Date Application Accepted	<u>May 3, 2024.</u>	If No, Reason	<u></u>
Purpose of Application	<u>Renewal of NPDES stormwater permit</u>		

Summary of Review

The applicant is requesting renewal of an NPDES permit to discharge stormwater associated with an industrial activity to Swabia Creek, a high-quality, cold-water fishery, migratory fishery-designated receiving stream (HQ-CWF, MF) in State Water Plan Basin 02-C. Per the Department's current existing use list, the receiving stream does not have an existing use classification that is more protective than the designated use. The discharge is not expected to affect public water supplies.

This facility activities include loading associated with the outdoor starch silo and indoor caustic tank. This activity is classified under SIC code 2653 and falls under **Appendix E** (Paper and Allied Products) of the new PAG 03 General Permit for sampling and reporting. Semiannual sampling and reporting include pH, Total Suspended Solids (TSS), Total Nitrogen, Total Phosphorus, and Chemical oxygen demand (COD). Benchmarks exist for pH, TSS and COD. Benchmarks values are not effluent limitations and exceedances do not constitute permit violations. However, if the permittee's sampling demonstrates exceedances of benchmark values for two or more consecutive monitoring periods, the permittee shall take action in accordance with Part C. III. F. of the permit.

A corrective action plan must be submitted to DEP if the discharge concentration for the parameters exceeds the benchmark values for two or more consecutive monitoring periods.

Previous permit limits for TSS and pH and COD are removed in this permit due to change in PAG03 General permit.

PPC plan implementation and completion of an annual inspection and compliance evaluation are required under the permit.

WMS Query by client was run and did not return any violations.

Summary of Review

Public Participation

DEP will publish notice of the receipt of the NPDES permit application and a tentative decision to issue the individual NPDES permit in the *Pennsylvania Bulletin* in accordance with 25 Pa. Code § 92a.82. Upon publication in the *Pennsylvania Bulletin*, DEP will accept written comments from interested persons for a 30-day period (which may be extended for one additional 15-day period at DEP's discretion), which will be considered in making a final decision on the application. Any person may request or petition for a public hearing with respect to the application. A public hearing may be held if DEP determines that there is significant public interest in holding a hearing. If a hearing is held, notice of the hearing will be published in the *Pennsylvania Bulletin* at least 30 days prior to the hearing and in at least one newspaper of general circulation within the geographical area of the discharge.
