Re: NPDES Discharge for Stormwater Construction
Activities
Eastern Metal Recycling Terminal
No. PAI01231001
Eddystone Borough
Delaware County

Dear Mr. Balzano:

Enclosed is the above-referenced permit which authorizes the discharge of stormwater from the construction activity described in the final erosion and sedimentation control plan and the permit application. Please contact the Delaware County Conservation District to make arrangements to obtain your copy of the approved final erosion and sedimentation control plan. The plan must be fully implemented and available at the construction site. A pre-construction meeting must be scheduled with the District. Failure to do so may result in suspension of your permit.

Please read carefully Parts A, B, and C of the permit which detail the terms and conditions of this authorization. Conservation District's staff and/or representatives of the Department of Environmental Protection may inspect this earthmoving activity to determine compliance with applicable permit requirements, Chapters 92, 101, and 102 Rules and Regulations and the Clean Streams Law.

Permit requirements and federal regulations at 40 C.F.R. Section 122.21(b) require "when a facility or activity is owned by one person but is operated by another person, it is the operator's duty to obtain a permit." Please be advised that once a contractor has been selected for the project, the permit must either be transferred to the contractor or the contractor must be made a co-permittee. The enclosed form must be used to add a co-permittee.

Enclosed is a Notice of Termination form to complete and file when construction activities have ceased and final stabilization has been achieved.

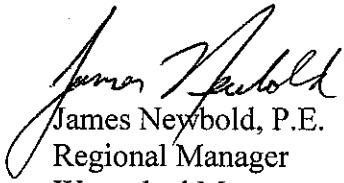

Mr. Joseph Balzano, Jr., President

- 2 -

This authorization does not relieve the applicant from applying for and obtaining any and all additional permits or approvals from local, state, or federal agencies for the construction activity.

If you have any questions, please contact me.

Sincerely,

Re 30 (SM1)

SPECIAL CONDITION(s)

1. The Permittee shall avoid exposure of material stored within the "Zorba 10 Area" located in the vicinity of Manhole #7 by providing structural roof cover.
2. This permit incorporates by reference the application and any other attachments, reports, plans, plan drawings, supplements, and other materials submitted by the applicant in support of its application.
3. A Notice of Termination (NOT) will be required to be submitted following approval of the final as-built plans. Prior to accepting the NOT, the Department and/or Conservation District will perform a final inspection to ensure site stabilization and verify adequate installation and function of stormwater best management practices (BMPs).
4. As-built plans of the stormwater BMPs for each project phase shall be provided within six months following the completion of each phase. The as-built plans shall be signed and sealed by a PA Registered Professional Engineer.
5. The permittee shall provide engineering construction oversight for the proposed stormwater BMPs.
6. This permit may be modified, suspended, revoked, reissued, or terminated during its term for any of the causes specified in 25 Pa. Code Chapters 92 and 102, or to require compliance with updated Effluent Limitation Guidelines, impaired water listings, or new TMDLs.
7. Waste generated from or discovered during construction and/or demolition activities, must be managed in accordance with the Solid Waste Management Act. Such wastes may include, but not limited to, soil, rock, stone, gravel, unused brick and block, concrete and used asphalt. The permittee is responsible for determining if any waste so generated is hazardous or nonhazardous and has the burden of proof to demonstrate that waste is managed in accordance with the pertinent hazardous, municipal, or residual waste regulations. Questions about the proper management of waste from the construction or demolition activities authorized under this permit should be directed to the Southeast Regional Office's Waste Management Program at 484.250.5960.

If any of the required Solid Waste Management Act procedures require modifications or delays in the implementation of the Erosion and Sediment Plan, the Delaware County Conservation District should be contacted immediately.
