee shall take all reasonable actions to prevent particulate matter from becoming airborne. These actions shall include, but not be limited to, the following:

- (1) Use, where possible, of water or chemicals for control of dust in the demolition of buildings or structures, construction operations, the grading of roads, or the clearing of land.
- (2) Application of asphalt, oil, or suitable chemicals on dirt roads, material stockpiles, and other surfaces which may give rise to airborne dusts.
- (3) Paving and maintenance of roadways.
- (4) Prompt removal of earth or other material from paved streets onto which earth or other material has been transported by trucking or earth moving equipment, erosion by water, or other means.

029 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All volatile organic compound-containing or volatile hazardous pollutant-containing materials (coating/finishing, clean up materials, etc.) shall be stored in closed containers when not in actual use; spray gun lines shall be cleaned by flushing solvent through the lines and into closed containers; all used cleaning rags shall be stored in closed containers and shall never be "treated" so as to unnecessarily promote the evaporative loss of solvents to the atmosphere.

030 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

No material containing methylene chloride, perchloroethylene (tetrachloroethylene), or 1,1,1-trichloroethane (methyl chloroform) shall be used at this facility.

VII. ADDITIONAL REQUIREMENTS.**# 031 [25 Pa. Code §121.7]****Prohibition of air pollution.**

No person may permit air pollution as that term is defined in the act [The Air Pollution Control Act (35 P.S. §§ 4001-4015)].

032 [25 Pa. Code §123.31]**Limitations**

No person may permit the emission into the outdoor atmosphere of any malodorous air contaminants from any source in a manner that the malodors are detectable outside the property of the person on whose land the source is being operated.

033 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is also derived from 25 Pa. Code Sections 127.1 and 127.12]

The only oils which may be applied to wood in Source IDs P107, P108 and P109 are mineral oil, linseed oil, or an alternate oil which has a vapor pressure of less than 1 millimeter of mercury at 20 Degree Celsius.

**SECTION C. Site Level Requirements****# 034 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is also derived from 25 Pa. Code Sections 127.1 and 127.12]

The only solvents which shall be used for cleanup purposes shall be acetone and Sherwin Williams R7K120 "lacquer thinner" as described in the application and supplemental materials submitted for this plan approval. As an alternate to Sherwin Williams R7K120 "lacquer thinner", other material having an equivalent, or lower, volatile organic compounds or hazardous air pollutant content, as determined by the Department). Additionally, no more than 186 gallons of acetone and 210 gallons of lacquer thinner (and/or alternate material) may be used in any 12 consecutive month period.

035 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All coating/finishing materials used in Source IDs P107, P108, P109 shall be applied using high volume low pressure (HVLP) or air-assisted airless spray technology.

036 [25 Pa. Code §129.101]**General provisions and applicability**

Source IDs P107, P108, and P109 are subject to 25 Pa. Code Section 129.101 through 129.107. The permittee shall comply with all applicable requirements specified in 25 Pa. Code Section 129.101 through 129.107.

037 [25 Pa. Code §129.14]**Open burning operations**

No person may permit the open burning of material at this facility unless in accordance with 25 Pa. Code Section 129.14.

038 [25 Pa. Code §129.52]**Surface coating processes**

Source IDs P107, P108, and P109 are subject to 25 Pa. Code Section 129.52. The permittee shall comply with all applicable requirements specified in 25 Pa. Code Section 129.52.

VIII. COMPLIANCE CERTIFICATION.

No additional compliance certifications exist except as provided in other sections of this permit including Section B (relating to State Only General Requirements).

IX. COMPLIANCE SCHEDULE.

No compliance milestones exist.

**SECTION D. Source Level Requirements**

Source ID: 031

Source Name: NATURAL GAS FIRED COMBUSTION UNITS

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §123.22]

Combustion units

[Compliance with the requirement specified in this streamlined permit condition assures compliance with the provision in 40 CFR 52.2020(c)]

No person may permit the emission into the outdoor atmosphere of sulfur oxides, expressed as SO₂, from the exhaust of each combustion unit of Source ID 031 in excess of the rate of 4 pounds per million Btu of heat input over any 1-hour period.

Fuel Restriction(s).

002 [25 Pa. Code §127.441]

Operating permit terms and conditions.

The permittee shall only use natural gas as fuel for each combustion unit of Source ID 031.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

No additional monitoring requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

IV. RECORDKEEPING REQUIREMENTS.

No additional record keeping requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.

No additional work practice requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

**SECTION D. Source Level Requirements****VII. ADDITIONAL REQUIREMENTS.****# 003 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

Source ID 031 consists of the following eleven (11) natural gas fired combustion units:

- (a) One (1) Weil McLein model M2P boiler rated at 0.910 million Btu per hour, constructed 1999, located in the boiler room of building #1,
- (b) One (1) Weil McLein boiler, rated at 0.700 million Btu per hour, constructed 1999, located in the boiler room of building #1,
- (c) One (1) Bessamaire model #MUAJHVF3 air make up unit, rated at 2.200 million Btu per hour, constructed 2003, located outside of building #2,
- (d) Two (2) American Standard Freedom series model AUX120C960B space heaters, rated at 0.120 million Btu per hour each, constructed 1998, located in building #2,
- (e) One (1) American Standard Freedom series model AUX120C960B space heater, rated at 0.120 million Btu per hour, constructed 1998, located in the closet of building #2,
- (f) One (1) American Standard Freedom series model AUX120C960B space heater, rated at 0.120 million Btu per hour, constructed 1998, located in the back portion of building #2,
- (g) Three (3) Sterling model F100 space heaters, rated at 0.100 million Btu per hour each, located in the shipping department,
- (h) One (1) Bard space heater, rated at 0.100 million Btu per hour, located in the showroom.

**SECTION D. Source Level Requirements**

Source ID: P101

Source Name: SURFACE COATING BOOTH 1

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §123.13]

Processes

No person may permit the emission of particulate matter from the exhaust of the filters (ID C101) of Source ID P101 into the outdoor atmosphere in a manner that the concentration in the effluent gas exceeds 0.04 grain per dry standard cubic foot.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

002 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Source ID P101 shall be equipped with instrumentation to continuously monitor the differential pressure across the booth filters (ID C101).

IV. RECORDKEEPING REQUIREMENTS.

003 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) The permittee shall keep records of the differential pressure across the booth filters (ID C101) of Source ID P101 on a weekly basis.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.

004 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

(a) Source ID P101 shall be equipped with a full set of booth filters (ID C101) at any time Source ID P101 is in use.

(b) The particulate matter emissions from Source ID P101 shall be controlled by ID C101.

005 [25 Pa. Code §127.441]

Operating permit terms and conditions.

**SECTION D. Source Level Requirements**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All coating/finishing materials used in Source ID P101 shall be applied using HVLP (high volume low pressure) spray technology, air-assisted airless spray technology, or by hand wiping.

VII. ADDITIONAL REQUIREMENTS.

006 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) Source ID P101 is a Binks model 108T surface coating booth, stack rated at 7500 CFM, constructed 1998, located in building #2.

(b) ID C101 consists of Andraee model H90CM pleated filters or equivalent.

**SECTION D. Source Level Requirements**

Source ID: P102

Source Name: SURFACE COATING BOOTH 2

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §123.13]

Processes

No person may permit the emission of particulate matter from the exhaust of the filters (ID C102) of Source ID P102 into the outdoor atmosphere in a manner that the concentration in the effluent gas exceeds 0.04 grain per dry standard cubic foot.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

002 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Source ID P102 shall be equipped with instrumentation to continuously monitor the differential pressure across the booth filters (ID C102).

IV. RECORDKEEPING REQUIREMENTS.

003 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) The permittee shall keep records of the differential pressure across the booth filters (ID C102) of Source ID P102 on a weekly basis.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.

004 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

(a) Source ID P102 shall be equipped with a full set of booth filters (ID C102) at any time Source ID P102 is in use.

(b) The particulate matter emissions from Source ID P102 shall be controlled by ID C102.

005 [25 Pa. Code §127.441]

Operating permit terms and conditions.

**SECTION D. Source Level Requirements**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All coating/finishing materials used in Source ID P102 shall be applied using HVLP (high volume low pressure) spray technology, air-assisted airless spray technology, or by hand wiping.

VII. ADDITIONAL REQUIREMENTS.

006 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) Source ID P102 is a Binks model 108T surface coating booth, stack rated at 7500 CFM, constructed 1998, located in building #2.

(b) ID C102 consists of Andraee model H90CM pleated filters or equivalent.

**SECTION D. Source Level Requirements**

Source ID: P103

Source Name: SURFACE COATING BOOTH 3

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §123.13]

Processes

No person may permit the emission of particulate matter from the exhaust of the filters (ID C103) of Source ID P103 into the outdoor atmosphere in a manner that the concentration in the effluent gas exceeds 0.04 grain per dry standard cubic foot.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

002 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Source ID P103 shall be equipped with instrumentation to continuously monitor the differential pressure across the booth filters (ID C103).

IV. RECORDKEEPING REQUIREMENTS.

003 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) The permittee shall keep records of the differential pressure across the booth filters (ID C103) of Source ID P103 on a weekly basis.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.

004 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

(a) Source ID P103 shall be equipped with a full set of booth filters (ID C103) at any time Source ID P103 is in use.

(b) The particulate matter emissions from Source ID P103 shall be controlled by ID C103.

005 [25 Pa. Code §127.441]

Operating permit terms and conditions.

**SECTION D. Source Level Requirements**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All coating/finishing materials used in Source ID P103 shall be applied using HVLP (high volume low pressure) spray technology, air-assisted airless spray technology, or by hand wiping.

VII. ADDITIONAL REQUIREMENTS.

006 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) Source ID P103 is a Binks model 108T surface coating booth, stack rated at 7500 CFM, constructed 1998, located in building #2.

(b) ID C103 consists of Andraee model H90CM pleated filters or equivalent.

**SECTION D. Source Level Requirements**

Source ID: P104

Source Name: SURFACE COATING BOOTH 4

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §123.13]

Processes

No person may permit the emission of particulate matter from the exhaust of the filters (ID C104) of Source ID P104 into the outdoor atmosphere in a manner that the concentration in the effluent gas exceeds 0.04 grain per dry standard cubic foot.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

002 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Source ID P104 shall be equipped with instrumentation to continuously monitor the differential pressure across the booth filters (ID C104).

IV. RECORDKEEPING REQUIREMENTS.

003 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) The permittee shall keep records of the differential pressure across the booth filters (ID C104) of Source ID P104 on a weekly basis.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.

004 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

(a) Source ID P104 shall be equipped with a full set of booth filters (ID C104) at any time Source ID P104 is in use.

(b) The particulate matter emissions from Source ID P104 shall be controlled by ID C104.

005 [25 Pa. Code §127.441]

Operating permit terms and conditions.

**SECTION D. Source Level Requirements**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All coating/finishing materials used in Source ID P104 shall be applied using HVLP (high volume low pressure) spray technology, air-assisted airless spray technology, or by hand wiping.

VII. ADDITIONAL REQUIREMENTS.

006 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) Source ID P104 is a Carolina model 8 surface coating booth, stack rated at 7500 CFM, constructed 2003, located in the back of building #2.

(b) ID C104 consists of Andraee model H90CM pleated filters or equivalent.

**SECTION D. Source Level Requirements**

Source ID: P105

Source Name: MISCELLANEOUS WOOD FINISHING OPR

Source Capacity/Throughput:

**I. RESTRICTIONS.****Throughput Restriction(s).****# 001 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

- (a) The amount of all adhesives used in Source ID P105 which contain volatile organic compounds and/or hazardous air pollutants shall not exceed 40 gallons in any 12 consecutive month period.
- (b) The amount of acetone used in the cleanup activities associated with Source ID P105 shall not exceed 300 gallons in any 12 consecutive month period.
- (c) The amount of lacquer thinner (and/or alternate materials) used in the cleanup activities associated with Source ID P105 shall not exceed 250 gallons in any 12 consecutive month period.
- (d) The amount of mineral spirits used as additive for wood oil in Source ID P105 shall not exceed 10 gallons in any 12 consecutive month period.
- (e) The amount of "Famowood" used as a solvent to thin wood putties in Source ID P105 shall not exceed 3 gallons in any 12 consecutive month period.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

No additional monitoring requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

IV. RECORDKEEPING REQUIREMENTS.**# 002 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

- (a) The permittee shall keep accurate and comprehensive records of the following for Source ID P105:
- (1) The identity and amount of each wood oil used each month,
 - (2) The identity and amount of each solvent, if any, added to wood oils each month,
 - (3) The amount of wood putty used each month,
 - (4) The identity and amount of each solvent, if any, added to wood putty each month,
 - (5) The identity and amount of each adhesive used each month,

**SECTION D. Source Level Requirements**

- (6) The total amount of lacquer thinner used each month for cleanup activities,
 - (7) The total amount of acetone used each month,
 - (8) The amount of acetone used each month for cleanup purposes,
 - (9) The identity and amount of each solvent other than acetone or lacquer thinner used each month for cleanup purposes,
 - (10) The identity and amount of cleanup solvent used each month and the quantity of cleanup solvent shipped off site each month for disposal or reclaim.
- (b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.**# 003 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

(a) The permittee shall submit reports to the Department on a quarterly basis that include the records of the following for Source ID P105:

- (1) The identity and amount of each wood oil used each month,
- (2) The identity and amount of each solvent, if any, added to wood oils each month,
- (3) The amount of wood putty used each month,
- (4) The identity and amount of each solvent, if any, added to wood putty each month,
- (5) The identity and amount of each adhesive used each month,
- (6) The total amount of lacquer thinner used each month for cleanup activities,
- (7) The total amount of acetone used each month,
- (8) The amount of acetone used each month for cleanup purposes,
- (9) The identity and amount of each solvent other than acetone or lacquer thinner used each month for cleanup purposes,
- (10) The identity and amount of cleanup solvent used each month and the quantity of cleanup solvent shipped off site each month for disposal or reclaim.

(b) The quarterly reports shall be submitted to the Department by no later than March 1 (for January 1 through December 31 of the previous year), June 1 (for April 1 of the previous year through March 31 of the current year), September 1 (for July 1 of the previous year through June 30 of the current year), and December 1 (for October 1 of the previous year through September 30 of the current year).

VI. WORK PRACTICE REQUIREMENTS.**# 004 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

The only oils which may be applied to wood in Source ID P105 are mineral oil, linseed oil, or an alternate oil which has a vapor pressure of less than 1 millimeter of mercury at 20 degrees C.

**SECTION D. Source Level Requirements****# 005 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

No additive of any kind, other than mineral spirits, may be added to any wood oil used in Source ID P105.

006 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Acetone and "Famowood" shall be the only solvents used to thin wood putties in Source ID P105.

007 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All solvent used for spray line cleaning shall be flushed as a solid solvent stream into closed containers. Under no circumstance shall cleanup solvent be removed from spray lines by spraying through a spray gun such that the solvent exits the gun as an atomized or shower spray. All containers of cleanup solvent shall be kept closed when not in actual use and all solvent-wet rags, etc. shall be stored in closed containers when not in actual use. Under no circumstances shall waste solvent be disposed of via evaporation or solvent-wet rags, etc. be treated or pretreated prior to disposal or reuse by subjecting them to air drying, or any other means of solvent removal which would unnecessarily cause solvent to be evaporated into the air.

008 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All materials used in Source ID P105 shall be applied using hand wiping.

009 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

The only solvents which shall be used for cleanup activities associated with Source ID P105 shall be acetone or Sherwin Williams R7K120 "lacquer thinner" as described in the application and supplemental materials submitted for Plan Approval #14-318-001B (or alternate material having an equivalent, or lower, volatile organic compound and hazardous air pollutant content).

VII. ADDITIONAL REQUIREMENTS.**# 010 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

Source ID P105 consists of the following:

- (a) Adhesive usage utilizing aerosol spray cans and a 32-pound capacity pressure pot,
- (b) Wood putty usage,
- (c) Wood putty thinner usage,
- (d) Wood oil usage,
- (e) Wood oil thinner usage,
- (f) Cleanup operations occurring anywhere at the facility.

**SECTION D. Source Level Requirements**

Source ID: P107

Source Name: SURFACE COATING BOOTH 5

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

{Compliance with this permit condition assures compliance with the particulate matter emissions limitation of 25 Pa. Code Section 123.13}

The concentration of particulate matter emissions from the exhaust associated with Source ID P107 shall not exceed 0.01 grains per dry standard cubic feet at any time.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

002 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Source ID P107 shall be equipped with instrumentation to continuously monitor the differential pressure across the booth filters (ID C107).

IV. RECORDKEEPING REQUIREMENTS.

003 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) The permittee shall keep records of the differential pressure across the booth filters (ID C107) of Source ID P107 on a weekly basis.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

**SECTION D. Source Level Requirements****VI. WORK PRACTICE REQUIREMENTS.****# 004 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

- (a) Source ID P107 shall be equipped with a full set of booth filters (ID C107) at anytime Source ID P107 is in use.
- (b) The particulate matter emissions from Source ID P107 shall be controlled by ID C107.

VII. ADDITIONAL REQUIREMENTS.**# 005 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

- (a) Source ID P107 is a Global Finishing Inc. model 1286 surface coating booth #7.
- (b) ID C107 consists of Chemco Manufactured fiberglass paint arrestor model T-12 filters or equivalent.

**SECTION D. Source Level Requirements**

Source ID: P108

Source Name: SURFACE COATING BOOTH 6

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

{Compliance with this permit condition assures compliance with the particulate matter emissions limitation of 25 Pa. Code Section 123.13}

The concentration of particulate matter emissions from the exhaust associated with Source ID P108 shall not exceed 0.01 grains per dry standard cubic feet at any time.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

002 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Source ID P108 shall be equipped with instrumentation to continuously monitor the differential pressure across the booth filters (ID C108).

IV. RECORDKEEPING REQUIREMENTS.

003 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) The permittee shall keep records of the differential pressure across the booth filters (ID C108) of Source ID P108 on a weekly basis.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

**SECTION D. Source Level Requirements****VI. WORK PRACTICE REQUIREMENTS.****# 004 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

- (a) Source ID P108 shall be equipped with a full set of booth filters (ID C107) at anytime Source ID P108 is in use.
- (b) The particulate matter emissions from Source ID P108 shall be controlled by ID C108.

VII. ADDITIONAL REQUIREMENTS.**# 005 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

- (a) Source ID P108 is a Global Finishing Inc. model 1286 surface coating booth #8.
- (b) ID C108 consists of Chemco Manufactured fiberglass paint arrestor model T-12 filters or equivalent.

**SECTION D. Source Level Requirements**

Source ID: P109

Source Name: SURFACE COATING BOOTH 7

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

{Compliance with this permit condition assures compliance with the particulate matter emissions limitation of 25 Pa. Code Section 123.13}

The concentration of particulate matter emissions from the exhaust associated with Source ID P109 shall not exceed 0.01 grains per dry standard cubic feet at any time.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

002 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Source ID P109 shall be equipped with instrumentation to continuously monitor the differential pressure across the booth filters (ID C109).

IV. RECORDKEEPING REQUIREMENTS.

003 [25 Pa. Code §127.441]

Operating permit terms and conditions.

(a) The permittee shall keep records of the differential pressure across the booth filters (ID C109) of Source ID P109 on a weekly basis.

(b) These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.

004 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

**SECTION D. Source Level Requirements**

- (a) Source ID P109 shall be equipped with a full set of booth filters (ID C109) at any time Source ID P109 is in use.
- (b) The particulate matter emissions from Source ID P109 shall be controlled by ID C109.

VII. ADDITIONAL REQUIREMENTS.**# 005 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

- (a) Source ID P109 is a Global Finishing Inc. model 1286 surface coating booth #9.
- (b) ID C109 consists of Chemco Manufactured fiberglass paint arrestor model T-12 filters or equivalent.

SECTION E. Source Group Restrictions.

**SECTION F. Alternative Operation Requirements.**

No Alternative Operations exist for this State Only facility.

**SECTION G. Emission Restriction Summary.**

No emission restrictions listed in this section of the permit.

**SECTION H. Miscellaneous.**

The following air contaminant sources are considered to the Department to be insignificant with regards to air contaminant emissions and are determined to be exempt from permitting requirements. However, this determination does not exempt the sources from compliance with all applicable State and Federal regulations, including all applicable regulations specified in 25 Pa. Code Chapters 121-145:

(a) Woodworking operations, located in building #1, controlled by:

- (1) One (1) Norfab model NFK 2000 fabric collector, constructed 1999, approximately 20 intakes, exhausts indoors with no bypass, woodwaste dumps into covered truck, located on building #1,
- (2) One (1) Northtech dust collector, located inside building #1 and exhausts indoors.

***** End of Report *****
