

Project Description – This project was to accomplish stabilizing a portion of bank on the East Branch Sugar Creek to limit erosion and preserving the road while forcing the stream flow to the center of the channel. By also installing these stabilizing structures we have provided some habitat or aquatic life.

Project Timeframe – December 31, 2020 through December 31, 2022

Photos -

Project Results - Installation of 250 ft of mounds to minimize accelerated erosion to the East Branch Sugar Creek.

Project Costs - \$15,085.34 Growing Greener plus an additional \$3,014 in match funds.
