Project Description	<u>Renewal of existing NPDES permit to discharge treated sewage effluent.</u>		

Summary of Review

The applicant is requesting the renewal of an NPDES permit to discharge 400gpd of treated sewage effluent to Deep Run, a High Quality-Cold Water Fishes receiving water in state water plan basin 2-A (Upper Lehigh River). As per the Department's current existing use list, the receiving stream does not have an existing use classification that is more protective than its designated use.

The system for this facility is as follows: Discharged sewage from a single-family home travels to an aerobic tanks, then to a sand filter, and finally disinfected with chlorine tablets. There are no current planned upgrades to this facility. The application and latest AMR reports the facility is current vacant.

Sampling and Effluent Limitations for this facility are in accordance with PA DEP's anti-backsliding policy. All effluent limitations from the previous permit period are transferred to this permit cycle.

The SOP for New and Reissuance Individual SRTF/SRSTP Permit recommends different and more strict parameters for TSS for IMAX and monthly average. These will go into effect on permit issuance. There is also a change to reporting statistical base code for TSS and CBOD₅. The previous permit listed the base code as "Daily maximum". This reporting code is changed to "Annual Average" in accordance with the listed SOP.

The Annual Maintenance Report (AMR) that's to be issued with the final permit shall be used to record the monitoring results. Discharge Monitoring Reports (DMRs) will not be sent with the final permit. EPA waiver is in effect.

Special condition "TRC Limits Below Quantitation Limits" or Part C 120 will be added to this permit.

Summary of Review

The previous permit expired on March 31, 2025, and the application was received on time. The previous inspection at this facility was an Administrative/File Review inspection and was held on 7/13/2022 and resulted in no NOVs. There are no open violations for this facility. Recommend approval.

Public Participation

DEP will publish notice of the receipt of the NPDES permit application and a tentative decision to issue the individual NPDES permit in the *Pennsylvania Bulletin* in accordance with 25 Pa. Code § 92a.82. Upon publication in the *Pennsylvania Bulletin*, DEP will accept written comments from interested persons for a 30-day period (which may be extended for one additional 15-day period at DEP's discretion), which will be considered in making a final decision on the application. Any person may request or petition for a public hearing with respect to the application. A public hearing may be held if DEP determines that there is significant public interest in holding a hearing. If a hearing is held, notice of the hearing will be published in the *Pennsylvania Bulletin* at least 30 days prior to the hearing and in at least one newspaper of general circulation within the geographical area of the discharge.
