Dear Ms. Fleet:

In response to the Notice of Violation dated September 20, 2018 regarding August 13, 2018 fugitive emission. Erie Coke disputes that the noted fugitive emission was in violation of 25 Pa Code 129.15(c), (regarding pushing emissions). This emission is not from an oven push and is not from the coke shed. Method 22 opacity readings must be viewed from 15 ft. to one quarter mile. The south pier is approximately one half mile from Erie Coke property. Method 9 opacity readings must be observed with a clear view.

Sincerely,
Erie Coke Corporation
