SIC Description	<u>Agriculture - Dairy Farms</u>	County	<u>Union</u>
Date Published in PA Bulletin	<u></u>	EPA Waived?	<u>Yes</u>
Comment Period End Date	<u></u>	If No, Reason	<u></u>
Purpose of Application	<u>Application for NPDES permit amendment for an existing dairy operation.</u>		

Internal Review and Recommendations

Troester Dairy's Individual CAFO permit renewal was issued on July 16, 2024 with an effective date of August 1, 2024. However, soon after issuance, Troester Dairy's NMP was approved, which resulted in an increased number of AEUs from 2,026.95 AEUs to 2,319.78 AEUs. This was mostly due to an increase in dairy cows, addition of a few beef finishers, and a departure of all small animal group livestock (goats) from the NMP. The operation has also decided to cease rental and remove all animals from the Lloyd and Heiss farms, in which the respective manure storages will no longer be utilized by the operation.

Aside from the AEU increase and removal of the satellite storages, no other changes are being made to the permit that was issued in July 2024, and the facility will now operate based off the most recently approved NMP for years 2025 – 2027, that was approved on September 11, 2024. Changes to animal numbers, AEUs, crop land, etc. will be reflected in the NPDES permit.
