Comment Period End Date	<u>September 16, 2019</u>	If No, Reason	<u>-</u>
Purpose of Application	<u>Application for a renewal and transfer of an NPDES permit for discharge of treated sewage.</u>		

Internal Review and Recommendations

A first draft of this permit appeared in the PA Bulletin on Saturday August 17, 2019. No comments were received during the 30-day comment period.

The final NPDES permit could not be issued due to eDMR paperwork not being submitted by the proposed permittee of the transfer. The eDMR paperwork was successfully processed on February 13, 2020. A second draft of the NPDES permit is being issued because 6 months (or 180 days) have elapsed since the first draft permit has been issued.

The "Requirements for Total Residual Chlorine (TRC)" condition was removed from Part C of the permit because the proposed limits are technology-based (not water-quality based). Therefore, this condition is not applicable to the permit.

The name of the facility was changed to Bum's Rush Restaurant WWTP and the facility contact was updated to Ray Hulings.

An "A-1" notation has been added after the NPDES permit number to represent the number of transfers since the original permit was issued.

No limitations or sampling frequencies have been changed from the first draft permit.

Please note that there is now an open violation for this facility that will need to be resolved before issuance of the final permit:

- December 18, 2019 - Violation ID 873545 – Violation Code: 92A.41(A)12B – NPDES-Failure to submit monitoring report(s) or properly complete monitoring reports (Program Specific ID: PA0061212).

The permittee is aware of this violation and is actively in the process of resolving the issue.
