

PROJECT SUMMARY
Chest Creek Flood Control Restoration Project
Phase V

Project Description: The Project will install (3) fish enhancement structures to control stream bank erosion on Chest Creek while providing sediment transport for approximately 300 linear feet of stream.

Project Goals: The goals were to improve fish habitat and other aquatic resources while reducing sediment pollution from eroding streambanks into Chest Creek.

Project Results: The streambanks were sloped and stabilized utilizing (3) fish habitat structures which reduced sediment loading into the stream while recreating a low flow meandering channel.

Pre - Construction

Post - Construction

Project Grants/Contributions: Growing Greener Grant: \$21,260.00
PA Fish & Boat Commission: \$451.16

Total Costs: \$21,711.16

Contractor: Earth Shapers, LLC

Material Suppliers: J.M. DeLullo Stone Sales Inc. & Topnotch Logging

Partners: PA Department of Environmental Protection, Patton Borough, PA Fish & Boat Commission and the Cambria County Conservation District.
