Purpose of Application	<u>Renewal of NPDES permit.</u>		

Internal Review and Recommendations

Public notification of draft permit issuance was published in the PA Bulletin on April 23, 2022. Open violations at the facility prevented issuance of the final permit. There are still three open violations for the facility that may warrant withholding issuance of the final permit. Another draft permit must be issued before the final permit due to the length of time since the previous draft permit was issued. The following comments/acknowledgements were received from Schuylkill County Municipal Authority during the 30-day comment period:

1. Effluent Monitoring Requirements

- a. E. Coli - SCMA notes the addition of this parameter as a quarterly monitoring requirement.*
- b. Total Zinc- SCMA notes the addition of this parameter as a yearly monitoring requirement.*
- c. Yearly Frequency- SCMA notes that Total Iron, Total Manganese, and Total Aluminum have been updated to yearly monitoring frequency.*

2. Chapter 92 Fees – SCMA notes that the Butler Township Wastewater Treatment Plant is classified as a Minor Sewage Facility with an annual Chapter 92 fee of \$1,000.
