Internal Review and Recommendations

Public notification of draft permit issuance was published in the PA Bulletin on January 18, 2025. No comments were received during the 30-day public comment period. NERO's Clean Water Monitoring & Compliance section pointed out a typographical error on the previous fact sheet where the facility was referred to as the Upper Saucon Township "WWWP" instead of the Upper Saucon Township "WWTP". The error is noted, and this fact sheet addendum correctly refers to the facility as a "WWTP".

Current DEP guidance requires monthly E. Coli monitoring/reporting at this facility. The requirement is added to the permit and another draft permit must be issued due to the changes made.
