Purpose of Application	n	Renewal of NPDES permit to disch	narge individual stormwa	ater.		

#### **Summary of Review**

The applicant is requesting renewal of their NPDES permit to discharge stormwater associated with industrial activity to an Unnamed Tributary to Monocacy Creek, a HQ-CWF/MF (High Quality-Cold Water Fishes/ Migratory Fishes) designated receiving stream in state water plan basin 2-C (Lower Lehigh River). As per the Department's current existing use list, the receiving stream does not have an existing use classification that is more protective than its designated use.

The facility is categorized by SIC code 4213 (Trans. & Utilities - Trucking, Except Local) and falls under Appendix L monitoring requirements of the PAG-03 General Permit.

Appendix L of the latest PAG-03 General Permit includes benchmark values for Total Suspended Solids (TSS) and Oil and Grease. All industries classified under Appendix L should be within these values (100 mg/L for TSS and 30 mg/L for Oil and Grease). The values are included as IMAX limitations and should be sampled semi-annually. Semi-annual monitoring and reporting for pH are also required under this permit. Monitoring and reporting requirements for CBOD5, Chemical Oxygen Demand, Total Kjeldahl Nitrogen, Total Phosphorus, and Total Iron are removed from the permit as per updated requirements under Appendix L.

PPC Plan implementation and completion of an annual inspection and compliance evaluation are required under the permit. The previously issued permit expired on August 31, 2016. The renewal application was received late on July 31, 2017. Renewal applications for individual permits must be submitted 180 days prior to the expiration date of the permit.

A Water Management System Inspection query was run. On 2/01/2016 a Compliance Evaluation was performed.

There are 3 open violations for this client from 04/11/2017 for "NPDES-Failure to use a format or process required by DEP for self-monitoring results. One of these violations is for this site (UPS Freight – PABHL Facility). EPA waiver is in effect.

### **Summary of Review**

#### **Public Participation**

DEP will publish notice of the receipt of the NPDES permit application and a tentative decision to issue the individual NPDES permit in the *Pennsylvania Bulletin* in accordance with 25 Pa. Code § 92a.82. Upon publication in the *Pennsylvania Bulletin*, DEP will accept written comments from interested persons for a 30-day period (which may be extended for one additional 15-day period at DEP's discretion), which will be considered in making a final decision on the application. Any person may request or petition for a public hearing with respect to the application. A public hearing may be held if DEP determines that there is significant public interest in holding a hearing. If a hearing is held, notice of the hearing will be published in the *Pennsylvania Bulletin* at least 30 days prior to the hearing and in at least one newspaper of general circulation within the geographical area of the discharge.
