Date Application Accepted	<u>July 19, 2023</u>	If No, Reason	
Purpose of Application	<u>NPDES renewal permit</u>		

Summary of Review

The applicant is requesting a renewal of their NPDES permit to discharge stormwater associated with industrial activity to an Unnamed Tributary to Rucks Run, an EV, MF (Exceptional Value, Migratory Fishes) designated receiving stream in State Water Plan Basin 2-A (Upper Lehigh River). As per the Department's current existing use list, the receiving stream does not have an existing use classification that is more protective than its designated use.

This facility's industrial activities are limited to terminals petroleum wholesaling with SIC code 5117 and special warehousing With SIC code 4226. Both of these activities fall under **Appendix L** monitoring requirement of the latest PAG03 General Permit.

Appendix L of the latest (2023) PAG-03 permit includes semiannual sampling/reporting for Total Nitrogen, Total Phosphorus, Total Suspended Solids (TSS) and Oil & Grease. Benchmarks exist for TSS and Oil and Grease.

Permit limits for (Oil & Grease -30mg/l IMax) stay in current permit based upon §95.2(2)(ii) for industrial waste discharger.

Benchmark values are not effluent limitations, and exceedances do not constitute permit violations. However, if the permittee's sampling demonstrates exceedances of benchmark values for two or more consecutive monitoring periods, the permittee shall take action in accordance with Part C. V. F. of the permit. A corrective action plan must be submitted to DEP if the discharge concentration for the parameters exceeds the benchmark values for two or more consecutive monitoring periods.

An Admin inspection was performed by the operations section and cited previous violations which are currently corrected by the permittee consultant.

Summary of Review

WMS query by client report was run and no violations found.

Public Participation

DEP will publish notice of the receipt of the NPDES permit application and a tentative decision to issue the individual NPDES permit in the *Pennsylvania Bulletin* in accordance with 25 Pa. Code § 92a.82. Upon publication in the *Pennsylvania Bulletin*, DEP will accept written comments from interested persons for a 30-day period (which may be extended for one additional 15-day period at DEP's discretion), which will be considered in making a final decision on the application. Any person may request or petition for a public hearing with respect to the application. A public hearing may be held if DEP determines that there is significant public interest in holding a hearing. If a hearing is held, notice of the hearing will be published in the *Pennsylvania Bulletin* at least 30 days prior to the hearing and in at least one newspaper of general circulation within the geographical area of the discharge.
