

# SAFETY DATASHEET

## Bio Gen Active<sup>®</sup> Scale 130

---

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND COMPANY

---

#### 1.1 Product identifier

BGA Scale 130

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Industrial cleaner

#### 1.3 Details of the supplier of the safety data sheet

Khloros Environmental Solutions, LLC.  
3501 East 31st Street  
Tulsa, OK 74135

#### 1.4 Emergency telephonenumber

24-Hour Emergency Contact number: 918-587-4710

24-Hour Emergency Contact name: Robert Smith

---

### 2. HAZARDS IDENTIFICATION

---

#### 2.1 Classification of the substance or mixture

H319 Causes serious eye irritation

#### 2.2 Label elements

#### Warning

H319 Causes serious eye irritation

P280 Wear eye protection.

P305/351/338/337/313 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. If eye irritation persists get medical advice/attention.

#### 2.3 Other hazards

No other hazards known.

---

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

---

#### 3.2 Mixtures

Substances	Index no	CAS no	EC no	Content	Classification
Citric acid	-	77-92-9	201-069-1	30-50 %	Eye Irrit, 2; H319
Bio Gen Active <sup>®</sup>	-	92129-93-6	295-893-9	15-25 %	-

---

## **4. FIRST AID MEASURES**

---

### **4.1 Description of first aid measures**

In case of skin contact  
Rinse with water.

In case of eye contact  
Rinse with plenty of water. Seek medical advice if irritation persists.

In case of ingestion  
Rinse mouth with plenty of water. If the product has been swallowed drink 1-2 glasses of water or milk. Seek medical advice if irritation persists in mouth or throat.

### **4.2 Most important symptoms and effects both acute and delayed**

Irritating to eyes.

### **4.3 Indication of any immediate medical attention and special treatment needed**

Provide facilities for rinsing eyes.

---

## **5. FIREFIGHTING MEASURES**

---

### **5.1 Extinguishing media**

All normal firefighting agents can be used.

### **5.2 Special hazards arising from the substance or mixture**

The product itself does not form any hazardous substances when heated.

### **5.3 Advice for firefighters**

Wear self-contained breathing apparatus.

---

## **6. ACCIDENTAL RELEASE MEASURES**

---

### **6.1 Personal precautions, protective equipment and emergency procedures**

Safety goggles or face visor are recommended.

### **6.2 Environmental precautions**

Small amounts – Rinse area with water. Large amounts - Neutralize the product with sodium carbonate or other diluted alkali with precaution, then rinse the area with water.

### **6.3 Methods and material for containment and cleaning up**

Neutralize with sodium carbonate or other alkaline substance according to local regulations.

### **6.4 Reference to other sections**

For personal protection see section 8.

For waste treatment see section 13.

---

## **7. HANDLING AND STORAGE**

---

### **7.1 Precautions for safe handling**

Be careful at times when there is risk of eye contact.

## 7.2 Conditions for safe storage, including any incompatibilities

No specific precautions are necessary and there are no known risks with normal storage.

## 7.3 Specific end use(s)

For optimum performance the product should be stirred or homogenized before use. Expiration date for unopened package is 3 years from manufacture date.

---

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

### 8.1 Exposure controls

Eye protection:

Safety goggles when there is risk of eye contact.

Hand protection:

Safety gloves at long-term or repeated skin contact. The material should be nitrile or latex and the thickness at least 0.1 mm.

---

## 9. PHYSICAL AND CHEMICAL PROPERTIES

---

### 9.1 Information on basic physical and chemical properties

Appearance:	Light yellow liquid
Odor:	Slightly sour
Odor control:	no available data
pH:	1.3 ±0.3
Melting point:	32 degrees Fahrenheit
Boiling point:	212 degrees Fahrenheit
Flash point:	not flammable
Evaporation rate:	no available data
Flammability:	not flammable
Upper explosive limits:	not explosive
Lower explosive limits:	not explosive
Vapour pressure:	no available data
Vapour density:	no available data
Specific Gravity:	1.15 ±0.02
Solubility:	Readily soluble in water and alcohol
Partition coefficient:	
n-octanol/water	no available data
Auto-ignition temperature:	N/A
Decomposition temperature:	N/A
Viscosity:	no available data
Explosive properties:	not explosive
Oxidising properties:	not oxidizing

### 9.2 Other information

This safety data sheet carries information connected to safety and does not replace information or specifications of the product.

---

## 10. STABILITY AND REACTIVITY

---

### 10.1 Reactivity

May react with alkaline substances.

continued

## 10.2 Chemical stability

Stable under normal circumstances.

## 10.3 Possibility of hazardous reactions

No dangerous reactions known during conditions of normal use.

## 10.4 Conditions to avoid

None known.

## 10.5 Incompatible materials

May react with alkaline substances.

## 10.6 Hazardous decomposition products

None known.

---

## 11. TOXICOLOGICAL INFORMATION

---

### 11.1 Information on the toxicological effects

Acute toxicity

Citric acid

LD50 Oral rat 5400 mg/kg

LD50 Dermal >2000 mg/kg

Irritation

Irritating to the eyes

Corrosiveness

Not corrosive

Dermal Sensitization

No sensitizing effect known- the product is not expected to cause sensitization

Repeated dose toxicity

No toxic effect known-product is not expected to be toxic

Carcinogenicity

No carcinogenic effect known- the product is not expected to be carcinogenic

Mutagenicity

No mutagenic effect known- the product is not expected to be mutagenic

Toxicity for reproduction

No reproduction toxicity known- the product is not expected to be toxic to reproduction

---

## 12. ECOLOGICAL INFORMATION

---

The product is classified as not hazardous for the environment. This classification is based on content of formulation.

### 12.1 Toxicity

Bio Gen Active®

LC50 96h Fish >1000 mg/l

LC50 48h Daphnia >300 mg/l

EC50 72h Algae >300 mg/l

continued

## **12.2 Persistence and degradability**

All active substances are readily biodegradable according to OECD 301 standard tests.

Bio Gen Active®  
>90 % degraded after 7 days

## **12.3 Bio accumulative potential**

The active substances are not bio accumulative according to OECD 301 standard tests.

## **12.4 Mobility in soil**

Some mobility in soil can be expected.

## **12.5 Results of PBT and vPvB assessment**

The product is not PBT or vPvB.

## **12.6 Other adverse effects**

No other adverse effects are expected.

---

## **13. DISPOSAL CONSIDERATIONS**

---

### **13.1 Waste treatment methods**

The environmental impact resulting from the use of this product depends on the type of cleaning object, dirt/coating and whether the product is used as instructed. Waste must be managed with in accordance with official requirements for the type of waste in question.

The low pH of the product may be neutralized with sodium carbonate or other diluted alkaline in accordance with local regulations.

---

## **14. TRANSPORT INFORMATION**

---

No transport restrictions.

Not classified as dangerous goods according to IMDG, ADR, RID and U.S. Department of Transportation.

---

## **15. REGULATORY INFORMATION**

---

### **15.1 Safety, health and environmental regulations/legislations specific for the substance or mixture**

No further regulations/legislations than those mentioned in this Safety Data Sheet are required for the mixture.

### **15.2 Chemical safety assessment**

A chemical safety assessment is not required for this mixture.

---

## 16. OTHER INFORMATION

---

### Explanation for abbreviations in section 3

H319 Causes serious eye irritation

### Explanation for abbreviations in section 12

PBT Persistent, Bio-accumulating, Toxic

vPvB very Persistent very Bio-accumulating

### Clarification on classification

The mixture is classified according to the containing acid which is classified as H319. Hence, the product is classified as H319, despite a pH below 2.
