Date Application Accepted	<u>May 23, 2023</u>	If No, Reason	<u></u>
Purpose of Application	<u>Renewal of NPDES permit to discharge industrial stormwater</u>		

**Summary of Review**

The applicant is requesting renewal of their NPDES permit to discharge stormwater associated with industrial activity to Bowman Creek, a HQ-CWF/MF (High Quality-Cold Water Fishes/ Migratory Fishes) designated receiving stream in state water plan basin 04-G (Mehoopany-Bowman Creeks). As per the Department's current existing use list, the receiving stream does not have an existing use classification that is more protective than its designated use.

The facility is classified under SIC Code 3273 – Manufacturing – Ready-Mixed Concrete and falls under **Appendix N** of PAG-03 general permit and monitoring requirements for this industrial stormwater classification. Monitoring/reporting exists for pH (S.U.), Total Suspended Solids (TSS), Total Nitrogen, Total Phosphorus, Total Aluminum and Total Iron. Benchmarks exist for TSS and pH.

Benchmark values are not effluent limitations, and exceedances do not constitute permit violations. However, if the permittee's sampling demonstrates exceedances of benchmark values for two or more consecutive monitoring periods, the permittee shall take action in accordance with Part C. V. F. of the permit. A corrective action plan must be submitted to DEP if the discharge concentration for the parameters exceeds the benchmark values for two or more consecutive monitoring periods.

Previous limits for TSS and pH were removed in this permit term due to change in the latest PAG03 general permit.

A Unified Contingency Plan, Spill Prevention & Countermeasure and PPC plan (updated 2023) was submitted with the application.

Inspection and compliance evaluation were performed August 24, 2021.

WMS query by client report was run and no violations exist for this client.

**Summary of Review**

Public Participation

DEP will publish notice of the receipt of the NPDES permit application and a tentative decision to issue the individual NPDES permit in the *Pennsylvania Bulletin* in accordance with 25 Pa. Code § 92a.82. Upon publication in the *Pennsylvania Bulletin*, DEP will accept written comments from interested persons for a 30-day period (which may be extended for one additional 15-day period at DEP's discretion), which will be considered in making a final decision on the application. Any person may request or petition for a public hearing with respect to the application. A public hearing may be held if DEP determines that there is significant public interest in holding a hearing. If a hearing is held, notice of the hearing will be published in the *Pennsylvania Bulletin* at least 30 days prior to the hearing and in at least one newspaper of general circulation within the geographical area of the discharge.
