Re: Incompleteness Review
Christopher M. Crane Clean Energy Center
Application No. WQC2203225-001
APS No. 1150951
Londonderry Township, Dauphin County

Dear Debra Musser:

The Department of Environmental Protection (DEP) has reviewed the above referenced application package and has determined that it is incomplete. The following list specifies the items missing from the submission which must be included in the resubmittal of your application and/or the submission of additional information.

Please note that this information must be received within sixty (60) calendar days from the date of this letter, on or before February 16, 2026 or DEP will consider the application withdrawn.

Please submit an electronic copy to the DEP's Public Upload (PU) (<https://greenport.pa.gov/ePermitPublicAccess/PublicSubmission/Home>). For ease of review, the DEP requests that large files be uploaded as multiple files with logical file names. Do not delete previously submitted files. Use the following form information:

Resubmittal: Yes
Reference Number: 362731
PIN: 649807
Permit #: WQC2203225-001
Submission Notes: Response to Incomplete Registration
Is your organization exempt from submission fees?: Yes

Items Missing from Submission

1. An Environmental Assessment Form was provided that references other sections of the application documents for each module, but is not consistent with the instructions of the Environmental Assessment. For example, the Environmental Assessment incorrectly states "restart activities and the resumption of power operations will not have any water obstruction(s), encroachment activities, or dams" when, at a minimum, maintenance dredging and modifications to the north bridge are proposed. Provide revisions to the Environmental

Assessment to ensure that all modules are completed and are consistent with the instructions and appendices. The Environmental Assessment should discuss and quantify all potential impacts to waters of the Commonwealth associated with this project.

2. Provide proof of coordination with the Pennsylvania Historical and Museum Commission.
3. A PNDI search for only the bridge modifications was provided. Provide a completed PNDI search for the entire project area along with proof of coordination with any resource agencies where a potential conflict is identified.
4. A wetland memo from 2018 for the *Spent Fuel Storage Area* was provided. The memo is outdated and does not include the entire project area. Provide a revised wetland delineation report that includes the entire project area, is less than five years old, and includes completed data sheets, photos, and aerial mapping showing the extent of the investigation.

You may request a time extension, in writing, before February 16, 2026 to respond to the deficiencies beyond the sixty (60) calendar days. Requests for time extensions will be reviewed by DEP and considered. You will be notified in writing of the decision either to grant or deny, including a specific due date to respond if the extension is granted. Time extensions shall be in accordance with 25 Pa. Code § 105.13a(b).

The PAYback program amends the former Permit Decision Guarantee program. [Executive Order 2023-07](#) requires the Department to abide by established review times for each authorization. The PAYback program became effective November 1, 2023, as required by Executive Order 2023-07. Chapter 105 applications or registrations received by the Department on or after that date are subject to this policy and are potentially eligible for Pennsylvania's PAYback program. More information is available on the [PAYback website](#).

As stipulated in 25 Pa. Code § 105.13a of DEP's Chapter 105 Rules and Regulations (regarding Complete applications) information requested by this office must be received within sixty (60) calendar days from the date of this letter, on or before February 16, 2026, or DEP will consider the application to be withdrawn by the applicant and no further action will be taken on the application. Fees are not refunded when an application is considered to be withdrawn.

If you have questions about your application, please contact Jason Shirey at email: jshirey@pa.gov or telephone: 717.705.4818 and refer to Application No.WQC2203225-001.

Sincerely,

Bethany A. Kavulich, PE
