Date Application Accepted	<u>March 30, 2024.</u>	If No, Reason	<u></u>
Purpose of Application	<u>Renewal of Individual Stormwater permit</u>		

Summary of Review

The applicant is requesting renewal of their NPDES permit to discharge stormwater associated with industrial activity to an Unnamed Tributary to Bushkill Creek, a HQ-CWF, MF (High Quality-Cold Water Fishes, Migratory Fishes) designated receiving stream in state water plan basin 1-F (Jacoby – Bushkill Creeks). As per the Department's current existing use list, the receiving stream has an existing use classification that is more protective than its designated use. The existing use classification is Exceptional Value, Migratory Fish (EV, MF). Stormwater discharge from this facility was in existence prior to the EV designation.

The facility is categorized by SIC code 5015 (Wholesale Trade – Motor Vehicle Parts, Used) and 5093 (Whole Trade – Scrap and Waste Materials) and falls under Appendix O and P monitoring requirements of the PAG-03 General Permit. Semiannual monitoring / reporting is included for Total Nitrogen, Total Phosphorus, Total Suspended Solids (TSS), Oil & Grease, Chemical Oxygen Demand (COD), Total Aluminum, Total Zinc, Total Copper, Total Lead. Benchmarks exist for Oil & Grease, COD, and TSS.

Benchmark values are not effluent limitations, and exceedances do not constitute permit violations. However, if the permittee's sampling demonstrates exceedances of benchmark values for two or more consecutive monitoring periods, the permittee shall take action in accordance with Part C. V. F. of the permit. A corrective action plan must be submitted to DEP if the discharge concentration for the parameters exceeds the benchmark values for two or more consecutive monitoring periods. Previous permit limit for TSS, Oil & Grease and COD are removed in this permit due to change in PAG03 General permit.

PPC plan implementation and completion of an annual inspection and compliance evaluation are required under the permit.

An inspection was performed May 18, 2022.

Summary of Review

Public Participation

DEP will publish notice of the receipt of the NPDES permit application and a tentative decision to issue the individual NPDES permit in the *Pennsylvania Bulletin* in accordance with 25 Pa. Code § 92a.82. Upon publication in the *Pennsylvania Bulletin*, DEP will accept written comments from interested persons for a 30-day period (which may be extended for one additional 15-day period at DEP's discretion), which will be considered in making a final decision on the application. Any person may request or petition for a public hearing with respect to the application. A public hearing may be held if DEP determines that there is significant public interest in holding a hearing. If a hearing is held, notice of the hearing will be published in the *Pennsylvania Bulletin* at least 30 days prior to the hearing and in at least one newspaper of general circulation within the geographical area of the discharge.
