**Re: NPDES Permit Application PAD020098 (Quaker Valley School District)
Request for Extension to Respond to December 24, 2025 Technical Deficiency Letter**

Dear Mr. Turka:

I have been retained by Quaker Valley School District (QVSD) to advise them on various environmental matters associated with the proposed Quaker Valley High School project in Leet Township, Leetsdale Borough and Edgeworth Borough.

We recently received the above-referenced technical deficiency letter, which identified 223 separate concerns (many with subparts), and which requested a response by January 23, 2026. In order to present a complete and well-thought-out technical response, we request a thirty-day extension to respond. Given the large number of comments, and the intervening Christmas and New Years' holiday season, we believe that a limited extension of this sort is wholly appropriate, and will ensure that both QVSD and DEP are able to proceed using the best technical information.

Please confirm at your earliest convenience that this extension is acceptable. Further, if you have any other questions, please do not hesitate to contact me or Charlie Gautier.

Thank you for your consideration.

Very truly yours,

Paul K. Stockman
