8263 46	Bellefonte Mennonite School	I	Closed Out
8263 46	Mehoopany Water Company	II	Closed Out
8263 47	Hickory Dickory Day Care Center	I	Active
8263 48	Wells Tannery Water Supply	II	Active
8263 49	Whiskey Run Water Association	I & II	Closed Out
8263 51	Hazel Hurst Water Authority	II	Closed Out
8263 52	Chapman Township Water Authority	III	Closed Out
8263 53	Austin Borough Waterworks	II	Active
8263 54	Knoxville Borough Water/Committee	III	Closed Out
8263 55	Duncan Township Municipal Authority	I	On Hold
8263 56	Robinsonod Village	I & II	Active
8263 57	Colonial Manor Adult Home	I	Active
8263 58	Freeburg Municipal Authority	II	Active
8263 59	George Deard MHP	II	Active
8263 60	Chickadee Borough	II	Active
8263 61	Maple Lane Townhomes	I	Active
8263 62	Hazel Hurst Water Authority	III	Active
8263 63	Mehoopany Twp Municipal Authority	III	Active
8263 64	Madisonburg Water Works	I & II	Active
8263 65	Ulysses Municipal Authority	I	Active
8263 66	Laporte Borough PWS	II	Active
8263 67	Chapman Township Water Authority	II	Active
8263 68	Morea Citizens Water Company	II	Active

The 1996 Amendments to the Federal Safe Drinking Water Act (SDWA) established a requirement for states to develop programs that enhance the technical, financial, and managerial capabilities of small drinking water systems. **alfred benesch & company** was selected by the Pennsylvania Department of Environmental Protection (DEP) as the statewide consultant to implement the Department's Small Drinking Water Systems Engineering Services Program (ESP). Small systems are defined as those serving less than 3,300 people.

The goal of the ESP is to help small systems come into compliance with Pennsylvania's Safe Drinking Water Regulations (Chapter 109). Through the ESP, **alfred benesch & company** provides engineering services to small drinking water systems with public health and safety concerns, such as recurring water shortages, infrastructure deficiencies, inadequate treatment, nitrate contamination, and various other special situations. The ESP and **alfred benesch & company** have provided engineering services to approximately 30 small drinking water systems across the state since the contract began in 1999.

To help DEP administer the project a Microsoft (MS) Access ESP Tracking Database was developed. The database is accessible through the DEP Intranet by all DEP staff in offices throughout the Commonwealth. The database includes information on each project including system background, project status, budget and schedule, action items, and other data to allow DEP employees to stay abreast of ESP activities. The MS Access format allows for unlimited queries and report generation for project tracking and creating status reports for EPA. The database helps DEP staff share the types of solutions being implemented. **alfred benesch & company** maintains the database on a regular basis to keep information current. DEP has developed an ESP website to share information with the general public, as well. The website address is http://www.dep.state.pa.us/dep/deputate/watermgmt/WSM/WSM_DWM/Technol/default.htm.
