RE: SUNOCO PIPELINE L.P. – PENNSYLVANIA PIPELINE PROJECT  
MUNICIPAL FLOODPLAIN MANAGEMENT CONSISTENCY

Dear Ms. Silva,

In response to your recent requests and evaluating the information you provided, Blair Township, Blair County, PA can state that the proposed Sunoco pipeline installation project is consistent with Blair Township's Floodplain Management Ordinance, Ordinance No. 2011-07.

This assumes the project will be installed within Blair Township as depicted in your submission - the underground pipelines will be installed via horizontal drilling methods below all the floodway resources with no above ground impacts that could impact the base flood elevations.

Should you have questions, or need further information, please contact me at (814) 696-4363 X 102.

Sincerely,

Betty Robertson  
Secretary
