Re: Joint Permit for Algicide, Herbicide or Fish Control Chemical
Pike County - Wetlands W19b
Permit No. 5219813
Authorization ID No. 1286895
Lackawaxen Township, Pike County

Dear Permittee:

Enclosed is your permit for the use of algicides, herbicides or fish control chemicals (“pesticides”) in Pike County. This permit is issued under the joint authority of the Pennsylvania Department of Environmental Protection (DEP) and the Pennsylvania Fish and Boat Commission (PFBC).

Your use of pesticides under this permit is subject to compliance with the conditions of the permit and any **Additional Requirements** noted in the permit. In addition, please note the following:

1. You should immediately cease your treatment(s) and contact the local Fish and Boat Commission Waterways Conservation Officer if you observe any unanticipated impacts to fish or other aquatic life as a result of your treatment(s).
2. You are required to use extreme caution and carefully follow the directions on the manufacturer’s label when using an algicide, herbicide or fish control chemical.
3. You are required to conduct algicide, herbicide or fish control chemical treatments in an environmentally safe manner.
4. The labels for some algicide, herbicide and fish control chemicals prescribe restricted usage of treated water for such things as drinking, swimming, watering livestock, irrigating and the consumption of fish. You must adhere to those restrictions.
5. If you use algicide, herbicide or fish control chemicals in areas open to the public, you are required to take appropriate actions to ensure public safety.
6. You must use appropriate safety practices at all times while storing, transporting, handling and applying any chemicals.
7. The permitted party is responsible for any damages caused by chemical usage, as well as complying with all applicable laws and regulations administered by the DEP and PFBC.

It is important that you understand the physical features of the water body, the various types of vegetation that are in and around the water, and the proper use of chemicals when using an

algicide, herbicide or fish control chemical. If you do not have experience in aquatic pesticide control, DEP recommends that you utilize the services of a professional consultant.

Please note that this joint permit does not expire. However, in the event that any of the following changes are proposed, you must submit a new application to amend your joint permit:

- Changes to the water bodies being treated.
- Increases in the maximum dose or to the number of annual treatments for any water body.
- Changes in the pesticide(s) used for treatment, unless the new pesticide(s) contain the same active ingredient(s) and the same or lower percent composition of the ingredient in comparison to the pesticide(s) previously approved by DEP/PFBC.

Any person aggrieved by this action may appeal the action to the Environmental Hearing Board (Board), pursuant to Section 4 of the Environmental Hearing Board Act, 35 P.S. § 7514, and the Administrative Agency Law, 2 Pa.C.S. Chapter 5A. The Board's address is:

Environmental Hearing Board
