Applicant and Facility Information

Applicant Name	<u>Cold Ridge Stone</u>	Facility Name	<u>Mack Saw Shop</u>
Applicant Address	<u>575 Old Kitchen Road</u> <u>Kingsley, PA 18826-6711</u>	Facility Address	<u>1400-1498 Sr 2055</u> <u>Brooklyn Twp, PA 18813</u>
Applicant Contact	<u>Lucas Mack</u>	Facility Contact	<u>Lucas Mack</u>
Applicant Phone	<u>(570) 983-7201</u>	Facility Phone	<u>(570) 983-7201</u>
Client ID	<u>369502</u>	Site ID	<u>856680</u>
SIC Code	<u>3281</u>	Municipality	<u>Brooklyn Township</u>
SIC Description	<u>Manufacturing - Cut Stone And Stone Products</u>	County	<u>Susquehanna</u>
Date Application Received	<u>April 12, 2022</u>	EPA Waived?	<u>Yes</u>
Date Application Accepted	<u>April 12, 2022</u>	If No, Reason	<u>-</u>
Purpose of Application	<u>NEW STORMWATER INDIVIDUAL PERMIT</u>		

Summary of Review

The applicant is requesting coverage under a new Individual NPDES permit to discharge stormwater associated with an industrial activity from existing Outfall 001. The receiving stream, Tributary 29003 Of Martins Creek, is classified as a CWF, MF (Cold Water Fishes, Migratory Fishes) designated receiving stream in State Water Plan Basin 4-F. As per the Department's current existing use list, the receiving stream does not have an existing use classification that is more protective than its designated use.

The facility is categorized by SIC code 3281 (Cut Stone and Stone Products) and falls under Appendix N monitoring requirements of the PAG-03 General Permit. Appendix N of the latest statewide PAG-03 General Permit requires semiannual monitoring/reporting of pH, Total Suspended Solids (TSS), Total Aluminum, and Total Iron. Benchmark values for pH and TSS are 9.0 and 100 mg/L. The benchmark values are not effluent limitations, and exceedances do not constitute permit violations. However, if the permittee's sampling demonstrates exceedances of benchmark values for two consecutive monitoring periods, the permittee shall submit a corrective action plan within 90 days of the end of the monitoring period triggering the plan.

The Stormwater Part C requirements include Best Management Practices (BMPs), Routine Inspections, Preparedness, Prevention, and Contingency Plan, and Stormwater Monitoring Requirements. In addition to the BMPs contained in Part C of the General Permit, the permittee shall implement Sector Specific BMPs included in Appendix N IV if coverage under this permit is approved.

It is not anticipated that there will be any wastewater discharge from this site due to the usage of recirculation ponds. Given the lack of discharge and the use of best management practices, there is not expected to be any measurable effect on the water quality of the receiving stream.

There are no open violations for this client that would warrant withholding the issuance of this permit.

Summary of Review

Public Participation

DEP will publish notice of the receipt of the NPDES permit application and a tentative decision to issue the individual NPDES permit in the *Pennsylvania Bulletin* in accordance with 25 Pa. Code § 92a.82. Upon publication in the *Pennsylvania Bulletin*, DEP will accept written comments from interested persons for a 30-day period (which may be extended for one additional 15-day period at DEP's discretion), which will be considered in making a final decision on the application. Any person may request or petition for a public hearing with respect to the application. A public hearing may be held if DEP determines that there is significant public interest in holding a hearing. If a hearing is held, notice of the hearing will be published in the *Pennsylvania Bulletin* at least 30 days prior to the hearing and in at least one newspaper of general circulation within the geographical area of the discharge.
