

For a warm, safe winter Check Your Tank Regularly, Call for Delivery Early

Over 2.5 million Pennsylvania households rely on oil or propane for heat.

Did you know?

An oil or propane delivery typically travels many miles:

Factors that can slow delivery:

Not typical, but risk can increase in extreme weather
In winter there's also increased demand

fire

flooding

power outage

leaks

storm closure

hazardous road conditions

equipment freeze-up

snow and ice at the residence

**Avoid emergencies and higher fill-up costs:
Check your tank regularly and call for delivery early!**
