**Internal Review and Recommendations**

A first draft of this permit renewal appeared in the PA Bulletin on May 2, 2020. A second draft of this application appeared in the PA Bulletin on September 12, 2020 due to a comment letter from the permittee. The final NPDES permit could not be issued due to open violations. A third draft of the NPDES permit is now being issued because 6 months (or 180 days) have elapsed since the second draft has been issued. There are currently no open violations.

Sewage discharges now require monitoring and reporting for E. Coli; therefore, this parameter has been added to the third draft permit. A monitoring frequency of 1/month for design flows  $\geq 1$  MGD, 1/quarter for design flows  $\geq 0.05$  and  $< 1$  MGD, 1/year for design flows of 0.002 – 0.05 MGD will be utilized.

The first and second draft permit documents listed Curt Steffy as the applicant contact. He has since retired. Effective March 2, 2020, Todd Duerr has replaced Mr. Steffy as the Responsible Official for Aqua's permits.

The standard template of the NPDES Permit was revised in October 2020 and has been used for this third draft permit.
