

**POLLUTANT REDUCTION PLAN IMPLEMENTATION
GRANT DOCUMENT NO. C990002514
OHIO TOWNSHIP, ALLEGHENY COUNTY, PA**

PROJECT DESCRIPTION

As required by its Municipal Separate Storm Sewer Permit, Ohio Township must implement its Pollutant Reduction Plan to reduce the sediment loading reaching the Waters of the Commonwealth.

PROJECT GOALS

To reduce the sediment loading as required by the MS4 Permit. The project is located within the Kilbuck Run – Ohio River, Lowries Run HUC-12 watershed.

PROJECT RESULTS

The project allowed for retrofitting of three existing stormwater basins. The retrofitted basins, located at Northridge Point, Northridge Crimson, and Heritage, has a sediment reduction of approximately 32,000 lbs/yr.
