Internal Review and Recommendations

The application submitted by the applicant requests a renewal for the NPDES permit for the Dillsburg Area Authority WWTP located at 32 Old Mill Road, Dillsburg, PA 17019 in York County, municipality of Carroll Township. A draft of the Fact Sheet and a draft of the NPDES was sent to the applicant in October 2021. A public notice of the renewal was placed in the PA Bulletin on November 13, 2021 (PA Bulletin, Volume 51, Number 46).

Comments were received during the minimum 30-day comment review period ending on December 13, 2021.

On November 19, 2021, Judy Musselman of GHD commented on the draft Fact Sheet and draft NPDES permit. DEP responses to the comments are as follows (See Attachment #1):

- Page numbers were added to the permit
- The facility has been identified as Dillsburg Area Authority WWTP
- Latitude and Longitude have been updated
- The design flow for Outfall 002 has been corrected to zero MGD design flow.

Internal Review and Recommendations

- Effluent requirements for phosphorus shall be required. The typographical error in the table in Section 6.1.2 has been noted.

On November 24, 2021, Jennifer Fulton of EPA did not have any comments. See attachment #2

There were no open violations as of December 2021.

The application is recommended to be finalized for issuance.

 Response to Draft Permit

Dear Ms. Bebenek,

A draft NPDES permit was received from DEP via email on October 29, 2021. The draft permit was published in the November 13, 2021 *Pennsylvania Bulletin*. Upon its publication date, the Authority has 30 days to provide comments to DEP on the draft permit, or by December 10, 2021. On behalf of the Dillsburg Area Authority, GHD offers the following comments.

Draft NPDES Permit No. PA0024431

1. **General** – Page numbers are not shown on all pages of permit. **We request that DEP add all page numbers to the final permit.**
2. **Page 1** – The facility is identified as the Dillsburg Borough STP. **Please change the name to Dillsburg Area Authority WWTP.**
3. **Pages 2 & 5** – Latitude and Longitude coordinates are not updated to those provided in application. **Please correct the coordinates as shown below in boldface type.**

Outfall	Old Coordinates	New Coordinates
001	40°07'1.00" 77°02'32.00"	40°07'4.12" 77°02'32.29"

OLD versus NEW

Dillsburg Area Authority 11210130

Internal Review and Recommendations

Attachment #2

Internal Review and Recommendations

Draft NPDES Permit Fact Sheet

4. Section 2.3 – Outfall 001 latitude and longitude coordinates are more accurately defined in the permit renewal application. In addition, there is No design flow for Outfall 002. **Please correct the coordinates as in #3 above and remove the design flow of 1.53 MGD for stormwater outfall 002.**
5. Sections 4.6.1 & 4.6.2 – Latitude and Longitude coordinates are different than provided in permit renewal application. **Please correct the coordinates as in #3 above.**
6. Section 6.1.2 – Table shows No effluent requirements for Total Phosphorus, however, that statement is incorrect as there are TP monthly average permit limits of 2.0 mg/L and 25 lbs/day. **Please revise this table.**

Thank you for your consideration. Do not hesitate to reach out to us if you have any further questions or comments.

Regards

Judy Musselman, BCES QEP
