Internal Review and Recommendations

The first draft of this application appeared in the PA Bulletin on Saturday, January 5, 2020. The final NPDES permit could not be issued due to open violations.

There are still 45 open violations for this client; however, there are currently no open violations for this facility.

A second draft of the NPDES permit is being issued because 6 months (or 180 days) have elapsed since the draft has been issued.

Sewage discharges now require monitoring and reporting for E. Coli. A monitoring frequency of 1/month for design flows \geq 1 MGD, 1/quarter for design flows \geq 0.05 and $<$ 1 MGD, 1/year for design flows of 0.002 – 0.05 MGD will be utilized.

All the permit documents have been updated to the newest format.
