*Crawford County Ag BMP Cost Share Program 2020 C990002433*

*Crawford County Conservation District*

---

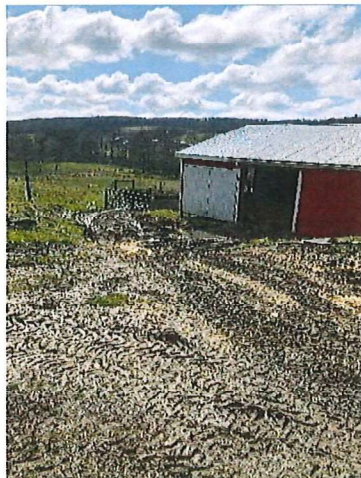

Project Description: The Crawford County Conservation District planned to offer a county wide cost share program implementing water quality and non point source pollution best management practices to rural lands. The agricultural best management practices were identified from the Pennsylvania Technical Guide. In addition to construction the District initiated the development of 31 Nutrient Management Plans.

Project Goals: The Crawford County Ag BMP Cost Share Program 2020 will provide benefit to rural water quality through the installation of ten best management practices and five Nutrient Management Plans.

Project Results: In all we completed or contributed to the completion of 18 separate best management practices on 13 farms within Crawford County. We also completed 23 nutrient management plans.

Practices Installed	Quantity
Heavy Use Area Protection	6882 Sq Ft
Access Road	2520 LF
Animal Trail and Walkway	114 LF
Roof Runoff Management	114 LF
Fence- Grazing	16517 LF
Spring Development	2 system
Waste Storage Structure	1 system
Underground Outlet	654 LF
Livestock Pipeline	2367 LF
Watering Facility	1 system
Water Well	2 system
