

Franklin County Clean Water Plan - Progress and Milestones

2022

**Green** - action has been completed or is moving forward as planned    **Yellow** - action has encountered minor obstacles    **Red** - action has not been taken or has encountered a serious barrier    **BOLD** – item is completed    *Italics* – new progress with 2022 update

Action #	Description	Performance Target(s)	Responsible Party(ies) and Partnerships	Geographic Location	Expected Timeline	Potential Implementation Challenges or Recommendations	Resources Available		Resources Needed		Annual Progress to Date (2021 + 2022) <small>*add new 2022 progress above the existing 2021 progress. Date each entry</small>	Reason for Change to Action Item (2022-2023 milestone period)
							Technical	Financial	Technical	Financial		
<b>Priority Initiative 1: Programmatic, Policy and Regulatory Initiatives</b>												
<b>1.1*</b>	<b>Organizational Structure – Integrate Chesapeake Bay planning efforts with county planning through dedicated personnel available to support local goal implementation and address capacity issues on a county-by-county basis.</b>	<b><u>Potential Targets</u></b> <ul style="list-style-type: none"> <li>Organizational chart for all participating entities with roles and responsibilities developed. Share with county partners</li> <li>Hire state level staff</li> <li>Necessary information identified for exchange reporting criteria</li> <li>Schedule for reports established in data verification process manual</li> </ul>	<b><u>Potential Partners</u></b> <ul style="list-style-type: none"> <li>EPA</li> <li>DEP</li> <li>Susquehanna RBC</li> <li>Potomac RBC</li> <li>Counties &amp; Municipalities</li> </ul>	Chesapeake Bay region	2022	<ul style="list-style-type: none"> <li><b>Integrated staff should be at DEP level but with frequent interaction in collaboration with county staff.</b></li> <li><b>2-3 staff at DEP for administration of program, and at least 1 dedicated staff person at Franklin County</b></li> <li>Program needs to recognize and provide support for plan implementation for counties' unique needs</li> <li><b>Additional staff needed to address capacity issues such as data reporting/verification, plan writing at CDs, program administration specialists, etc.</b></li> </ul>	TBD – Currently None	TBD – Currently None	<b>Staff will need to be hired to lead and coordinate the WIP effort.</b>  <b>Source: State/County part to be determined</b>	<b>State and local funds sufficient for staffing.</b>  <b>Suggested source: State/Local</b>	<p><b>August 2022 Update:</b> While full time additional staff for BMP verification has not been provided, a pilot was deployed among all counties for BMP verification. Our county chose to use the pilot program funding for increasing capacity for data reporting/existing BMP verification/reverification in the form of 2 part-time, retired ag professionals, contracted through Capital RC&amp;D. We do not consider item 1.1 to be fully completed, but do recognize &amp; report progress on this front in the form of the additional funding with option to use for BMP verification capacity building.</p> <p><b>August 2021 Update:</b> No additional positions have been staffed since the 2020 update, but Franklin County took some time to discuss additional program support necessary for successful implementation. This additional recommendation is outlined in the update (Potential Recommendations column).</p>	<p><b>(Existing item altered/added to during 2021 two-year milestone update.)</b></p> <p><b>August 2021:</b> This item was originally a broad idea. Since this item was created, CBO staff and coordinators have been hired &amp; facilitating CAP effort. This item has been updated to look further into additional needs identified through implementation process in 2022-2023.</p> <p>Implementation efforts have increased workload at the county level. With more projects to complete on a quicker timeline, additional assistance is needed to facilitate these efforts and the capacity of this new work.</p>

1.2	<p><b>Program Data Management &amp; Project Planning –</b></p> <p><b>Create a central county location for data collection and reporting for all sectors.</b> Database would include data and project planning tools for related items such as:</p> <ul style="list-style-type: none"> <li>• Existing/planned BMPs</li> <li>• County conservation &amp; ag Plans</li> <li>• Project permits</li> <li>• Grant applications</li> <li>• 4R practices</li> <li>• Stormwater management practices and facilities in local municipalities</li> <li>• All additional items related to the above</li> </ul>	<p><b><u>Potential Targets</u></b></p> <ul style="list-style-type: none"> <li>• <b>Program Creation</b></li> <li>• Stakeholder meeting results (such as pledge of program use)</li> <li>• # of training attendees</li> <li>• # of organizations with accounts</li> <li>• # of county users</li> <li>• Acres recorded</li> <li>• BMP goal progress</li> <li>• <b>End Goal:</b> Functioning smoothly as “One-stop Shop” for project planning &amp; management (Comprehensive, up-to-date database)</li> </ul>	<p><b><u>Potential Partners</u></b></p> <p><b>For Creation:</b></p> <ul style="list-style-type: none"> <li>• CWFC</li> <li>• County</li> <li>• Chesapeake Commons</li> <li>• GIS Professionals</li> <li>• etc.</li> </ul> <p><b>For Data Input:</b></p> <ul style="list-style-type: none"> <li>• CWFC</li> <li>• FCCD</li> <li>• Local municipalities</li> <li>• Penn State Extension</li> <li>• Watershed Stewards</li> <li>• Capital RC&amp;D</li> <li>• South Mountain Partnership (SMP)</li> <li>• Private partners</li> <li>• Other organizations involved in Clean Water projects</li> <li>• etc.</li> </ul> <p><b>For Maintenance:</b></p> <ul style="list-style-type: none"> <li>• Data creators</li> <li>• Program creator</li> <li>• IT/GIS professional</li> <li>• CWFC data team</li> </ul>	Countywide	2023-2024	<ul style="list-style-type: none"> <li>• Workforce capacity</li> <li>• Technical assistance capacity</li> <li>• Reluctance of needed partners to adopt new program</li> <li>• Information &amp; data sharing discretion lies with 22 individual municipalities, private partners, &amp; agencies (No countywide guidance or regulation on mandatory adoption or data sharing)</li> <li>• Right-To-Know</li> <li>• Data consistency</li> <li>• Practices may vary between local municipalities – need program to be highly customizable</li> </ul>	<p>Practice Keeper</p> <p>FieldDoc</p> <p>COG &amp; events to speak to all municipalities in one place</p> <p>Founder of FieldDoc is local for technical assistance needs</p>	<p>FieldDoc (Free to all, no license needed)</p> <p>Potentially - Technical Assistance grants</p> <p>No other financial resources available</p>	<p>Personnel dedicated to data management and verification</p> <p>Technical assistance for organizations with user accounts</p> <p>Training for organizations who wish to report projects</p> <p>Data share agreements</p>	<p>Funds for technical resources needed</p> <p>Potential funds for initial incentives to obtain new users</p>	<p><b>August 2022 Update:</b> This item has been marked red as it has been <u>on hold</u>. While progress has been made on 1.1 in the form of increasing capacity for BMP Verification, Franklin County still feels a need for more capacity related to database management. It would be beneficial to our county to have at least one full time position dedicated to management of ALL project data in one central database for all county partners. The concept exists and is developed, but capacity to implement prevents further progress.</p> <p><b>August 2021 Update:</b> Past/Present reporting strategy - FCCD reports BMPs to DEP through use of FieldDoc, PracticeKeeper, and other government permits/programs collected in the BMP Data Warehouse at the state level. This item was reevaluated – new goals regarding this item described in columns to the left.</p>	<p><b>(Existing item altered/added to during 2021 two-year milestone update.)</b></p> <p><b>August 2021:</b> This item was originally a broad idea. Item has been updated to reflect opportunities that now exist and can be utilized to move forward in 2022-2023 with tangible and identified partners, targets, resources available, and resources still needed.</p>
-----	--	---	---	------------	-----------	---	---	---	--	---	--	---

<p><b>1.3.a</b></p>	<p><b>Capacity Building – Workforce (BMP Data Collection &amp; Verification)</b></p> <ul style="list-style-type: none"> <li>Establish program with staff dedicated to full time BMP data collection and verification.</li> <li>Use technology such as GIS analysis, aerial imagery, and remote sensing to determine unreported BMPs.</li> <li>Implement a survey process for capturing current agricultural best management practices that are unreported as part of the data collection method.</li> <li>Engage a team of BMP experts from applicable sectors to verify BMPs through site visits coinciding with on-site BMP survey.</li> </ul>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li>Pilot program of Tier 1/2 CAP Pilot Counties with partnering organization who will house &amp; administer BMP Data Collection program and associated staff/equipment</li> <li>Expand survey to cover other CAP counties in partner region</li> <li>Deliverables needed from Technical Assistance partners:             <ol style="list-style-type: none"> <li>Additional potential partners &amp; stakeholders</li> <li>Framework &amp; organizational structure</li> <li>Roles &amp; responsibilities</li> <li>Draft agreements and contracts</li> <li>Draft job announcement templates</li> </ol> </li> </ul>	<p><b>Potential Partners</b></p> <p><b>For Program &amp; Survey Creation:</b></p> <ul style="list-style-type: none"> <li>DEP</li> <li>UMD EFC</li> <li>Capital RC&amp;D</li> <li>Penn State Extension</li> </ul> <p><b>For Spatial Analysis &amp; Reporting:</b></p> <ul style="list-style-type: none"> <li>Contracted consultants</li> <li>Universities</li> <li>CLUS</li> </ul> <p><b>For On-site Collection &amp; Verification:</b></p> <ul style="list-style-type: none"> <li>Retired BMP professionals (both AG/SW)</li> <li>4R Alliance</li> <li>The Nature Conservancy</li> <li>Penn State Extension</li> <li>Farm Bureau</li> <li>Contracted consultants</li> <li>FFA</li> <li>4H</li> </ul> <p><b>For Education &amp; Outreach</b></p> <ul style="list-style-type: none"> <li>SMP</li> <li>Partners listed above</li> </ul>	<ul style="list-style-type: none"> <li>Regional program</li> <li>Begin with Tier 1/2 Pilot Counties</li> <li>Expand to full Capital RC&amp;D Region</li> </ul>	<ul style="list-style-type: none"> <li>Establish pilot program &amp; structure – 2022</li> <li>Begin spatial analysis – 2022</li> <li>Begin on-site surveying &amp; verification 2022-2023</li> <li>Reporting – Continuous (Coinciding with survey &amp; verification timeline)</li> </ul>	<ul style="list-style-type: none"> <li>Participation</li> <li>Resources &amp; funding</li> <li>Appropriate staff</li> <li>Seasonality for BMPs involving vegetation</li> <li>IRB standards &amp; acceptance by CAST model</li> <li>Coordination between agencies</li> <li>Right-to-know</li> </ul>	<p>Existing partnerships</p> <p>Existing survey sufficient for BMP verification standards (PSU)</p> <p>Partner with the capacity to administer the program and “house” the staff</p>	<p>TBD – Currently None</p>	<p>Technical assistance (EFC or other partner) for program framework &amp; organizational details</p> <p>Data collection staff access to Practice Keeper and FieldDoc for reporting</p> <p>Up-to-date aerial imagery</p> <p>Technology &amp; software for spatial analysis and reporting</p> <p>Sufficient staffing</p> <p>Data/Info sharing cooperation agreements (Release of records forms for landowners utilizing other agency programs with confidentiality restrictions)</p>	<p>TBD – Flexible &amp; sufficient funding</p>	<p><b>August 2022 Update:</b></p> <p>FCCD was awarded the BMP Verification pilot program funding through the CBO for a total of \$30,000. FCCD decided to pilot a new BMP Verification program with the funding in partnership with Capital RC&amp;D (CRCD). CRCD hired two part-time, retired agriculture professionals/farmers for FCCD to contract for a “Boots on the Ground” verification effort. One of our two contracted BMP Verification Specialists (BVS) has been working with local farmers since January 2022 (the second hire since May 2022) to locate existing, unrecorded BMPs for verification and addition to PK and expired, still-functional BMPs for reverification and addition to PK. To date, the program has led to:</p> <ul style="list-style-type: none"> <li>32 on-site farm visits</li> <li>142 BMPs verified of only 59 anticipated across the 32 farms</li> <li>12 new future BMP implementation opportunities which have been referred to FCCD staff</li> <li>Approx. 2,300 new acres of Ag E&amp;S plans added to PK</li> <li>Approx. 357 BMP instances added to the BMP Module in PK</li> </ul> <p>Next steps for this program:</p> <ul style="list-style-type: none"> <li>Finish out pilot program (spend remaining funds of the \$30,000 allotment) and assess results of program from start to finish</li> <li>Lessons learned/changes to make in the future</li> <li>Await award announcements from other funding programs to determine future funding available for future of BMP Verification efforts in FCo</li> <li>Deploy improved, larger scale pilot of BMP Verification program based on lessons learned in first pilot.</li> </ul>	<p><b>(Existing item altered/added to during 2021 two-year milestone update.)</b></p> <p><b>August 2021:</b> This item was originally (1.3) a broad idea only regarding a survey pilot. Item has been updated (1.3.a) to reflect a more holistic approach, using newly identified opportunities that can be utilized to move forward in 2022-2023 with tangible and identified partners, targets, resources available, and resources still needed.</p>
---------------------	--	--	--	--	--	--	--	-----------------------------	---	--	--	--

											<p><b>August 2021 Update:</b> Conversations have begun with surveying partners (PSU Extension &amp; Capital RC&amp;D) in combination with local landowners to determine a more inclusive survey &amp; verification process, that would limit the number of surveys landowners need to complete.</p>	
--	--	--	--	--	--	--	--	--	--	--	---	--

1.3.b	<p><b>Capacity Building – Funding Solutions</b></p> <p><i>Evaluate options to leverage private sector funding.</i></p>	<p><b><u>Potential Targets</u></b></p> <ul style="list-style-type: none"> <li>• <b>Perform (or contract) study to leverage private sector funding.</b></li> <li>• <b>Deliverables needed from Technical Assistance Partners:</b> <ol style="list-style-type: none"> <li>1. <b>Additional potential partners &amp; stakeholders</b></li> <li>2. <b>Framework &amp; organizational structure</b></li> <li>3. <b>Roles &amp; responsibilities</b></li> <li>4. <b>Draft agreements and contracts</b></li> </ol> </li> </ul>	<p><b><u>Potential Partners</u></b></p> <ul style="list-style-type: none"> <li>• UMD EFC</li> <li>• Franklin Co. Community Foundation</li> <li>• Franklin Co. Visitors Bureau</li> <li>• Local Chambers of Commerce</li> <li>• Rotary Clubs</li> <li>• Lions Clubs</li> <li>• Owls Clubs</li> <li>• Kiwanis</li> <li>• Girl &amp; Boy Scouts of America</li> </ul>	Compare County vs. Regional	<ul style="list-style-type: none"> <li>• <b>Perform study – 2022</b></li> <li>• <b>Stakeholder meetings regarding study results - 2022</b></li> <li>• <b>Implement study recommendation beginning 2023</b></li> </ul>	<ul style="list-style-type: none"> <li>• Cash flow &amp; fundraising</li> <li>• Participation &amp; contributions</li> <li>• Outreach &amp; awareness of need for funding</li> <li>• Administration &amp; legal</li> </ul>	Existing partnerships  Experts to perform study	TBD – Currently None	Experts to perform study	Capital and reliable, consistent cash flow	<p><b>August 2022 Update:</b> Clean Water for Franklin County (CWFC) has been working with various partners over the last year to examine existing models and create new solutions to leverage private funding for more efficient clean water progress. CBO approved contracted service expenditure for FCCD to work with the University of Maryland on this financial research and solutions.</p> <p>CWFC has worked with stakeholders and subcommittees to choose a preferred model/organization structure and create an organization in alignment with those goals which possess the ability to work with corporate and private donations as well as apply to grants only available to non-profit organizations.</p> <p>Currently CWFC is in the process of securing a fiscal sponsor to secure nonprofit status for the new organization and begin private fundraising for clean water progress.</p> <p><b>August 2021 Update:</b> New item added during 2021 two-year milestone update.</p>	<p><b>August 2021:</b> This new item was added to describe both the opportunities and challenges that exist regarding private funding to fill existing funding gaps as we proceed in 2022-2023.</p>
1.3.c	<p><b>Capacity Building – Funding Solutions</b></p> <p><i>Explore mitigation banking in Southcentral PA (Potomac Rivershed).</i></p>	<p><b><u>Potential Targets</u></b></p> <ul style="list-style-type: none"> <li>• Establish connections with needed partners</li> <li>• <b>Information needed to inform decisions regarding mitigation banking in Southcentral PA</b></li> </ul>	<p><b><u>Potential Partners</u></b></p> <ul style="list-style-type: none"> <li>• DCNR</li> <li>• DEP</li> <li>• NRCS</li> <li>• EPA</li> <li>• USFWS</li> <li>• USACOE</li> <li>• PAFBC</li> <li>• PA Game Commission</li> <li>• Private sector mitigation professionals</li> </ul>	Southcentral Pennsylvania (Potomac Rivershed)	2023	<ul style="list-style-type: none"> <li>• Interagency</li> <li>• Timeline</li> <li>• Is there direct benefit to County for scaling up CAP effort? (i.e. Increased funding opportunities)</li> </ul>	Existing models & examples of other stream mitigation bank systems  Existing contact & partnership with consultants experienced in this topic  Potential sites in Franklin Co. to implement a mitigation bank site	TBD – Currently None	Technical assistance & consultation from mitigation bank experts	TBD – Flexible & sufficient funding	<p><b>August 2022 Update:</b> This item has been explored, but minimally discussed. Due to capacity limitations, 1.3.b funding solution has been prioritized, though we still have interest in 1.3.c in the future.</p> <p><b>August 2021 Update:</b> New item added during 2021 two-year milestone update.</p>	<p><b>August 2021:</b> This new item was added to describe both the opportunities and challenges that exist regarding private funding to fill existing funding gaps as we proceed in 2022-2023.</p> <p>We are exploring mitigation banking as a funding solution due to its source of funds – private sector. Private sector funds open up doors to additional funding we aren't as easily able to access for project implementation or even as source of match.</p>

1.4*	<p><b>Municipal sector –</b></p> <ul style="list-style-type: none"> <li>Establish a coordinated approach to stormwater management planning on the watershed or county level (Act 167).</li> <li>Create a systematic process and <b>database for inventorying stormwater management practices and facilities in MS4 and non-MS4 municipalities which could be stored in central county database.</b> (Portion of Item coincides with 1.2)</li> </ul>	<p><b><u>Potential Targets</u></b></p> <ul style="list-style-type: none"> <li>Evaluation of stormwater management rules and regulation at state, county and local level - examine existing inventory and database systems in municipalities operating under MS4 Permits</li> <li>Receive cost estimates for countywide inventory</li> <li>Capture unreported BMPs on the ground for import into central database</li> </ul>	<p><b><u>Potential Partners</u></b></p> <ul style="list-style-type: none"> <li>Multi-municipal coordinating structure</li> <li>Look at possibility of utilizing COG structure or another forum</li> </ul>	Countywide	Ongoing	<ul style="list-style-type: none"> <li>Stormwater planning best at a watershed (or higher) level</li> <li>Coordination between local governments, disagreement on structure</li> <li>Identifying “owner” of multi-municipal data (lead entity)</li> <li>How will financial responsibility and authority of structure be defined</li> </ul>	<p>COG (not a technical resource per se, but an existing multi-municipal group)</p> <p>Potentially – UMD Environmental Finance Center</p> <p>Other county models of multi-municipal MS4 structures</p>	<p>Potentially - Technical Assistance grants</p> <p>No other financial resources available</p>	<p>Technical assistance to develop consistent structure</p> <p>Personnel dedicated to managing and troubleshooting new structure (stormwater coordinator and technical assistance)</p> <p>Written guidance, contracts, and agreements regarding new multimunicipal structure</p>	<p>Funds for technical resources needed, structure development, and staffing</p>	<p><b>August 2022 Update:</b> This item remains <b>on hold</b>. A portion of this item relates to item 1.2 and will be addressed as an additional item to 1.2. Conversations will resume when a central county database is better established. There are also logistics to be discussed on multi-municipal coordination to plan/manage stormwater at a watershed or county level.</p> <p><b>August 2021 Update:</b> We changed this item to red as it has been <b>on hold</b>. A portion of this item relates to item 1.2 and will be addressed as an additional item to 1.2. Conversations will resume when a central county database is better established. There are also logistics to be discussed on multi-municipal coordination to plan/manage stormwater at a watershed or county level.</p>	<p><b>(Existing item altered/added to during 2021 two-year milestone update.)</b></p> <p><b>August 2021:</b> No action changes to this item – only formatting/rewording edits or updates to potential resources that may now be available to our county through 2022-2023 that were not identified in the original plan.</p>
1.5	<p><b>Municipal sector –</b></p> <p>Evaluate feasibility of multimunicipal stormwater entity to implement stormwater management practices on a regional scale.</p>	<p><b><u>Potential Targets</u></b></p> <ul style="list-style-type: none"> <li><b>Coordinate meeting to assess interest and establish guidelines</b></li> <li><b>Research collaborative models from other counties</b></li> <li>Develop guidelines for implementation and ordinances for adoption</li> </ul>	<p>TBD – municipalities and funding structure will first need to be determined</p>	Open to countywide participation	Initial meeting to Discuss – 2022	<ul style="list-style-type: none"> <li>Coordination between local governments, disagreement on structure</li> <li>Identifying “owner” of multi-municipal data (lead entity)</li> <li>Roles and responsibilities of program administration</li> </ul>	<p>COG (not a technical resource per se, but an existing multi-municipal group)</p> <p>Potentially – UMD EFC</p> <p>Other county models of multi-municipal MS4 structures</p>	<p>Potentially - Technical Assistance grants</p> <p>No other financial resources available</p>	<p>Technical assistance to develop consistent structure</p> <p>Personnel dedicated to managing new structure (stormwater coordinator)</p> <p>Written guidance, contracts, and agreements regarding new multimunicipal structure</p>	<p>Funds for technical resources needed, structure development, and staffing</p>	<p><b>August 2022 Update:</b> FCCD/CWFC worked with consultants to hold a regional partner stakeholder meeting about watershed-scale project planning in FCo. Many regional and municipal partners attended, and a list of mutually-beneficial projects was created. While we still have not created a multi-municipal stormwater entity, though we still hope to, we are very pleased with the trajectory of this new watershed planning effort and new partners as a result. We anticipate many of these projects will showcase the benefits of this collaborative method in the coming years.</p> <p>Additionally, we have been working with DEP’s TMDL office to develop an ARP for another watershed planning approach in Franklin County and plan to compare/contrast the various watershed planning approaches.</p>	<p><b>(Existing item altered during 2021 two-year milestone update.)</b></p> <p><b>August 2021:</b> No action changes to this item – only formatting/rewording edits or updates to potential resources that may now be available through 2022-2023 to our county that were not identified in the original plan.</p>

											<p><b>August 2021 Update:</b> We changed this item to yellow as it has been <u>on hold</u>. Before placing on hold, other counties' collaborative models were researched. With COVID-19 over the past year, municipalities have had many pressing topics to discuss. There are logistics to be discussed on multi-municipal coordination to plan/manage stormwater at a watershed or county level before actions can be taken to move forward. Coordinator has begun creating relationships with the municipalities, and will resume this item when the municipalities can meet to discuss this topic.</p>	
--	--	--	--	--	--	--	--	--	--	--	--	--

<p><b>1.6.a</b></p>	<p><b>Data Collection and Prioritization –</b></p> <p>Assess current state of water quality in local water. Use data to better prioritize watersheds and make larger-scale project decisions.</p> <p><b>ACTION OPTIONS:</b></p> <p>1. Install USGS 15-minute nitrate sensing monitors through partnership program at the county level, organized by the state to cover all Chesapeake Bay counties.</p> <p>2. Install USGS 15-minute nitrate-sensing monitors through partnership program at the regional, county, or local level, organized by the applicable regional partner, counties, or municipalities.</p>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li>Approved criteria for data collection method &amp; parameters</li> <li>Written contract outlining data acceptance into CAST (given that approved method is applied)</li> <li># of participants in meetings regarding data collection</li> <li># of entities or individuals who agree to participate or “pledge” to contribute</li> </ul>	<p><b>Potential Partners</b></p> <p>For option 1.</p> <ul style="list-style-type: none"> <li>State DEP</li> <li>Federal EPA or CAST Data Input Team</li> <li>County</li> <li>FCCD</li> <li>USGS</li> </ul> <p>For option 2.</p> <ul style="list-style-type: none"> <li>State DEP</li> <li>Federal EPA or CAST Data Input Team</li> <li><b>County</b></li> <li><b>FCCD</b></li> <li><b>Municipalities</b></li> <li><b>USGS</b></li> <li>Ches. Bay Groups</li> <li>PSU Extension</li> </ul>	<p>For option 1.</p> <ul style="list-style-type: none"> <li>Statewide effort (installing monitors only where data is lacking)</li> </ul> <p>For option 2.</p> <ul style="list-style-type: none"> <li>Regional, County, or Local level</li> </ul>	<ul style="list-style-type: none"> <li>Effort coordinated – 2022</li> <li>Effort funded &amp; begin collection - 2023</li> </ul>	<ul style="list-style-type: none"> <li>Funding</li> <li>Ensuring that data is accepted by &amp; will be used in future CAST models</li> <li>Education &amp; outreach regarding collection process and effort</li> </ul>	<p>Existing models to aid decision making – proven system in other states (using YSI monitoring technology)</p> <p>Existing, successful USGS partnerships with other county entities</p> <p>USGS technical assistance &amp; equipment maintenance (using partnership program)</p>	<p>Potential local entity funding</p> <p>USGS cost-share contribution</p>	<p>Tier 1 status data</p> <p>Accredited lab to test data</p> <p>Official DEP training to ensure data collection is Tier 1 status</p> <p>Signed &amp; approved DEP/EPA Quality Assurance Plan</p> <p>Monitors</p>	<p>Sufficient funds needed for installation, collection effort &amp; maintenance</p>	<p><b>August 2022 Update:</b> Conversations with necessary partners continue. Locations and game plan have been chosen for at least 2 monitoring stations. Progress remains halted by lack of funds to install/implement monitors. Funding that allows equipment and partnership maintenance as an expense would allow forward motion on this item.</p> <p><b>August 2021 Update:</b> New item added during 2021 two-year milestone update.</p> <p><b>NOTE:</b> To begin this process, Franklin County had observed water quality study performed by the International Commission of the Potomac River Basin (ICPRB). This study was performed due to a large request of “observed” water quality data. Results of study revealed that while at one time, much water quality data was being collected, that it is neither recent nor consistent.</p>	<p><b>August 2021:</b> This is a new item added to address the results of the study that the county had performed in 2020 (see NOTE in the Annual Progress column). Due to the results of this study, Franklin Co. researched various methods of collecting data, and stakeholders came to the conclusion of a proposed 2-part system. This 2-part system would allow capture of an overall picture, with <b>1.6.a</b> USGS stations, collecting “bigger picture” data (82.5% of county acreage and county streams, including 75% of county impaired streams) to prioritize watersheds based on more current data. <b>1.6.b</b> volunteer monitoring, will be used to pinpoint high loading areas in those watersheds to help prioritize BMP implementation.</p>
---------------------	---	---	---	--	--	---	---	---	--	--	--	--

<p><b>1.6.b</b></p>	<p><b>Data Collection and Prioritization –</b></p> <p>Use analysis and large-scale data to better prioritize local data collection within prioritized watersheds for prioritizing BMP implementation.</p>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li>• Approved criteria for data collection method &amp; parameters</li> <li>• Written contract outlining data acceptance into CAST (given that approved method is applied)</li> <li>• # of participants in meetings regarding data collection</li> <li>• # of monitors or test sites</li> <li>• # of individuals who join the group leading local collection effort - PSU Master Watershed Stewards (MWS) Program</li> <li>• # of volunteers</li> </ul>	<p><b>Potential Partners</b></p> <ul style="list-style-type: none"> <li>• <b>Local Colleges &amp; Universities</b></li> <li>• <b>PSU MWS</b></li> <li>• <b>SMP</b></li> <li>• <b>Watershed Associations</b></li> <li>• <b>ALLARM</b></li> <li>• State DEP</li> <li>• Federal EPA or CAST Data Input Team</li> <li>• County</li> <li>• <b>FCCD</b></li> <li>• <b>USGS</b></li> </ul>	<p>Countywide, testing where need is determined based on <b>1.6.a</b></p>	<ul style="list-style-type: none"> <li>• Effort coordinated – 2022</li> <li>• Effort funded &amp; begin collection - 2023</li> </ul>	<ul style="list-style-type: none"> <li>• Funding</li> <li>• Ensuring that data is accepted by &amp; will be used in future CAST models</li> <li>• Education &amp; outreach regarding collection process and effort</li> <li>• Private landowner permission for local collection sites</li> <li>• Maintenance of equipment and data for local effort</li> </ul>	<p>Existing partnerships</p>	<p>None</p>	<p>Tier 1 status data</p> <p>Accredited lab to test data</p> <p>Official DEP training to ensure data collection is Tier 1 status</p> <p>Signed &amp; approved DEP/EPA Quality Assurance Plan</p>	<p>Sufficient funds needed for collection effort &amp; maintenance</p>	<p><b>August 2022 Update:</b> Conversations with necessary partners continue. Partners have been identified and some discussions have taken place. We have marked this item yellow because progress remains halted by lack of funds and workforce to implement a large-scale manual monitoring program. Funding that allows equipment and partnership maintenance as an expense would allow forward motion on this item.</p> <p><b>August 2021 Update:</b> New item added during 2021 two-year milestone update.</p> <p><b>NOTE:</b> To begin this process, Franklin County had observed water quality study performed by the International Commission of the Potomac River Basin (ICPRB). This study was performed due to a large request of “observed” water quality data. Results of study revealed that while at one time, much water quality data was being collected, that it is neither recent nor consistent.</p>	<p><b>August 2021:</b> This is a new item added to address the results that the county had performed in 2020 (see NOTE in the Annual Progress column). Due to the results of this study, Franklin Co. researched various methods of collecting data, and stakeholders came to the conclusion of a proposed 2-part system. This 2-part system would allow capture of an overall picture, with <b>1.6.a</b> USGS stations, collecting “bigger picture” data (82.5% of county acreage and county streams, including 75% of county impaired streams) to prioritize watersheds based on more current data. <b>1.6.b</b> volunteer monitoring, will be used to pinpoint high loading areas in those watersheds to help prioritize BMP implementation.</p>

## Franklin County Clean Water Plan - Progress and Milestones

**Green** - action has been completed or is moving forward as planned    **Yellow** - action has encountered minor obstacles    **Red** - action has not been taken or has encountered a serious barrier

Action #	Description	Performance Target(s)	Responsible Party(ies) and Partnerships	Geographic Location	Expected Timeline	Potential Implementation Challenges or Recommendations	Resources Available		Resources Needed		Annual Progress to Date (2020 + 2021) <small>*add new 2021 progress above the existing 2020 progress. Date each entry</small>	Reason for Change to Action Item (2022-2023 milestone period)
							Technical	Financial	Technical	Financial		
<b>Priority Initiative 2: Nutrient Reduction Goals &amp; BMP Implementation</b>												
2.1	<b>Best Management Practices –</b>  Establish a set of BMPs that will achieve required nutrient load reductions in an efficient and cost-effective manner  (see BMP targets)	<u>Potential Targets that may be feasible to achieve by 2025</u>  • Identify BMPs that may be feasible to achieve by 2025  • Stay up to date on progress using: 1. CAST credited reports 2. PK reports 3. FieldDoc reports	<u>Potential Partners</u>  • FCCD • FCPC  • Local municipalities  • DEP • EPA  • SRBC/CAST team  • Local stakeholders & organizations	Countywide	• <b>Targets determined 2019</b>  • <b>Targets reevaluated in 2021</b>  • <b>Implementation by 2025</b>	• Considerable resource limitations on municipal and private enterprise levels to collect data  • Complex regulations prevent ready access to data  • Cost of incentives for BMP adoption  • Funding & permitting roadblocks  • Timeline  • Participation	Existing partnerships	Grant & funding programs	Trained engineering & technical staff to oversee, design, install and maintain BMP initiatives  Staff to educate, coordinate and implement	Sufficient funds needed to implement BMPs  Maintenance, inspections & re-verification  Initial 2019 estimate \$15,000,000 for Ag BMPs with possible another \$10,000,000 for additional waste management  Initial 2019 estimate \$4,500,000 for municipal sector BMPs	<b>August 2022 Update:</b> FCCD continues to be a key player in new BMP Implementation while the BMP Verification Partnership works to submit for continued credit of existing, creditable practices. Please see attached BMP Chart for Estimated Progress.  <b>August 2021 Update:</b> FCCD, a CWFC Partner, has continued with their proactive approach and have been very successful with matching landowners to funding over the last year. The list of BMP goals, created in 2019, has been distributed all throughout the county, creating project lists of landowners for these BMPs. Other entities have also pursued their own funding avenues for projects that fall within the scope of our BMP goals. \n “on hold” (due to funding). FCCD was successful in securing significant funding in 2020 to complete as many of these projects as possible in 2021. FCCD continues to strive for “a steady stream of funds” moving forward.	<b>(Existing item altered/added to during 2021 two-year milestone update.)</b>  <b>August 2021:</b> No action changes to this item – only formatting/re-wording edits or updates to potential targets, challenges, or resources that are now identified as we proceed through 2022-2023 that were not in the original plan.

2.2*	<p><b>BMP Programs &amp; Policies –</b></p> <ul style="list-style-type: none"> <li>• <b>Evaluate current system of incentives &amp; penalties</b> for BMPs and define enhanced incentive program for BMPs with greatest impact on nutrient loads to get landowner buy in.</li> <li>• Revise model ordinances to reflect current pollution reduction targets and BMPs.</li> <li>• Develop incentive programs for voluntary adoption of BMPs in developed areas and consider an offset program for implementation of high-impact BMPs in agricultural areas.</li> </ul>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li>• <b>Review overall impact of existing programs &amp; evaluate feedback</b></li> <li>• <b>Stakeholder meetings with locals about programs they would benefit from</b></li> <li>• Consult with communities, particularly those under MS4 regulations, to develop model ordinances that address nutrient, sediment, and stormwater management</li> <li>• Expand “Be the Solution” series and stakeholder meetings to broaden understanding of ordinance needs and the application of BMPs</li> </ul>	<p><b>Potential Partners</b></p> <ul style="list-style-type: none"> <li>• EPA</li> <li>• DEP</li> <li>• USDA</li> <li>• FCPC</li> <li>• FCCD</li> <li>• PSU Extension</li> <li>• SMP</li> <li>• Farm Bureau</li> <li>• Municipalities</li> <li>• Other local partners &amp; stakeholders</li> </ul>	Compare County vs. Regional	<ul style="list-style-type: none"> <li>• Partnership connection &amp; research – 2022</li> <li>• Draft incentive program structure - 2022</li> <li>• Development and distribution of ordinances for comment and/or adoption – 2023</li> </ul>	<ul style="list-style-type: none"> <li>• Program participation</li> <li>• Ordinance adoption &amp; resident resistance</li> <li>• BMP post-installation maintenance</li> <li>• Start-up costs for new practices</li> <li>• Funding eligibility</li> <li>• Inter-agency</li> </ul>	Existing partnerships  Existing models  Multi-municipal group (COG)	TBD	Technical assistance to develop new ordinances and framework for new programs  Staffing  Program administration	TBD – Flexible & sufficient funding	<p><b>August 2022 Update:</b> 1 Franklin County municipality continues to implement their Stormwater Utility fee and has even updated their program to be more effective for stakeholders. No other progress to report regarding incentivizing BMP Implementation or penalizing lack-there-of. Franklin County has had no shortage of clean water projects to implement and has therefore determined this item to be lower priority than other items in the plan. Encouragement in the form of technical assistance has been enough incentive for partners to move forward with projects to date. Additional incentives would encourage even more progress.</p> <p><b>August 2021 Update:</b> Since the 2020 update, the current system of incentives has been evaluated by groups of stakeholders. We have been discussing programs that other counties facilitate that may work in Franklin County as well. This item is still in the exploration phase, but we have gathered the overall needs into 4 groups, described in the sub-items below (2.2a-d).</p>	<p><b>(Existing 2019 Plan items 2.2 &amp; 2.7 combined/alterd during 2021 two-year milestone update.)</b></p> <p><b>August 2021:</b> This item existed in the previous version of the plan <b>(and is a combination of former items 2.2 and 2.7)</b>. Targets, partners, challenges, and resources have been reevaluated and identified to assist with implementation through 2022-2023. An additional action item was added to the description to expand potential opportunities surrounding the original item phrase, “evaluate current system of incentives...” regarding “BMP Programs &amp; Policies”.</p>
------	---	---	---	-----------------------------	---	---	---	-----	---	-------------------------------------	---	---

<p><b>2.2.a</b></p>	<p><b>BMP Incentive &amp; Assistance Programs – Developed/MS4</b></p> <ul style="list-style-type: none"> <li>BMP incentive for MS4 communities. Incentives such as tax credits or impervious fee discounts for developers, organizations, commercial sector, etc. willing to implement BMPs additional to those required by stormwater protection plans.</li> <li>Incentivize land &amp; business owners at county level to report non-reported BMPs.</li> </ul>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li># of stakeholder meetings and interest</li> <li>Draft written program outline</li> <li># of municipalities participating</li> </ul>	<p><b>Potential Partners</b></p> <ul style="list-style-type: none"> <li>County</li> <li>COG &amp; Municipal Leaders</li> <li>Funders</li> <li>Capital RC&amp;D</li> <li>SMP</li> </ul>	<p>Compare County vs. Municipal</p>	<ul style="list-style-type: none"> <li>Partnership connection &amp; research – 2022</li> <li>Draft program structure - 2023</li> </ul>	<ul style="list-style-type: none"> <li>Bidding requirements for implementation</li> <li>On-site land availability</li> <li>Funding eligibility</li> <li>Inter-agency</li> </ul>	<p>Existing local fee structures</p>	<p>Potential local entity funding</p>	<p>Program structure (contracts &amp; agreements)</p> <p>Technical Assistance (consultants)</p> <p>Fee structure assistance for some municipalities</p>	<p>Flexible &amp; sufficient funding</p>	<p><b>August 2022 Update:</b> Franklin County has had no shortage of clean water projects to implement and has therefore determined this item to be lower priority than other items in the plan. Encouragement in the form of technical assistance has been enough incentive for partners to move forward with projects to date. Additional incentives would encourage even more progress.</p> <p><b>August 2021 Update:</b> New item added during 2021 two-year milestone update.</p> <p><b>NOTE:</b> Identified need to incentivize new construction projects to implement BMPs additional to those required. Could potentially model this program off of an existing tax credit program or fee structure discount program. Could be implemented at local level using local ordinances (fee &amp; discount structure).</p>	<p><b>August 2021:</b> This is a new item added as a sub-item of the existing 2.2. We decided to identify opportunities regarding BMP Programs and Policies in 4 categories with targets, partners, challenges, and resources identified for each “BMP group”.</p> <p>This specific sub-group was added to look further throughout 2022-2023 at ways to encourage the developed sector and MS4 areas to implement more than what is required of them.</p>
<p><b>2.2.b</b></p>	<p><b>BMP Incentive &amp; Assistance Programs – Advanced Nutrient Management</b></p> <p>Advanced nutrient management BMP program at county level that includes incentive or cost-share for plan development, pre-sidedress nitrogen testing (PSNT), and other nutrient management planning technologies.</p>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li># of plans on current waitlists</li> <li>Organizational structure &amp; framework</li> <li>Draft written program outline</li> <li># of stakeholder meetings and interest</li> <li># of acres reported and/or N reduced</li> <li># of attendees at outreach event</li> </ul>	<p><b>Potential Partners</b></p> <ul style="list-style-type: none"> <li>FCCD</li> <li>PSU Extension</li> <li>SMP</li> <li>Capital RC&amp;D</li> <li>Industry Professionals</li> <li>4R</li> <li>Stroud Water Research</li> <li>CBF</li> <li>Farm Bureau</li> </ul>	<p>Compare County vs. Regional</p>	<ul style="list-style-type: none"> <li>Partnership connection &amp; research – 2022</li> <li>Draft program structure - 2023</li> </ul>	<ul style="list-style-type: none"> <li>Weed management</li> <li>Funding eligibility</li> <li>Convenient and cost-effective for landowner</li> <li>Administration capacity for soil testing</li> </ul>	<p>Green seeker technology at PSU Extension</p> <p>Existing models for pre-side dress testing program</p> <p>On-going 4R research</p> <p>Existing partnerships</p>	<p>TBD – Currently None</p>	<p>Staff (workforce capacity)</p>	<p>Flexible &amp; sufficient funding</p>	<p><b>August 2022 Update:</b> Franklin County has had no shortage of clean water projects to implement and has therefore determined this item to be lower priority than other items in the plan. Encouragement in the form of technical assistance has been enough incentive for partners to move forward with projects to date. Additional incentives would encourage even more progress.</p> <p><b>August 2021 Update:</b> New item added during 2021 two-year milestone update.</p> <p><b>NOTE:</b> Identified need to incentive landowners to implement practices that are unconventional to their previous operation management (to try something new) on at least a portion of the operation. Could potentially model this program</p>	<p><b>August 2021:</b> This is a new item added as a sub-item of the existing 2.2. We decided to identify opportunities regarding BMP Programs and Policies in 4 categories with targets, partners, challenges, and resources identified for each “BMP group”.</p> <p>This specific sub-group was added to look further throughout 2022-2023 at ways to assist and encourage the ag community in increasing the rate of implementation of ag BMPs. This sub-item aims to further delve into ways to encourage advanced nutrient management throughout the county.</p>

2.2.c	<p><b>BMP Incentive &amp; Assistance Programs – Ag Erosion &amp; Sediment Control</b></p> <ul style="list-style-type: none"> <li>County level incentive program for cover crops, residue tillage, grassed waterway, and other erosion control BMP implementation for soil protection.</li> <li>Secure long-term funding for FCCD grass buffer program</li> </ul>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li>Organizational structure &amp; framework</li> <li>Draft written program outline</li> <li># of stakeholder meetings and interest</li> <li># of acres reported and/or N reduced</li> <li># of attendees at outreach event</li> </ul>	<p><b>Potential Partners</b></p> <ul style="list-style-type: none"> <li>FCCD</li> <li>PSU Extension</li> <li>SMP</li> <li>Capital RC&amp;D</li> <li>Industry professionals</li> <li>PA No-Till Alliance</li> <li>Stroud Water Research</li> <li>CBF</li> <li>Farm Bureau</li> </ul>	Compare County vs. Regional	<ul style="list-style-type: none"> <li>Partnership connection &amp; research – 2022</li> <li>Draft program structure - 2023</li> </ul>	<ul style="list-style-type: none"> <li>Weed management</li> <li>Funding eligibility</li> <li>Convenient and cost-effective for landowner</li> </ul>	Existing models	TBD – Currently None	Technical Assistance (consultants)  Staff (workforce capacity)	Flexible & sufficient funding	<p><b>August 2022 Update:</b> Franklin County has had no shortage of clean water projects to implement and has therefore determined this item to be lower priority than other items in the plan. Encouragement in the form of technical assistance has been enough incentive for partners to move forward with projects to date. Additional incentives would encourage even more progress.</p> <p><b>August 2021 Update:</b> New item added during 2021 two-year milestone update.</p> <p><b>NOTE:</b> Identified need to incentive landowners to implement practices that are unconventional to their previous operation management (to try something new) on at least a portion of the operation. Could potentially model this program off of FCCD’s streamside grass buffer.</p> <p>Incentive amount would be determined by amount of land enrolled into program.</p>	<p><b>August 2021:</b> This is a new item added as a sub-item of the existing 2.2. We decided to identify opportunities regarding BMP Programs and Policies in 4 categories with targets, partners, challenges, and resources identified for each “BMP group”.</p> <p>This specific sub-group was added to look further throughout 2022-2023 at ways to assist and encourage the ag community in increasing the rate of implementation of ag BMPs. This sub-item aims to further delve into ways to encourage agricultural erosion and sediment control throughout the county, including buffer implementation.</p>
2.2.d	<p><b>BMP Incentive &amp; Assistance Programs – Streamlined Stream Restoration</b></p> <p><i>Explore solutions to the timing roadblock regarding funding/permitting for stream</i></p>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li><b>Establish connections with needed partners</b></li> <li>Information needed to implement solutions for this issue</li> </ul>	<p><b>Potential Partners</b></p> <ul style="list-style-type: none"> <li><b>Conservation Districts</b></li> <li>DEP</li> <li><b>Municipalities</b></li> <li>County</li> </ul>	Statewide (permits involved)	<ul style="list-style-type: none"> <li><b>Partnership connection &amp; research – 2022</b></li> <li><b>Solution discussions 2023</b></li> </ul>	<ul style="list-style-type: none"> <li>Proposing changes to a large, existing system</li> <li>Programmatic and regulatory challenges</li> </ul>	TBD – Currently None	TBD – Currently None	TBD	Flexible & sufficient funding	<p><b>August 2022 Update:</b> CWFC and FCCD have partnered with the Western PA Conservancy (WPC) and PA Fish and Boat Commission (PFBC) to test a new partnership/capacity building initiative that encourages the expansion of a “Streamlined Stream Restoration” process from northern PA to southcentral PA. (As well as a</p>	<p><b>August 2021:</b> This is a new item added as a sub-item of the existing 2.2. We decided to identify opportunities regarding BMP Programs and Policies in 4 categories with targets, partners, challenges, and resources identified for each “BMP group”.</p> <p>This specific sub-group was added to look further throughout 2022-</p>

<p><i>restoration projects.</i></p>		<ul style="list-style-type: none"> <li>• Funders</li> <li>• Private Consultants</li> <li>• USFWS</li> <li>• <b>Trout Unlimited</b></li> <li>• Stroud Water Research</li> <li>• <b>Western PA Conservancy</b></li> <li>• <b>PFBC</b></li> </ul>								<p>similar partnership with Trout Unlimited).</p> <p>This partnership was piloted using CAP funds awarded to FCCD for the restoration of Paddy Run. FCCD entered an agreement with WPC in which FCCD budgeted the award to WPC to coordinate &amp; manage the entire project (including permitting assistance, bid process, material orders, landowner agreements, contractor coordination, create planting plan, complete planting, etc.) which frees up FCCD to continue coordination of more new projects. This project was extremely efficient in use of time, funding (only 50% of budgeted cost), and human resources, and FCCD &amp; CWFC plan to continue this partnership.</p> <p>Currently, the only hold up moving forward is the number of technical service providers (PFBC/Trout Unlimited staff) available to complete projects, limiting FCCD to use of this partnership mechanism for only 2 projects per summer. FCCD currently has a line of at least 10 projects that would be ready to be completed by next summer if there were more PFBC/Trout Unlimited staff to execute them. We hope to see more investment in these types of partnerships from the incoming clean water investments in the coming years.</p> <p><b>August 2021 Update:</b> New item added during 2021 two-year milestone update.</p> <p><b>NOTE:</b> Identified need for a system that expedites permits required for funding application timelines.</p> <p>Identified need for 100% cost-share for restoration projects or more flexible options for eligible</p>	<p>2023 at ways to assist and encourage landowners in increasing the rate at which they restore stream reaches. We continue to have many landowners interested in conservation practice, but sometimes lose interest or move on while they are on hold for funding or a permit.</p>
-------------------------------------	--	--	--	--	--	--	--	--	--	---	---

											match.	
2.3	<p><b>BMP Prioritization –</b></p> <ul style="list-style-type: none"> <li>Identify key watershed areas for installation of BMPs with greatest net effect.</li> <li>Identify key parcels for installation of BMPs with greatest net effect.</li> <li>Define priority areas for riparian buffers.</li> </ul>	<p><b>Potential Targets</b></p> <ul style="list-style-type: none"> <li>GIS mapping &amp; inventory of priority riparian buffer installation areas</li> <li>Identify targeted funding for prioritized installations (ongoing)</li> <li># of landowners reached</li> <li># of watershed group buffer plantings</li> <li>Assessment of existing buffers &amp; maintenance needs</li> <li>Establish stream monitoring to assist in determining priority area and to document impact of installation of BMPs (See items 1.6.a &amp; 1.6.b)</li> </ul>	<p><b>Potential Partners</b></p> <ul style="list-style-type: none"> <li>FCCD</li> <li>FCo. GIS</li> <li>PSU Extension</li> <li>SHIP CLUS</li> <li>CBF</li> <li>TNC</li> <li>Local watershed groups</li> <li>Local municipalities</li> <li>Monitoring will identify priority area and document water quality needs &amp; improvements related to BMP installation - may find additional partner needs (See items 1.6.a &amp; 1.6.b)</li> </ul>	Countywide	<ul style="list-style-type: none"> <li>ID Key watersheds – 2020</li> <li>Buffer opportunity GIS layer – 2020</li> <li>Existing buffer inventory – 2023</li> <li>GIS priority parcel analysis – 2022</li> <li>Begin monitoring BMP effectiveness through water quality monitors – 2023</li> </ul>	<ul style="list-style-type: none"> <li>Land taken out of production for some BMPs</li> <li>Landowner participation &amp; incentive</li> <li>Personnel to conduct parcel prioritization analysis</li> <li>Staff needed to coordinate outreach</li> </ul>	<p>Existing partnerships</p> <p>Buffer opportunity GIS layer (as of 2020)</p> <p>Coordinator (as of 2020)</p> <p>GIS software in-house (as of 2020)</p>	<p>ESRI Conservation Program (for GIS software)</p> <p>Coordinator funding</p>	<p>Personnel dedicated to outreach &amp; coordination efforts</p> <p>Trained staff for data monitoring equipment</p> <p>Time, staff, or contractor funds to dedicate to GIS parcel prioritization analysis</p>	TBD – Flexible & sufficient funding	<p><b>August 2022 Update:</b> FCCD staff and CWFC partners have been working to explore priority watersheds in a “Boots on the Ground” effort to find the most-needed implementation around the county. Now that we have broken into some of these communities with our outreach and word of mouth, we have had an increase in interested from landowners, hoping we will come evaluate their properties as well. We have plans to continue this momentum, and work tirelessly to keep up with the number of projects as a result.</p> <p><b>August 2021 Update:</b> FCCD staff and additional CWFC Partners continue to work with landowners interested in stream related projects to also assess buffer suitability within their riparian zones. Franklin County also recently established the PSU Master Watershed Stewards program who also plan to work with landowners in this capacity. We continue to reference our identified priority watersheds for project and outreach planning for the upcoming year of funding.</p>	<p><b>(Existing item altered/added to during 2021 two-year milestone update.)</b></p> <p><b>August 2021:</b> This item existed in the previous version of the plan. Targets, partners, challenges, timeline, and resources have been reevaluated and identified.</p> <p>Team is working with Ag industry professionals to engage farmers in BMP education and installation through a grant. The purpose of this effort is to equip the professionals to provide large scale outreach to farmers about the Clean Water Plan and BMPs that could improve both their operation and water quality.</p> <p>Partners are also planning future outreach events in these watersheds throughout 2022-2023. Considering partners to perform remaining analysis piece of this item: “Identify key parcels for installation of BMPs with greatest net effect.”</p>

2.4	<b>Program Data Management &amp; Project Planning –</b>  Prepare GIS database of proposed installation of all BMPs in BMP Targets Plan.	<u><b>Potential Targets</b></u> <ul style="list-style-type: none"> <li>Map all existing BMPs and proposed BMPs in project planning software to aid in planning purposes (See item 1.2)</li> <li>Provides ongoing data/benchmark</li> </ul>	<u><b>Potential Partners</b></u> <ul style="list-style-type: none"> <li>FCCD</li> <li>FCo. GIS</li> <li>PSU Extension</li> <li>SHIP CLUS</li> <li>CBF</li> <li>TNC</li> <li>Local watershed groups</li> <li>Local municipalities</li> </ul>	Countywide	2023	<ul style="list-style-type: none"> <li>Inter-agency</li> <li>Right-to-know</li> <li>Database management</li> <li>Participation of community – awareness of ALL BMPs</li> </ul>	Potential software  Personnel to create database & perform BMP placement analysis	TBD – Currently none	Personnel dedicated to database management	TBD – Flexible & sufficient funding	<b>August 2022 Update:</b> Discussions with local universities have occurred on this partnership for this item, but there is no significant update to report on this item. This item has been on the backburner as it is been determined to be lower priority than other initiatives.  <b>August 2021 Update:</b> We are considering working with a local partner to assess Potential BMP Placement. (See <u><b>Potential Partners</b></u> to the left for considerations.)	<b>(Existing item altered/added to during 2021 two-year milestone update.)</b>  <b>August 2021:</b> Item has been updated to reflect opportunities that now exist and can be utilized to move forward in 2022-2023 with tangible and identified partners, targets, resources available, and resources still needed.
2.5*	<b>Commercial &amp; Residential Fertilizer –</b>  Implement an efficient documentation program to track commercial & homeowner nutrient applications on developed land.	<u><b>Potential Targets</b></u> <ul style="list-style-type: none"> <li><b>Provide support for current fertilizer legislation</b></li> <li>Conduct education event for commercial landscape industry and homeowners</li> <li>Identify acreage for urban nutrient management plans</li> </ul>	<u><b>Potential Partners</b></u> <ul style="list-style-type: none"> <li>DEP</li> <li>Landscape industry &amp; organization</li> <li>Non-profits</li> </ul>	Statewide	2020	<ul style="list-style-type: none"> <li>Contingent upon legislation</li> <li>Reliant among industry</li> </ul>	CAST analysis (see notes)  Pass state legislation	TBD – Currently none	TBD	TBD – Flexible & sufficient funding	<b>August 2022 Update:</b> A version of legislation was passed regarding this item. This will remain on hold until the Steering Committee is able to determine next steps based upon approved legislation.  <b>August 2021 Update:</b> No update to this item until legislation is passed.  <b>11/25/2020 Update:</b> See details to the left. This item is dependent upon a bill which has not yet been passed. Therefore, we are not yet able to take any action on this item.  <b>NOTE from 2019 Plan:</b> Commercial and home use of nutrients should be evaluated in the CAST model, more data is needed on what application levels are currently.	<b>(Existing item altered/added to during 2021 two-year milestone update.)</b>  <b>August 2021:</b> No action changes to this item – only formatting/re-wording edits.

<p><b>2.6</b></p>	<p><b>BMP Programs &amp; Policies –</b></p> <p>Evaluate feasibility for establishment of ordinances on a countywide or multimunicipal scale to promote BMPs around stormwater for land use and development plans.</p> <p><i>(relates to items 1.4, 1.5, &amp; 2.2)</i></p>	<p><b><u>Potential Targets</u></b></p> <ul style="list-style-type: none"> <li>• Research model ordinances and “Conservation by Design”</li> <li>• Convene municipal working group to discuss best practices</li> <li>• Draft incentives for establishment of ordinances at municipal level</li> </ul>	<p><b><u>Potential Partners</u></b></p> <ul style="list-style-type: none"> <li>• FCPC</li> <li>• COG (local municipalities)</li> </ul>	<p>Countywide</p>	<p>Contingent upon (as they are an addition to) items <b>1.4, 1.5, &amp; 2.2</b></p>	<ul style="list-style-type: none"> <li>• Contingent upon (as they are an addition to) items <b>1.4, 1.5, &amp; 2.2</b></li> <li>• Inter-agency</li> <li>• Different local priorities</li> </ul>	<p>Existing ordinances to serve as models</p>	<p>TBD</p>	<p>TDB – Flexible &amp; sufficient assistance</p>	<p>TBD – Flexible &amp; sufficient funding</p>	<p><b>August 2022 Update:</b> Conversations continue, but there is no significant update to report on this item at this time. Item has been on hold as it was determined to be lower priority than other initiatives.</p> <p><b>August 2021 Update:</b> Potential countywide incentive options are being discussed with other FCo offices. If countywide incentives prove to be not feasible, municipal level assessment will follow.</p> <p>Consider utilizing tools, such as preservation easements, and include educational goals for residents which attain benefits for reducing fertilizer use or establishing rain gardens, other BMPs.</p>	<p><b>(Existing item altered/added to during 2021 two-year milestone update.)</b></p> <p><b>August 2021:</b> No action changes to this item – only formatting/re-wording edits and one additional potential target identified as we proceed through 2022-2023 that were not in the original plan.</p>
