SHELL CHEM APPALACHIA/PETROCHEMICALS COMPLEX, 04-00740

PA-04-00741A Section C, Condition #004 and 25 Pa. Code Section 123.31 state that malodourous air contaminants may not be emitted into the outdoor atmosphere from a source in such a manner that the malodors are detectable outside of the owner/operator's property. On April 12, 2023, the Department confirmed that malodorous air contaminants from the Shell facility were detectable outside of Shell's property. By permitting these malodors, Shell caused violations of PA-04-00741A and 25 Pa. Code Sections 127.25, 123.31, and 121.7.

Effective January 16, 2021, all air quality applications, Permits, Requests for Determinations and initial Asbestos Notifications will be subject to new and/or increased fees. The new fees and other PADEP Air Quality information can be found at: <https://www.dep.pa.gov/Business/Air/Pages/default.aspx>

As of July 29, 2021, the Source Testing Section has gone paperless. An individual Source Testing Section reviewer may request a hard copy from the facility or the consultant. Note that the section will continue to require electronic submissions of protocols and reports to the resource email account (ra-epstacktesting@pa.gov or by disk and snail mail when the file is over 35 MBs). Periodic Monitoring reports (generally three 20-minute test runs) shall only be submitted to the regional office.

As of November 10, 2021, there have been some changes to how the regional offices will accept electronic submission. OnBase submissions of protocols and reports will no longer be accepted for Source Testing.

SWRO: Any email submission to ra-epstacktesting@pa.gov should also be CC-ed to ra-epswstacktesting@pa.gov. Beyond that email cc, no further submission is necessary to DEP SWRO (i.e. no hard copy or disk needed for SWRO).
