

WATER QUALITY MANAGEMENT PERMIT

A. PERMITTEE (Name and Address): CLIENT ID#: 373013		B. PROJECT/FACILITY (Name):	
Beradi Stephanie 921 Northeast Drive Irwin, PA, 15642-1978		Beradi Properties SRSTP	
C. LOCATION (Municipality, County):		SITE ID#: 612056	
Lincoln Borough, Allegheny County			
D. This permit approves the transfer of sewage facilities consisting of:			
<ul style="list-style-type: none">• Multi-compartment 1500-gallon septic tank• RFS III recirculating sand filter• 500-gallon dosing tank with pump• Two 300-ft groundwater infiltration trenches			
Small Flow Sewage Treatment Facility (SFTF):			
Annual Average Flow:	0.0004	MGD	
Design Hydraulic Capacity:	0.0004	MGD	
Design Organic Capacity:	_____	lbs/day	
E. APPROVAL GRANTED BY THIS PERMIT IS SUBJECT TO THE FOLLOWING:			
1. Transfers: Water Quality Management Permit No. 0203405 dated MAY 28, 2004 and conditions, supporting documentation and addendums are also made part of this transfer.			
2. Permit Conditions for SFTFs are attached and made part of this permit.			
3. Special conditions A, B, C are attached and made a part of this permit			
F. THE AUTHORITY GRANTED BY THIS PERMIT IS SUBJECT TO THE FOLLOWING FURTHER QUALIFICATIONS:			
1. If there is a conflict between the application or its supporting documents and amendments and the attached conditions, the attached conditions shall apply.			
2. Failure to comply with the rules and regulations of DEP or with the terms or conditions of this permit shall void the authority given to the permittee by the issuance of this permit.			
3. This permit is issued pursuant to the Clean Streams Law Act of June 22, 1937, P.L. 1987, as amended 35 P.S. §691.1 <i>et seq.</i> Issuance of this permit shall not relieve the permittee of any responsibility under any other law.			
PERMIT ISSUED:		BY:	
<u>December 2, 2022</u>			
		TITLE:	
		Christopher Kriley, P.E. Clean Water Program Manager Southwest Regional Office	

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF CLEAN WATER

PERMIT CONDITIONS FOR SFTFs

General

1. The Department of Environmental Protection (DEP) considers the licensed Professional Engineer whose seal is affixed to the design documents to be fully responsible for the adequacy of all aspects of the facility design.
2. The approval is specifically made contingent on the permittee acquiring all necessary property rights, by easement or otherwise, providing for the satisfactory construction, operation, maintenance and replacement of all sewers or sewerage structures in, along, or across private property with full rights of ingress, egress and regress.
3. If, at any time, the SFTF covered by this permit creates a public nuisance, including but not limited to, causing malodors or causing environmental harm to waters of the Commonwealth, DEP may require the permittee to adopt appropriate remedial measures to abate the nuisance or harm.
4. If, after the issuance of this permit, DEP approves a municipal sewage facilities official plan or an amendment to an official plan under Act 537 (Pennsylvania Sewage Facilities Act, the Act of January 24, 1966, P.L. 1535 as amended) in which sewage from the herein approved facilities will be treated and disposed of at other planned facilities, the permittee shall, upon notification from the municipality or DEP, provide for the conveyance of its sewage to the planned facilities, abandon use and decommission the herein approved facilities including the proper disposal of solids, and notify DEP accordingly. The permittee shall adhere to schedules in the approved official plan, amendments to the plan, or other agreements between the permittee and municipality. This permit shall then, upon notice from DEP, terminate and become null and void and shall be relinquished to DEP.
5. The approval of the plans, and the authority granted in this permit, if not specifically extended, shall cease and be null and void 5 years from the issuance date of this permit unless construction or modification of the facilities covered by this permit has begun on or before the fifth anniversary of the permit date.
6. This permit does not relieve the permittee of any obligations to comply with all federal, interstate, state or local laws, ordinances and regulations applicable to the sewerage facilities.
7. This permit does not give any real or personal property rights or grant any exclusive privileges, nor shall it be construed to grant or confer any right, easement or interest in, on, to, or over any lands which belong to the Commonwealth.
8. The authority granted by this permit is subject to all effluent requirements, monitoring requirements, and other conditions as set forth in the NPDES Permit and all subsequent amendments and renewals. No discharge is authorized from these facilities unless approved by an NPDES Permit.

Construction

9. The SFTF shall be constructed under the supervision of a Pennsylvania licensed Professional Engineer in accordance with the approved reports, plans and specifications. Any deviations from approved plans or specifications so revised should, therefore, be submitted well in advance of any construction work, which will be affected by such changes to the permit to allow sufficient time for review and approval. Structural revisions or other minor changes not affecting capacities, flows or operations will be permitted during construction without approval. Upon request, "as-built drawings" clearly showing such alterations shall be filed with DEP at the completion of the work.
10. When construction of the approved SFTF is completed and before it is placed in operation, the permittee shall notify DEP in writing so that a DEP representative may inspect the facilities. A Pennsylvania licensed Professional Engineer shall certify that construction of the permitted facilities was completed in accordance with the WQM application and design plans submitted to DEP, using the Post Construction Certification form (3800-PM-WSFR0179a). It is the permittee's responsibility to ensure that a Professional Engineer is on-site to provide the necessary oversight and/or inspections to certify the SFTF. The certification must be submitted to DEP within 30 days following completion of the SFTF, along with as-built drawings, photographs (if available), and a description of any DEP approved deviations from the NOI and design plans. The SFTF may not be placed into operation until DEP receives the completed Professional Engineer's certification.
11. The local Waterways Conservation Officer of the Pennsylvania Fish and Boat Commission (PFBC) shall be notified when the construction of any stream crossing and/or outfall is started and completed. A written permit must be secured from the PFBC if the use of explosives in any waterways is required and the permittee shall notify the local Waterways Conservation Officer when explosives are to be used.

Operation and Maintenance

12. The permittee shall maintain SFTF operation and maintenance (O&M) manuals at the facility and ensure proper O&M of the permitted facility. The permittee shall file the O&M manuals with DEP upon request.
13. Stormwater from roofs, foundation drains, basement drains or other sources shall not be admitted directly to the SFTF.
14. The SFTF shall be properly maintained so that the facility will perform as designed.
15. There shall be no physical connection between a public water supply system and a sewer or appurtenance to it which would permit the passage of any sewage or polluted water into the potable water supply. No water pipe shall pass through or come in contact with any part of the SFTF.
16. Collected screenings, slurries, sludge and other solids shall be handled and disposed of in compliance with Title 25 Pa. Code, Chapters 271, 273, 275, 283 and 285 (related to permits and requirements for land filling, land application, incineration and storage of sewage sludge), Federal Regulations (40 CFR Part 257) and the Federal Clean Water Act and its amendments.

SPECIAL CONDITIONS

Water Quality Management Permit No. 0203405 T-1

Beradi SRSTP

- A. The Effluent from the sewage treatment plant must be monitored for CBOD-5, Total Suspended Solids, Ammonia-Nitrogen, and Fecal Coliform at least once a year. Effluent for sample analysis must be collected prior to conveyance to the infiltration trenches. Sample analysis results should be recorded on the provided DMR sheet and be submitted annually to the Department of Environmental Protection (Southwest Region), Water Management, 400 Waterfront Drive, Pittsburgh, PA 15222.
- B. Prior to the disposal of sludge from the herein approved facilities, the permittee shall obtain written approval from the Department for the method of sludge removal.
- C. The depth of sludge and scum in septic tanks and aerobic treatment units shall be measured at least once a year, and the septic tank or aerobic treatment unit must be cleaned whenever the sludge or scum reaches 1/3 the liquid depth of the septic tank or treatment unit. Annual pumping may be substituted for measurement. All septic tanks and aerobic treatment units must be pumped and cleaned at least once every five (5) years, or more frequently as necessary to maintain proper operation (E.g. where the sludge or scum in the tank or unit has reached 1/3 the liquid depth of the tank or unit.), and shall submit copies of pumping records to the Department, when requested. **WASTEWATER TREATMENT TANKS CAN CONTAIN TOXIC GASES WHICH CAN KILL IN A MATTER OF MINUTES. FOR THAT REASON, A HOMEOWNER SHOULD NEVER ENTER A TANK TO PERFORM MEASUREMENTS OR MAINTENANCE.**

**WATER QUALITY MANAGEMENT
 POST CONSTRUCTION CERTIFICATION**

PERMITTEE IDENTIFIER

Permittee	Beradi Stephanie
Municipality	Lincoln Borough
County	Allegheny
WQM Permit No.	<u>0203405 T-1</u>
Facility Type	Sewage

All of the above information should be taken directly from the Water Quality Management Permit.

CERTIFICATION

This certification must be completed and returned to the permits section of the DEP's regional office issuing the WQM permit within 30 days of completion of the project and received by DEP prior to operation, and if requested, as-built drawings, photographs (if available) and a discussion of any DEP-approved deviations from the design plans during construction.

I, being a Registered Professional Engineer in Pennsylvania, do hereby certify to the best of my knowledge and belief, based upon personal observation and interviews, that the above facility approved under the Water Quality Management Permit has been constructed in accordance with the plans, specifications and modifications approved by DEP.
