

**Project Description** - The goal of the project was to rehabilitate Clearfield Creek Watershed Association's (CCWA) Klondike #1, Klondike #2, and Gibson passive treatment systems. The project was implemented by: 1) conducting an evaluation of the treatment systems, 2) developing a rehabilitation scope of work, 3) bidding of the scope of work and selection of a contractor, 4) conducting the rehabilitation activities.

**Project Timeframe** – April 1, 2022 through June 30, 2022

**Pictures** –

**Project Results** – The KL-1, KL-2, and Gibson treatment systems were repaired/improved, resulting in better treatment of AMD.

**Project Costs** - \$290,121 EPA Section 319(h) plus and additional \$12,024 in match funds.

**Partners** – Clearfield Creek Watershed Association.
