Re: Westinghouse Electric Corporation  
Beaver Plant

Dear Mr. Shack:

In accordance with our discussion on September 27, 1988, I understand that your request is for information from the time that Westinghouse purchased the facility in Beaver, Pennsylvania until the present. Westinghouse purchased the facility from the War Assets Administration in 1947, and the location of some records that may be relevant are not on site. Westinghouse understands your need for a timely response; however, given the number of records and files that will have to be reviewed to ensure that a complete and thorough response is made, I request that you extend the response deadline to October 31, 1988.

It is also my understanding that you do not require Westinghouse to submit copies of Quarterly Reports and other documents regularly submitted to the DER.

If you have any questions, please do not hesitate to contact me at 412-642-4027.

Sincerely,

*Linda L. LeGoullon/cm*
