Date Application Accepted	<u>September 12, 2022</u>	WQM App. No.	<u></u>
Project Description	<u>RENEWAL OF EXISTING NPDES SEWAGE PERMIT.</u>		

**Summary of Review**

The applicant is requesting renewal of NPDES Permit No. PA0061506 to discharge up to 0.000535 MGD of treated sewage to an unnamed tributary to Shehawken Creek, a HQ-CWF receiving water. The permit is being renewed with the same effluent limits as the previous permit since conditions have not changed at this small flow treatment facility.

The Fecal Coliform, TRC and pH effluent limitations are BPT based. The limitations for CBOD<sub>5</sub>, TSS and NH<sub>3</sub>-N are water quality-based.

Annual monitoring for E-coli has been added to this permit.

A compliance check performed on February 1, 2023, did not reveal any unresolved violations.

The EPA waiver is in effect.
