

Summary / Assumptions – Sealed Bids

Karen Schneider is the landowner

William Blake is the operator

William Blake has a problem with uncontrolled flow of nutrients from his barnyard and has to spread manure on frozen and snow covered ground

The county conservation district has a conservation plan implementation grant available

The county conservation district will fund up to 100% cost share or a maximum of \$30,000 per manure storage structure

Sealed bid process is used to solicit bids to install the manure storage

CBP-8 is used for the bid price, not the cost share price

CBP-5 is used to pay once work completed, notice that only \$30,000 was paid in cost share.
