Dear Mr. Garg:

Subject: Transmittal
Revision No.1 to Residual Waste Permit Application
Harmony Residual Waste Landfill
Eagle Environmental II, L.P.
Chest Township, Clearfield County, Pennsylvania
APS#645070
CEC Project 060-205

On behalf of Eagle Environmental II, L.P. (Eagle), Civil & Environmental Consultants, Inc. (CEC) is submitting one original and three copies of the enclosed Revision No. 1 to the Residual Waste Permit Application for Harmony Residual Waste Landfill, located in Chest Township, Clearfield County, Pennsylvania.

Revision No. 1 is being submitted in response to a Pennsylvania Department of Environmental Protection (DEP) letter dated September 2, 2008,⁽¹⁾ wherein the DEP requested additional information concerning the surface mining of coal be submitted. As you are aware, Eagle recently submitted a Bituminous Surface Mine Permit Application in response to the September 2008 letter to describe the proposed incidental surface mining of the Lower Freeport and Upper Kittanning coal seams. As a consequence of design requirements for the surface mine application, numerous changes were subsequently required to the Residual Waste Permit Application harms and benefits evaluation, Phase I and II drawing sets, forms, and supporting narratives/documentation. These changes are reflected in the attached Revision No. 1.

Instructions for inserting revisions into the existing Residual Waste Permit Application are provided with this response letter. However, CEC personnel will make the revision insertions into the DEP's copies upon request. CEC will also schedule appointments with Clearfield County and Chest Township to insert the revisions into their copies of the application.
